

Dialogues from Oppenheimer to improve the vocabulary in English

2

00:00:29,764 --> 00:00:33,501

-(suspenseful music playing)

-(rain pattering)

3

00:00:44,879 --> 00:00:47,047

(violent whooshing)

4

00:00:52,854 --> 00:00:55,289

(erupting)

5

00:00:56,456 --> 00:00:59,126

(disembodied rhythmic stomping)

6

00:00:59,159 --> 00:01:01,194

(music intensifying)

7

00:01:03,698 --> 00:01:06,233

(stomping intensifying)

8

00:01:15,142 --> 00:01:16,878

-(stomping stops)

-(exhales)

9

00:01:16,911 --> 00:01:19,146

(pensive music playing)

10

00:01:19,179 --> 00:01:21,214

GORDON GRAY:

Dr. Oppenheimer.

11

00:01:22,215 --> 00:01:23,417

Dr. Oppenheimer.

12

00:01:24,752 --> 00:01:26,353

As we begin, I believe you have

13

00:01:26,386 --> 00:01:28,388

a statement to read

into the record.

14

00:01:30,223 --> 00:01:31,425

Yes, Your Honor.

15

00:01:31,458 --> 00:01:33,561

WARD EVANS:

We're not judges, Doctor.

16

00:01:33,595 --> 00:01:34,629

ROBERT:

No.

17

00:01:35,730 --> 00:01:37,130

Of course.

18

00:01:42,336 --> 00:01:45,272

Members of the security board,

19

00:01:45,305 --> 00:01:47,609

the so-called

derogatory information

20

00:01:47,642 --> 00:01:50,545

in your indictment of me
cannot be fairly understood,

21

00:01:50,578 --> 00:01:54,414

except in the context
of my life and my work.

22

00:01:55,382 --> 00:01:57,619

SENATE AIDE:

How long did he testify?

23

00:01:57,652 --> 00:01:59,386

Honestly, I forget.

24

00:02:00,788 --> 00:02:02,757

The whole hearing took a month.

25

00:02:02,790 --> 00:02:04,224

An ordeal, hmm?

26

00:02:04,257 --> 00:02:05,927

Well, I've only
read the transcripts.

27

00:02:05,960 --> 00:02:07,427

(clears throat)

28

00:02:08,495 --> 00:02:10,230

Who'd want to justify
their whole life?

29

00:02:10,263 --> 00:02:11,498

You weren't there?

30

00:02:11,532 --> 00:02:13,835

As chairman,
I wasn't allowed to be.

31

00:02:13,868 --> 00:02:16,436

Are they really
going to ask about it?

32

00:02:16,470 --> 00:02:18,573

-It was years ago.

-Four years ago...

33

00:02:18,606 --> 00:02:19,641

Five.

34

00:02:20,508 --> 00:02:22,242

Oppenheimer

still divides America.

35

00:02:22,275 --> 00:02:24,646

The committee is gonna want
to know where you stood.

36

00:02:24,679 --> 00:02:26,781

Senator Thurmond asked me to say

37

00:02:26,814 --> 00:02:28,650

not to feel that
you're on trial.

38

00:02:28,683 --> 00:02:32,219

Oh, funny, I didn't
till you just said that.

39

00:02:32,252 --> 00:02:33,855

-Really, Mr. Strauss...

-It's Admiral.

40

00:02:33,888 --> 00:02:36,824

Um, Admiral Strauss.

This is a formality.

41

00:02:36,858 --> 00:02:39,359

President Eisenhower has asked
you to be in his cabinet.

42

00:02:39,393 --> 00:02:41,261

Senate really has no choice
but to confirm you.

43

00:02:41,294 --> 00:02:43,531

And if they bring up
Oppenheimer?

44

00:02:43,564 --> 00:02:45,933

When they bring up Oppenheimer,
you answer honestly.

45

00:02:45,967 --> 00:02:48,368

No senator can deny
you did your duty.

46

00:02:48,402 --> 00:02:50,538

It'll be uncomfortable.
(chuckles awkwardly)

47

00:02:50,571 --> 00:02:52,707

Who'd want to justify
their whole life?

48

00:02:53,808 --> 00:02:55,442

(clamoring)

49

00:02:57,645 --> 00:03:00,347

ROGER ROBB: Why did you leave
the United States?

50

00:03:02,449 --> 00:03:05,853

I, uh... I wanted to study
the new physics.

51

00:03:05,887 --> 00:03:07,421

GRAY:

Was there nowhere here?

52

00:03:07,454 --> 00:03:09,456

I thought Berkeley

had the leading

53

00:03:09,489 --> 00:03:11,324

theoretical physics department.

54

00:03:11,358 --> 00:03:13,928

Yes. Once I built it.

55

00:03:13,961 --> 00:03:15,563

But first I had to go to Europe.

56

00:03:15,596 --> 00:03:18,966

I went to Cambridge to study

under Patrick Blackett.

57

00:03:19,000 --> 00:03:21,602

Were you happier there
than in America?

58

00:03:21,636 --> 00:03:23,771

-Happier?

-Yes.

59

00:03:23,805 --> 00:03:26,339

(unsettling music playing)

60

00:03:27,742 --> 00:03:30,745

No. No, I, uh...

61

00:03:33,748 --> 00:03:35,583

<i>I was homesick, um...</i>

62

00:03:36,450 --> 00:03:38,418

...emotionally immature...

63

00:03:39,587 --> 00:03:44,726

<i>...troubled by visions</i>

<i>of a hidden universe.</i>

64

00:03:44,759 --> 00:03:46,226

(soft blast)

65

00:03:48,763 --> 00:03:51,532

(rumbling)

66

00:03:55,770 --> 00:03:57,605

Useless in the lab.

67

00:03:57,638 --> 00:03:59,239

(glass shattering)

68

00:04:02,643 --> 00:04:04,746

Christ, Oppenheimer.

69

00:04:04,779 --> 00:04:06,848

Have you had any sleep?

70

00:04:08,649 --> 00:04:09,884

Start again.

71

00:04:09,917 --> 00:04:12,419

I need to go
to the lecture, sir.

72

00:04:12,452 --> 00:04:13,855

Why?

73

00:04:13,888 --> 00:04:15,790

It's Niels Bohr.

74

00:04:18,593 --> 00:04:20,293

BLACKETT:

Damn, completely forgot.

75

00:04:20,327 --> 00:04:22,530

All right. (clears throat)

Let's go.

76

00:04:24,866 --> 00:04:26,768

-Oh, no, not you, Oppenheimer.

-(students laughing)

77

00:04:26,801 --> 00:04:27,902

You finish coating those plates.

78

00:04:27,935 --> 00:04:29,771

STUDENT 1:

You see them?

79

00:04:29,804 --> 00:04:31,606

(students laughing)

80

00:04:35,342 --> 00:04:37,310

STUDENT 2:

Don't forget to clean up!

81

00:05:03,370 --> 00:05:04,839

(cabinet door closes)

82

00:05:08,475 --> 00:05:12,412

BOHR: *Quantum physics*

is not a step forward,

83

00:05:12,445 --> 00:05:15,950

it is a new way

to understand reality.

84

00:05:15,983 --> 00:05:19,554

Einstein's opened the door,
now we are peering through,

85

00:05:19,587 --> 00:05:22,489

seeing a world inside our world.

86

00:05:22,523 --> 00:05:27,929

A world of energy and paradox
that not everyone can accept.

87

00:05:29,564 --> 00:05:32,567

(unsettling music continues)

88

00:05:36,737 --> 00:05:38,338

(rumbling)

89

00:05:58,491 --> 00:06:00,393

-(music fades out)

-(bell tolling)

90

00:06:04,131 --> 00:06:05,900

(indistinct chatter)

91

00:06:10,037 --> 00:06:11,471

Yeah, definitely.

92

00:06:11,505 --> 00:06:12,874

-(panting)

-Are you all right?

93

00:06:14,108 --> 00:06:15,943

Niels, meet

J. Robert Oppenheimer.

94

00:06:15,977 --> 00:06:17,477

BOHR:

What's the "J" stand for?

95

00:06:17,511 --> 00:06:19,479

Nothing, apparently.

96

00:06:19,513 --> 00:06:20,615

You were at my lecture.

97

00:06:20,648 --> 00:06:22,049

You asked
the only good question.

98

00:06:22,083 --> 00:06:23,818

BLACKETT:

No one's denying his insight.

99

00:06:23,851 --> 00:06:25,920

It's his laboratory work that
leaves a little to be desired.

100

00:06:25,953 --> 00:06:27,788

(swallows) I heard
you give the same lecture...

101

00:06:27,822 --> 00:06:31,025

At Harvard, yes, and you
asked the same question.

102

00:06:31,058 --> 00:06:32,159

Why ask again?

103

00:06:32,193 --> 00:06:33,794

Hadn't liked your answer.

104

00:06:35,162 --> 00:06:36,898

Did you like it better
yesterday?

105

00:06:36,931 --> 00:06:38,199

A lot.

106

00:06:38,232 --> 00:06:40,134

You can lift the stone
without being ready

107

00:06:40,167 --> 00:06:42,536

for the snake that's revealed.

108

00:06:42,570 --> 00:06:44,705

Now it seems you're ready.

109

00:06:44,739 --> 00:06:47,041

-But you don't enjoy the lab?

-(continues panting)

110

00:06:47,074 --> 00:06:49,944

So get out of Cambridge
with its beakers and potions.

111

00:06:49,977 --> 00:06:52,947

Go somewhere they let you think.

112

00:06:53,948 --> 00:06:55,583

(whispers):

Where?

113

00:06:56,217 --> 00:06:57,218

Göttingen.

114

00:06:57,251 --> 00:06:59,186

-Born?

-Born.

115

00:06:59,220 --> 00:07:01,188

Get to Germany,

study under Max Born.

116

00:07:01,222 --> 00:07:03,858

Learn the ways of theory.

117

00:07:03,891 --> 00:07:04,926

I'll send word.

118

00:07:04,959 --> 00:07:06,527

(gasps)

119

00:07:06,560 --> 00:07:08,663

-Wormhole. (exhales)

-(apple clatters in trashcan)

120

00:07:08,696 --> 00:07:10,064

How's your mathematics?

121

00:07:10,097 --> 00:07:12,066

Not good enough for
the physicist he wants to be.

122

00:07:12,099 --> 00:07:14,669

Algebra's like sheet music.

123

00:07:14,702 --> 00:07:17,171

The important thing isn't

"Can you read music?"

124

00:07:17,204 --> 00:07:18,205

It's "Can you hear it?"

125

00:07:18,239 --> 00:07:21,542

Can you hear the music, Robert?

126

00:07:22,510 --> 00:07:24,078

Yes, I can.

127

00:07:24,111 --> 00:07:26,647

(classical music playing)

128

00:07:28,816 --> 00:07:31,484

-(rumbling)

-(metallic clinking)

129

00:07:33,654 --> 00:07:35,990

(music intensifying)

130

00:08:10,658 --> 00:08:13,761

(intense classical music
continues)

131

00:08:18,766 --> 00:08:20,901

(rumbling)

132

00:08:34,849 --> 00:08:36,917

(rumbling)

133

00:08:42,256 --> 00:08:44,058

(music tempo increasing)

134

00:08:58,939 --> 00:08:59,774

(music ends)

135

00:08:59,807 --> 00:09:01,308

The senator from Wyoming.

136

00:09:02,276 --> 00:09:04,745

Admiral Strauss, I'm interested
in your relationship

137

00:09:04,779 --> 00:09:07,648

with Dr. J. Robert Oppenheimer.

138

00:09:07,681 --> 00:09:09,283

You met him in 1947?

139

00:09:09,316 --> 00:09:10,284

Correct.

140

00:09:10,317 --> 00:09:12,086

You were commissioner

141

00:09:12,119 --> 00:09:13,687

of the Atomic Energy Commission?

142

00:09:13,721 --> 00:09:17,658

I was, but I-I actually
met Robert in my capacity

143

00:09:17,691 --> 00:09:20,361

as board member of the
Institute for Advanced Study

144

00:09:20,394 --> 00:09:22,196

at Princeton because

145

00:09:22,229 --> 00:09:24,865

after the war,
he was world-renowned

146

00:09:24,899 --> 00:09:27,301

as the great man of physics,
and I was determined

147

00:09:27,334 --> 00:09:30,037

to get him to run the Institute.

148

00:09:30,071 --> 00:09:32,173

(birds chirping)

149

00:09:32,206 --> 00:09:34,875

(soft music playing)

150

00:09:39,213 --> 00:09:42,283

Dr. Oppenheimer. An honor.

151

00:09:42,316 --> 00:09:43,651

Mr. Strauss.

152

00:09:43,684 --> 00:09:44,985

It's pronounced "straws."

153

00:09:45,886 --> 00:09:47,354

ROBERT:

Oh-ppenheimer, Oppenheimer.

154

00:09:47,388 --> 00:09:49,256

Whatever way you say it,
they know I'm Jewish.

155

00:09:49,290 --> 00:09:50,758

(Strauss chuckles)

156

00:09:50,791 --> 00:09:53,394

I'm president of Temple Emanu-El
in Manhattan.

157

00:09:53,427 --> 00:09:55,696

"Straws" is just
the Southern pronunciation.

158

00:09:55,729 --> 00:09:56,764

-Ah.

-Anyway,

159

00:09:56,797 --> 00:09:58,232

welcome to the Institute.

160

00:09:58,265 --> 00:09:59,900

I think you could be
very happy here.

161

00:09:59,934 --> 00:10:01,869

Yes, well,
you'll love the commute.

162

00:10:01,902 --> 00:10:03,237

The position comes
with that house

163

00:10:03,270 --> 00:10:04,738

for you and your wife

164

00:10:04,772 --> 00:10:06,941

and your, is it two children?

165

00:10:06,974 --> 00:10:07,775

Yes, two.

166

00:10:07,808 --> 00:10:10,744

I'm a great admirer
of your work.

167

00:10:10,778 --> 00:10:12,980

And you're a physicist
by training, Mr. Strauss?

168

00:10:13,013 --> 00:10:15,082

I'm sorry, uh,
common room 4:00 tea.

169

00:10:15,116 --> 00:10:17,885

No, I'm not trained in physics
or anything else.

170

00:10:17,918 --> 00:10:19,753

-I'm a self-made man.

-Ah.

171

00:10:19,787 --> 00:10:21,789

-I can relate to that.

-Really?

172

00:10:21,822 --> 00:10:24,158

Yes, my father was one.

173

00:10:24,191 --> 00:10:27,761

And this would be your office.

174

00:10:36,937 --> 00:10:38,873

I'm told he's there

most afternoons.

175

00:10:38,906 --> 00:10:41,008

You know, I've always wondered

176

00:10:41,041 --> 00:10:44,645

why you didn't involve him
in the Manhattan Project.

177

00:10:45,412 --> 00:10:48,916

Greatest scientific mind
of our time.

178

00:10:48,949 --> 00:10:50,818

Of his time.

179

00:10:50,851 --> 00:10:52,887

Einstein published
his Theory of Relativity

180

00:10:52,920 --> 00:10:55,856

more than 40 years ago now.

181

00:10:56,924 --> 00:10:59,360

But never embraced
the quantum world it revealed.

182

00:10:59,393 --> 00:11:00,928

"God doesn't play dice."

183

00:11:00,961 --> 00:11:02,930

Precisely.

184

00:11:02,963 --> 00:11:05,766

You never thought of studying
physics formally, Mr. Strauss?

185

00:11:05,799 --> 00:11:08,169

Well, I had offers,
but I chose to sell shoes.

186

00:11:08,202 --> 00:11:11,705

Lewis Strauss was once
a lowly shoe salesman.

187

00:11:12,473 --> 00:11:14,375

No, just a shoe salesman.

188

00:11:14,408 --> 00:11:16,677

Huh.

189

00:11:17,945 --> 00:11:20,714

-I'd love to introduce you.

-No need.

190

00:11:21,815 --> 00:11:23,284

I have known him for years.

191

00:11:29,857 --> 00:11:32,259

(soft music continues)

192

00:11:44,506 --> 00:11:46,207

Albert.

193

00:11:46,240 --> 00:11:49,276

(pensive music playing)

194

00:11:50,811 --> 00:11:55,015

What was that?

What did you say to him?

195

00:11:57,151 --> 00:11:58,185

Oh, he's fine.

196

00:12:00,054 --> 00:12:03,357

Mr. Strauss,

there are things in my past

197

00:12:03,390 --> 00:12:04,892

you ought to be aware of.

198

00:12:04,925 --> 00:12:06,827

Well, as chairman of the AEC,

199

00:12:06,860 --> 00:12:08,329

I have access

to your security file.

200

00:12:08,362 --> 00:12:09,363

I've read it.

201

00:12:09,396 --> 00:12:10,965

-You're not worried?

-No.

202

00:12:10,998 --> 00:12:12,366

Why would I be worried

after everything

203

00:12:12,399 --> 00:12:13,867

you've done for your country?

204

00:12:13,901 --> 00:12:15,369

Well, times change, Mr. Strauss.

205

00:12:15,402 --> 00:12:17,238

Well, the purpose

of this institute

206

00:12:17,271 --> 00:12:19,940

is to provide a haven

for independent minds.

207

00:12:20,874 --> 00:12:23,877

That's you.

You are the man for the job.

208

00:12:23,911 --> 00:12:26,514

Well, then I'll consider it.

209

00:12:26,548 --> 00:12:28,816

I'll see you

at the AEC meeting tomorrow.

210

00:12:32,119 --> 00:12:33,187

(scoffs)

211

00:12:33,220 --> 00:12:34,788

This is one

of the most prestigious

212

00:12:34,822 --> 00:12:36,558

appointments in the country.

213

00:12:36,591 --> 00:12:38,792

Yes, with a great commute.

214

00:12:38,826 --> 00:12:41,128

That's why I'm considering it.

215

00:12:41,161 --> 00:12:42,930

SENATOR McGEE:

<i>So, Dr. Oppenheimer brought</i>

216

00:12:42,963 --> 00:12:45,366

<i>your attention</i>

<i>to his past associations</i>

217

00:12:45,399 --> 00:12:46,534

<i>before you appointed him?</i>

218

00:12:46,568 --> 00:12:48,002

Yes.

219

00:12:48,035 --> 00:12:49,870

And it didn't concern you?

220

00:12:49,903 --> 00:12:51,438

Just then,

I was entirely consumed

221

00:12:51,472 --> 00:12:55,242

with what he must have said
to Einstein to sour him on me.

222

00:12:55,276 --> 00:12:57,778

(laughter)

223

00:12:58,846 --> 00:13:00,047

But later?

224

00:13:00,080 --> 00:13:02,016

Well, we all know
what happened later.

225

00:13:02,049 --> 00:13:04,418

ROBB: Doctor, your, uh...
your time in Europe,

226

00:13:04,451 --> 00:13:06,020

you seemed to meet
with a wide range

227

00:13:06,053 --> 00:13:07,488
of other countries' physicists.

228

00:13:07,522 --> 00:13:08,523
Yes, that's right.

229

00:13:08,556 --> 00:13:10,824
Any Russians?

230

00:13:11,892 --> 00:13:13,327
None that spring to mind.

231

00:13:13,360 --> 00:13:16,263
If you'll just allow me to
continue with my statement...

232

00:13:16,297 --> 00:13:19,266
Mr. Robb, you'll have ample
opportunity to cross-examine.

233

00:13:21,503 --> 00:13:24,438

ROBERT: After Göttingen,
I moved on to Leiden in Holland

234

00:13:24,471 --> 00:13:27,509

<i>where I first met Isidor Rabi.</i>

235

00:13:27,542 --> 00:13:30,044

(clears throat) Excuse me.

236

00:13:30,077 --> 00:13:31,178

(grunts)

237

00:13:33,080 --> 00:13:33,947

(sighs)

238

00:13:33,981 --> 00:13:36,317

A Yank,
lecturing on the new physics?

239

00:13:36,350 --> 00:13:37,418

This I have to hear.

240

00:13:37,451 --> 00:13:39,486

I'm an American myself.

241

00:13:39,521 --> 00:13:41,021

How surprising.

242

00:13:41,055 --> 00:13:42,122

Um...

243

00:13:42,156 --> 00:13:44,425

Let me know if you need
any help with the English.

244

00:13:45,959 --> 00:13:48,862

(scattered laughter)

245

00:13:51,432 --> 00:13:54,101

(speaking Dutch)

246

00:13:58,405 --> 00:14:00,374

Wait, what's he saying?

247

00:14:03,477 --> 00:14:05,979

(door opens)

248

00:14:08,550 --> 00:14:09,983

(Rabi grunts)

249

00:14:10,918 --> 00:14:11,952

No, thank you.

250

00:14:11,985 --> 00:14:13,954

It's a long way to Zurich.

251

00:14:13,987 --> 00:14:15,623

You get any skinnier,

we're gonna lose you

252

00:14:15,657 --> 00:14:17,491

between the seat cushions.

253

00:14:17,525 --> 00:14:18,560

I'm Rabi.

254

00:14:18,593 --> 00:14:19,960

Oppenheimer.

255

00:14:19,993 --> 00:14:22,029

I caught your lecture

on molecules.

256

00:14:22,062 --> 00:14:23,197

Caught some of it.

257

00:14:24,331 --> 00:14:26,500

We're a couple of New York Jews.

How do you know Dutch?

258

00:14:26,534 --> 00:14:28,102

Well, I thought

I'd better learn it

259

00:14:28,135 --> 00:14:29,303

when I got here this semester.

260

00:14:29,336 --> 00:14:30,938

You learned enough Dutch
in six weeks

261

00:14:30,971 --> 00:14:32,674

to give a lecture
on quantum mechanics?

262

00:14:32,707 --> 00:14:34,208

Wanted to challenge myself.

263

00:14:34,241 --> 00:14:36,611

Quantum physics wasn't
challenging enough.

264

00:14:36,644 --> 00:14:38,379

<i>-Schvitzer.</i>

<i>-Schvitzer?</i>

265

00:14:38,412 --> 00:14:40,314

-Show-off.

-(chuckles)

266

00:14:40,347 --> 00:14:42,182

Dutch in six weeks,
but you never learned Yiddish?

267

00:14:42,216 --> 00:14:44,284

They don't speak it so much
my side of the park.

268

00:14:44,318 --> 00:14:45,386

Screw you.

269

00:14:46,487 --> 00:14:47,988

You homesick?

270

00:14:48,021 --> 00:14:49,423

Oh, you know it.

271

00:14:50,391 --> 00:14:53,394

Ever get the feeling our kind
isn't entirely welcome here?

272

00:14:53,427 --> 00:14:54,495

Physicists?

273

00:14:54,529 --> 00:14:56,029

'S funny.

274

00:14:56,063 --> 00:14:58,132

Not in the department.

275

00:14:58,165 --> 00:14:59,466

They're all Jewish too.

276

00:15:01,569 --> 00:15:02,970

Eat.

277

00:15:05,272 --> 00:15:07,408

There's a German

you have to seek out.

278

00:15:08,442 --> 00:15:10,978

-Heisenberg.

-Right.

279

00:15:13,046 --> 00:15:15,382

(Heisenberg speaking German)

280

00:15:20,154 --> 00:15:21,656

One might be led
to the presumption

281

00:15:21,689 --> 00:15:24,158

that behind the quantum world,

282

00:15:24,191 --> 00:15:28,061

there still hides a real world
in which causality holds,

283

00:15:28,095 --> 00:15:30,297

but such speculation seem to us,

284

00:15:30,330 --> 00:15:33,066

to say it explicitly, fruitless.

Thank you.

285

00:15:33,100 --> 00:15:34,536

Have a great day.

286

00:15:37,471 --> 00:15:39,707

(indistinct chatter)

287

00:15:39,741 --> 00:15:41,442

-Wonderful.

-Thank you.

288

00:15:41,475 --> 00:15:42,710

Dr. Oppenheimer.

289

00:15:42,744 --> 00:15:44,679

Oppenheimer, yes.

290

00:15:44,712 --> 00:15:46,581

I liked your paper on molecules.

291

00:15:46,614 --> 00:15:48,115

Probably because

you inspired it.

292

00:15:48,148 --> 00:15:49,651

If I inspire anything else,

let me know.

293

00:15:49,684 --> 00:15:50,718

We could publish together.

294

00:15:50,752 --> 00:15:52,587

I have to get back to America.

295

00:15:52,620 --> 00:15:54,354

Why? There's no one there

296

00:15:54,388 --> 00:15:56,591

taking quantum mechanics

seriously.

297

00:15:56,624 --> 00:15:58,225

-That's exactly why.

-(sighs)

298

00:15:58,258 --> 00:16:00,695

He's pining for the canyons

of Manhattan.

299

00:16:00,728 --> 00:16:03,163

ROBERT:

Canyons of New Mexico.

300

00:16:03,197 --> 00:16:04,331

-You're from New Mexico?

-No.

301

00:16:04,364 --> 00:16:06,467

New York, but my brother

and I have a ranch

302

00:16:06,500 --> 00:16:08,603

outside Santa Fe. (inhales)

303

00:16:08,636 --> 00:16:11,004

That's the America

I miss right now.

304

00:16:11,038 --> 00:16:13,106

Then it's best you get home,

cowboys.

305

00:16:13,140 --> 00:16:14,742

-(Robert chuckles)

-(chuckles) That's him.

306

00:16:14,776 --> 00:16:18,212

No, me and horses.

I don't think so.

307

00:16:18,245 --> 00:16:20,380

-(Rabi chuckles)

-Nice to meet you.

308

00:16:22,115 --> 00:16:24,251

Did you ever encounter

Heisenberg again?

309

00:16:24,284 --> 00:16:27,187

Not in person, no, but, uh...

310

00:16:28,422 --> 00:16:30,525

...you might say

our paths crossed.

311

00:16:32,092 --> 00:16:34,294

On returning to America,
I accepted positions

312

00:16:34,328 --> 00:16:37,064

at both Caltech
and up at Berkeley.

313

00:16:37,097 --> 00:16:39,299

(indistinct chatter)

314

00:16:40,768 --> 00:16:42,402

WOMAN:

I got it, it's all right.

315

00:16:42,436 --> 00:16:44,539

(mellow music playing)

316

00:17:01,121 --> 00:17:03,156

ROBERT:

Dr. Lawrence, I presume?

317

00:17:04,559 --> 00:17:05,793

You must be Oppenheimer.

318

00:17:05,827 --> 00:17:07,361

Yes.

319

00:17:07,394 --> 00:17:09,731

I hear you want to start
a school of quantum theory.

320

00:17:09,764 --> 00:17:11,431

I am starting it. Next door.

321

00:17:11,465 --> 00:17:13,300

-They put you in there?

-I asked for it.

322

00:17:13,333 --> 00:17:15,402

Wanted to be close
to you experimentalists.

323

00:17:15,435 --> 00:17:17,805

Theory will get you

only so far, huh?

324

00:17:17,839 --> 00:17:19,807

We're building a machine
to accelerate electrons.

325

00:17:19,841 --> 00:17:22,544

-Magnificent.

-Would you like to help?

326

00:17:22,577 --> 00:17:24,411

Build it? Oh, no. (chuckles)

327

00:17:24,444 --> 00:17:25,547

No, no.

328

00:17:25,580 --> 00:17:28,148

But I am working on theories
I'd like to test with it.

329

00:17:28,181 --> 00:17:29,182

When do you start teaching?

330

00:17:29,216 --> 00:17:31,084

I've got my first in an hour.

331

00:17:31,118 --> 00:17:33,120

-Seminar?

-Pupil.

332

00:17:33,153 --> 00:17:36,390

One student? That's it?

333

00:17:36,423 --> 00:17:39,159

I'm teaching something

no one here has dreamt of.

334

00:17:39,192 --> 00:17:41,194

But once people start hearing

what you can do with it...

335

00:17:41,228 --> 00:17:42,697

There's no going back.

336

00:17:42,730 --> 00:17:44,832

(door opens)

337

00:17:44,866 --> 00:17:47,167

-Oh. I must have missed the...

-Ah. Lo...

338

00:17:47,200 --> 00:17:49,202

-Mr. Lomanitz?

-Na.

339

00:17:50,404 --> 00:17:51,305

Yeah.

340

00:17:51,338 --> 00:17:53,440

Yes, this is it. Please.

341

00:17:53,473 --> 00:17:54,542

Take a seat.

342

00:17:55,677 --> 00:17:57,077

(clears throat)

343

00:17:59,413 --> 00:18:01,214

What do you know
about quantum mechanics?

344

00:18:01,248 --> 00:18:03,618

I have a grasp on the basics.

345

00:18:03,651 --> 00:18:05,218

Then you're doing it wrong.

346

00:18:05,252 --> 00:18:06,420

(classical music playing)

347

00:18:06,453 --> 00:18:08,723

Is light made up
of particles or waves?

348

00:18:08,756 --> 00:18:09,891

Quantum mechanics
says it's both.

349

00:18:09,924 --> 00:18:11,526

How could it be both?

350

00:18:11,559 --> 00:18:13,460

-It can't.

-It can't.

351

00:18:13,493 --> 00:18:18,365

But it is. It's paradoxical,

and yet, it works.

352

00:18:25,506 --> 00:18:26,507

Now.

353

00:18:28,375 --> 00:18:30,344

Thank you.

354

00:18:30,377 --> 00:18:33,380

Mr. Lomanitz.

You're gonna be okay.

355

00:18:33,413 --> 00:18:34,782

Mr. Snyder.

356

00:18:34,816 --> 00:18:36,350

Now let's consider a star.

357

00:18:36,383 --> 00:18:39,921

A star. A vast furnace
burning in outer space,

358

00:18:39,954 --> 00:18:43,357

fire pushing outwards
against its own gravity.

359

00:18:43,390 --> 00:18:44,826

Balanced.

360

00:18:44,859 --> 00:18:47,160

But if that furnace cools...

361

00:18:47,194 --> 00:18:48,495

(crackling)

362

00:18:48,529 --> 00:18:50,531

...and gravity starts winning,
it contracts.

363

00:18:51,532 --> 00:18:52,499

Density increases.

364

00:18:52,533 --> 00:18:53,735

Correct.

365

00:18:53,768 --> 00:18:54,936

Increasing gravity.

366

00:18:54,969 --> 00:18:56,470

Increasing density.

367

00:18:56,504 --> 00:18:58,640

-And?

-It's a vicious cycle until...

368

00:18:58,673 --> 00:19:00,307

what's the limit here?

369

00:19:01,475 --> 00:19:03,711

(chuckles) I don't know.

See where the math takes us.

370

00:19:03,745 --> 00:19:05,513

I guarantee it's somewhere

no one's been before.

371

00:19:05,546 --> 00:19:07,447

Me?

372

00:19:07,481 --> 00:19:09,651

Yes, you.

Your math is better than mine.

373

00:19:09,684 --> 00:19:11,351

(students laughing)

374

00:19:11,385 --> 00:19:13,487

SENATOR BARTLETT:

<i>Dr. Oppenheimer's file</i>

375

00:19:13,521 --> 00:19:15,923

<i>contained detail</i>

<i>of his activities in Berkeley.</i>

376

00:19:15,957 --> 00:19:17,424

Why would they have
started a file

377

00:19:17,457 --> 00:19:20,394

on Dr. Oppenheimer
before the war?

378

00:19:20,427 --> 00:19:22,897

Well, you'd have
to ask Mr. Hoover.

379

00:19:22,930 --> 00:19:24,799

I'm asking you, Admiral Strauss.

380

00:19:24,832 --> 00:19:27,769

Uh, my assumption is that

381

00:19:27,802 --> 00:19:30,938

it was connected to his, uh,

382

00:19:30,972 --> 00:19:33,508

left-wing political activities.

383

00:19:34,609 --> 00:19:36,276

LAWRENCE: You shouldn't
let them bring up politics

384

00:19:36,309 --> 00:19:37,645

in the classroom, Oppie.

385

00:19:37,679 --> 00:19:39,413

I wrote that.

386

00:19:39,446 --> 00:19:42,717

Lawrence, you embrace
the revolution in physics.

387

00:19:42,750 --> 00:19:44,552

Can't you see it
everywhere else?

388

00:19:44,585 --> 00:19:46,688

Picasso, Stravinsky,

Freud, Marx.

389

00:19:46,721 --> 00:19:48,321

LAWRENCE:

Well, this is America, Oppie.

390

00:19:48,355 --> 00:19:49,724

We had our revolution.

391

00:19:50,858 --> 00:19:53,360

Seriously,

keep it out of the lab.

392

00:19:53,393 --> 00:19:56,496

Well, out of the lab,

my landlady

393

00:19:56,531 --> 00:19:59,332

is having a discussion group

tonight. Interested?

394

00:19:59,366 --> 00:20:01,435

I have sampled

the Berkeley political scene.

395

00:20:01,468 --> 00:20:03,504

It's all just

philosophy post-grads

396

00:20:03,538 --> 00:20:05,840

and Communists

talking integration.

397

00:20:05,873 --> 00:20:07,542

You don't care

about integration.

398

00:20:07,575 --> 00:20:09,443

I want to vote for it,

not talk about it.

399

00:20:09,476 --> 00:20:11,478

'Specially on a Friday.

Come on, let's eat.

400

00:20:11,512 --> 00:20:13,848

(sighs)

I'm meeting my brother there.

401

00:20:13,881 --> 00:20:15,750

SENATOR BARTLETT:

<i>And how would these activities</i>

402

00:20:15,783 --> 00:20:16,918

<i>have come to the attention</i>

403

00:20:16,951 --> 00:20:17,952

of the FBI?

404

00:20:17,985 --> 00:20:19,954

Well, if I remember correctly,

405

00:20:19,987 --> 00:20:21,923

the FBI was taking

license plates

406

00:20:21,956 --> 00:20:24,291

outside suspected

Communist gatherings,

407

00:20:24,324 --> 00:20:26,326

<i>and his name popped up.</i>

408

00:20:33,901 --> 00:20:35,435

-Gotcha!

-(whispers): Jesus Christ.

409

00:20:35,469 --> 00:20:37,772

-Sorry. Hi, brother.

-Frank.

410

00:20:38,773 --> 00:20:40,508

Uh, you remember Jackie.

411

00:20:40,541 --> 00:20:42,009

Evening.

412

00:20:42,043 --> 00:20:44,011

Let's go. Come.

413

00:20:44,045 --> 00:20:46,614

MAN: Right over there,
right over there.

414

00:20:47,548 --> 00:20:50,551

Robert. I want you
to meet Chevalier.

415

00:20:50,585 --> 00:20:54,287

Dr. Haakon Chevalier,
Dr. Robert Oppenheimer.

416

00:20:54,321 --> 00:20:55,489

-Pleasure.
-Pleasure.

417

00:20:55,523 --> 00:20:56,824

This is my little brother,
Frank.

418

00:20:56,858 --> 00:20:58,059

-And this is...
-Hello.

419

00:20:58,092 --> 00:21:00,027

-Still Jackie.

-Hello, Still Jackie.

420

00:21:00,061 --> 00:21:02,029

Chevalier, you're in languages?

421

00:21:02,063 --> 00:21:03,798

And your reputation

precedes you.

422

00:21:03,831 --> 00:21:05,566

-What have you heard?

-MARY: Excuse me.

423

00:21:05,600 --> 00:21:07,367

That you're teaching a radical

new approach to physics

424

00:21:07,400 --> 00:21:08,636

I have no chance

of understanding,

425

00:21:08,669 --> 00:21:10,037

but I hadn't heard

you're a Party member.

426

00:21:10,071 --> 00:21:12,372

-Uh, I'm not.

-Oh, not yet.

427

00:21:12,405 --> 00:21:14,374

Frank and I are thinking of

joining. Just the other day,

428

00:21:14,407 --> 00:21:16,043

-I was saying...

-I support a range of causes.

429

00:21:16,077 --> 00:21:17,712

CHEVALIER:

The Spanish Civil War?

430

00:21:17,745 --> 00:21:19,479

A democratic republic

being overthrown

431

00:21:19,514 --> 00:21:20,815

by fascist thugs, who wouldn't?

432

00:21:20,848 --> 00:21:22,517

Our government.

433

00:21:22,550 --> 00:21:24,018

They think that socialism is
a bigger threat than fascism.

434

00:21:24,051 --> 00:21:25,553

ROBERT:

Not for long.

435

00:21:25,586 --> 00:21:27,387

Look at what the Nazis
are doing to the Jews.

436

00:21:27,420 --> 00:21:29,991

I send funds to colleagues
in Germany to emigrate.

437

00:21:30,024 --> 00:21:32,059

I have to do something.

438

00:21:32,093 --> 00:21:35,462

(sighs)

My own work is so abstract.

439

00:21:35,495 --> 00:21:37,064

What are you working on?

440

00:21:37,098 --> 00:21:39,033

What happens to the stars
when they die.

441

00:21:39,066 --> 00:21:40,500

Do stars die?

442

00:21:41,702 --> 00:21:43,004

Well, if they do,

443

00:21:43,037 --> 00:21:44,939

they'd cool, then collapse.

444

00:21:44,972 --> 00:21:47,608

In fact, the bigger the star,

445

00:21:47,642 --> 00:21:50,343

<i>-the more violent its demise.</i>

-(explosions)

446

00:21:50,377 --> 00:21:51,913

The gravity gets so concentrated

447

00:21:51,946 --> 00:21:54,916

it swallows everything.

448

00:21:54,949 --> 00:21:55,917

Everything, even light.

449

00:21:55,950 --> 00:21:57,118

Can that really happen?

450

00:21:57,151 --> 00:21:58,953

The math says it can.

451

00:21:58,986 --> 00:22:00,420

If we can get published,

452

00:22:00,453 --> 00:22:02,023

then perhaps one day,

an astronomer finds one.

453

00:22:02,056 --> 00:22:03,791

But right now,

all I have is theory,

454

00:22:03,825 --> 00:22:05,693

which can't impact

people's lives.

455

00:22:05,726 --> 00:22:07,995

Well, if you're going

to send money to Spain,

456

00:22:08,029 --> 00:22:09,597

do it through

the Communist Party.

457

00:22:09,630 --> 00:22:10,965

They can get it
to the front lines.

458

00:22:10,998 --> 00:22:13,400

Mary sent me with these.

459

00:22:14,101 --> 00:22:16,904

-I'm Jean.

-Robert.

460

00:22:16,938 --> 00:22:18,438

CHEVALIER:

Haakon Chevalier.

461

00:22:18,471 --> 00:22:20,007

The union meeting at Serber's
last month?

462

00:22:20,041 --> 00:22:21,441

Right, right, yes.

463

00:22:21,474 --> 00:22:22,844

Oh, thank you.

464

00:22:22,877 --> 00:22:25,112

CHEVALIER: Robert here says
he's not a Communist.

465

00:22:25,146 --> 00:22:27,447

Well, then he doesn't know
enough about it.

466

00:22:27,480 --> 00:22:29,851

Oh, I've read *Das Kapital*,
all three volumes.

467

00:22:29,884 --> 00:22:31,519

Does that count?

468

00:22:31,552 --> 00:22:33,521

It would make you better read
than most party members.

469

00:22:33,554 --> 00:22:35,857

Turgid stuff.

There's some thinking, um,

470

00:22:35,890 --> 00:22:37,058

"Ownership is theft."

471

00:22:37,091 --> 00:22:38,993

-"Property."

-"Property"?

472

00:22:39,026 --> 00:22:40,828

"Property," not "ownership."

473

00:22:40,862 --> 00:22:42,897

I'm sorry, I read it

in the original German.

474

00:22:42,930 --> 00:22:45,600

CHEVALIER:

(chuckles) Well.

475

00:22:46,466 --> 00:22:47,835

It's not about the book.

476

00:22:47,869 --> 00:22:50,872

It's about the ideas.

And you sound uncommitted.

477

00:22:50,905 --> 00:22:52,540

Well, I'm committed

to thinking freely

478

00:22:52,573 --> 00:22:55,009

about how to improve our world.

479

00:22:55,042 --> 00:22:57,144

Why limit yourself to one dogma?

480

00:22:57,178 --> 00:23:00,147

You're a physicist,

you pick and choose rules?

481

00:23:00,181 --> 00:23:01,749

Or do you use the discipline

482

00:23:01,782 --> 00:23:03,918

to channel your energies
into progress?

483

00:23:03,951 --> 00:23:06,354

I like a little wiggle room.

484

00:23:07,454 --> 00:23:09,657

Do you always
tow the party line?

485

00:23:11,025 --> 00:23:12,793

I like my wiggle room too.

486

00:23:14,528 --> 00:23:16,697

(Jean breathing heavily)

487

00:23:20,735 --> 00:23:21,769

(exhales deeply)

488

00:23:22,937 --> 00:23:25,472

-ROBERT: What?

-(chuckles)

489

00:23:25,506 --> 00:23:26,674

Wait, wait, wait.

490

00:23:30,578 --> 00:23:32,179

JEAN:

Unexpected.

491

00:23:32,213 --> 00:23:34,115

-What?

-For a physicist.

492

00:23:34,148 --> 00:23:36,918

You only have a shelf

full of Freud?

493

00:23:36,951 --> 00:23:39,820

Well, actually,

my background's more...

494

00:23:39,854 --> 00:23:41,689

Uh, Jungian?

495

00:23:42,823 --> 00:23:43,925

You know analysis?

496

00:23:43,958 --> 00:23:46,493

When I was in post-grad
at Cambridge,

497

00:23:46,527 --> 00:23:47,828

I had a little trouble.

498

00:23:48,829 --> 00:23:51,565

-I'll bite.

-I tried to poison my tutor.

499

00:23:51,599 --> 00:23:52,600

Did you hate him?

500

00:23:52,633 --> 00:23:54,101

I liked him very much.

501

00:23:54,135 --> 00:23:56,037

You just needed to get laid.

502

00:23:56,070 --> 00:23:57,638

Took my analyst two years,

503

00:23:57,672 --> 00:23:59,607

and I don't think they
ever put it that succinctly.

504

00:23:59,640 --> 00:24:00,975

You have everyone convinced

505

00:24:01,008 --> 00:24:03,744

you're more complicated
than you actually are.

506

00:24:03,778 --> 00:24:05,780

We're all simple souls, I guess.

507

00:24:05,813 --> 00:24:06,981

I'm not.

508

00:24:09,850 --> 00:24:10,885

What's this?

509

00:24:10,918 --> 00:24:12,485

Sanskrit.

510

00:24:12,520 --> 00:24:13,821

You can read this?

511

00:24:13,854 --> 00:24:15,656

I'm learning.

512

00:24:19,860 --> 00:24:21,662

Read this.

513

00:24:23,097 --> 00:24:24,732

Well, in this part,

514

00:24:24,765 --> 00:24:26,968

Vishnu reveals

his multi-armed self...

515

00:24:27,001 --> 00:24:28,002

No.

516

00:24:29,070 --> 00:24:30,938

Read the words.

517

00:24:34,308 --> 00:24:37,477

"And now I am become Death.

518

00:24:42,917 --> 00:24:44,652

Destroyer of worlds."

519

00:24:45,586 --> 00:24:47,088

(thunder rumbling)

520

00:24:48,823 --> 00:24:50,891

(wind howling)

521

00:24:52,226 --> 00:24:54,695

(disquieting music playing)

522

00:25:09,143 --> 00:25:11,545

(thunder rumbling)

523

00:25:15,583 --> 00:25:16,917

This'll do. (clicks tongue)

524

00:25:23,057 --> 00:25:24,658

It'll break before dawn.

525

00:25:24,692 --> 00:25:28,062

Air cools overnight,
just before dawn, it breaks.

526

00:25:30,731 --> 00:25:32,666

(clicks tongue) Come.

527

00:25:33,801 --> 00:25:36,003

(laughter)

528

00:25:38,706 --> 00:25:42,176

Ah. So, I'm getting married.

529

00:25:42,209 --> 00:25:43,811

-Frank. Congratulations!

-Thank you.

530

00:25:43,844 --> 00:25:45,646

-Thank you.

-To Jackie?

531

00:25:45,679 --> 00:25:48,049

-Yeah, to Jackie.

-(clears throat)

532

00:25:48,082 --> 00:25:49,183

The waitress.

533

00:25:49,216 --> 00:25:51,185

Oppie, you're right.

It's lettin' up.

534

00:25:51,218 --> 00:25:53,654

I'm gonna go see

if there's any stars.

535

00:25:53,687 --> 00:25:55,723

All your talk

about the common man,

536

00:25:55,756 --> 00:25:57,258

but Jackie's not good enough
for you, hmm?

537

00:25:57,291 --> 00:25:58,325

ROBERT:

Mm-mm.

538

00:25:58,359 --> 00:25:59,860

We join the Party and you can't

539

00:25:59,894 --> 00:26:01,662

-hide your disapproval. Why?

-Oh, now, I...

540

00:26:01,695 --> 00:26:02,763

Is that because that's
supposed to be your thing?

541

00:26:02,797 --> 00:26:04,331

I haven't joined

the Party, Frank.

542

00:26:04,365 --> 00:26:06,901

And I don't think she should
have convinced you to either.

543

00:26:06,934 --> 00:26:08,669

Half of the faculty
is Communist.

544

00:26:08,702 --> 00:26:09,770

Not that half.

545

00:26:11,105 --> 00:26:13,841

I'm your brother, Frank,
and I want you to be cautious.

546

00:26:13,874 --> 00:26:15,576

And I want to wring your neck.

547

00:26:16,710 --> 00:26:17,945

(breath shudders)

548

00:26:17,978 --> 00:26:20,881

I won't live my life

afraid to make a mistake.

549

00:26:22,750 --> 00:26:26,087

You're happy, I'm happy.

550

00:26:26,120 --> 00:26:27,655

So then I'm happy you're happy

551

00:26:27,688 --> 00:26:29,023

-that I'm happy.

-(chuckles)

552

00:26:31,325 --> 00:26:33,260

(mysterious music playing)

553

00:26:33,294 --> 00:26:34,895

LAWRENCE:

I feel like I could see

554

00:26:34,929 --> 00:26:37,031

one of those dark stars
that you're working on.

555

00:26:37,064 --> 00:26:39,633

You can't.

That's the whole point.

556

00:26:40,301 --> 00:26:42,002

Their gravity swallows light.

557

00:26:43,270 --> 00:26:46,340

It's like a kind of
hole in space.

558

00:26:46,373 --> 00:26:47,708

Is Frank okay?

559

00:26:47,741 --> 00:26:50,144

Yes. He just has
a shitty brother.

560

00:26:51,278 --> 00:26:52,947

It is special here.

561

00:26:55,316 --> 00:26:57,785

When I was a kid,

562

00:26:57,818 --> 00:27:00,855

I thought if I could find a way

563

00:27:00,888 --> 00:27:05,259

to combine physics

and New Mexico,

564

00:27:05,292 --> 00:27:07,828

my life would be perfect.

(laughs)

565

00:27:08,896 --> 00:27:10,164

Little remote for that.

566

00:27:10,197 --> 00:27:11,332

Yes.

567

00:27:11,365 --> 00:27:13,033

Let's get some sleep.

568

00:27:14,001 --> 00:27:15,402

ROBERT:

That mesa we saw today,

569

00:27:15,436 --> 00:27:17,938

one of my favorite places

in the world.

570

00:27:18,772 --> 00:27:20,241

And tomorrow we'll climb it.

571

00:27:20,274 --> 00:27:21,709

LAWRENCE:

What's it called?

572

00:27:22,743 --> 00:27:24,812

ROBERT:

Los Alamos.

573

00:27:27,915 --> 00:27:29,917

I didn't expect

to see you today.

574

00:27:31,085 --> 00:27:32,920

Do I have to make
an appointment?

575

00:27:34,855 --> 00:27:36,991

BARBER:

Hey! Hey, get back here!

576

00:27:37,024 --> 00:27:38,159

Alvarez?

577

00:27:43,931 --> 00:27:46,767

ALVAREZ:

Oppie! Oppie!

578

00:27:46,800 --> 00:27:48,802

ROBERT:

What? What is it?

579

00:27:48,836 --> 00:27:50,437

They've done it.

They've done it.

580

00:27:50,471 --> 00:27:51,739

Hahn and Strassmann in Germany.

581

00:27:51,772 --> 00:27:53,941

They split the uranium nucleus.

582

00:27:54,808 --> 00:27:56,677

LAWRENCE:

How?

583

00:27:57,411 --> 00:27:59,313

Bombard it with neutrons.

584

00:27:59,346 --> 00:28:00,481

ALVAREZ:

It's a nuclear fission.

585

00:28:00,515 --> 00:28:02,149

They did it,

they split the atom.

586

00:28:02,183 --> 00:28:03,751

It's not possible.

587

00:28:03,784 --> 00:28:06,086

(stimulating music playing)

588

00:28:09,890 --> 00:28:11,692

I'm gonna try to reproduce it.

589

00:28:18,332 --> 00:28:20,267

See? Can't be done.

590

00:28:21,368 --> 00:28:24,772

LAWRENCE:

Very elegant. Quite clear.

591

00:28:24,805 --> 00:28:27,441

-There's just one problem.

-Where?

592

00:28:27,474 --> 00:28:29,276

Next door.

593

00:28:29,310 --> 00:28:31,245

Alvarez did it.

594

00:28:31,278 --> 00:28:33,414

-But then look...

-(pulsing)

595

00:28:33,447 --> 00:28:36,784

...these fission pulses,

they're massive.

596

00:28:36,817 --> 00:28:40,087

I've seen 30 of these

in the past ten minutes.

597

00:28:40,120 --> 00:28:42,957

Theory will take you

only so far.

598

00:28:42,990 --> 00:28:44,425

(gasps)

599

00:28:44,458 --> 00:28:46,460

During the process...

600

00:28:46,493 --> 00:28:48,229

extra neutrons boil off,

601

00:28:48,262 --> 00:28:51,432

which could be used to split

other uranium atoms.

602

00:28:51,465 --> 00:28:52,866

Chain reaction.

603

00:28:52,900 --> 00:28:54,536

You're thinkin'

what I'm thinkin'.

604

00:28:54,569 --> 00:28:57,338

You, me, and every other

physicist around the world

605

00:28:57,371 --> 00:28:58,872

who's seen the news.

606

00:28:59,574 --> 00:29:01,375

I'm... what?

What are we all thinking?

607

00:29:01,408 --> 00:29:05,179

A bomb, Alvarez.

608

00:29:06,347 --> 00:29:08,048

A bomb.

609

00:29:08,082 --> 00:29:11,285

I told you, Robert,

no more fucking flowers.

610

00:29:12,886 --> 00:29:14,421

I don't understand

what you want from me.

611

00:29:14,455 --> 00:29:16,223

I don't want anything from you.

612

00:29:17,224 --> 00:29:19,260

Well, you say that
and then you call.

613

00:29:19,293 --> 00:29:21,895

Well, don't answer.

614

00:29:21,929 --> 00:29:23,931

I'll always answer.

615

00:29:29,203 --> 00:29:30,137

Fine.

616

00:29:30,170 --> 00:29:32,873

Just no more flowers.
(breathing heavily)

617

00:29:33,907 --> 00:29:35,276

You're not coming?

618

00:29:36,443 --> 00:29:39,246

CHEVALIER: You have to know

when you're beaten, Robert.

619

00:29:41,549 --> 00:29:43,284

It's not that simple, Hoke.

620

00:29:43,317 --> 00:29:45,486

MAN: Chevalier,

good to see you. It's...

621

00:29:45,520 --> 00:29:46,854

Ah, Barbara, good to see you

622

00:29:46,887 --> 00:29:49,356

and the illustrious

Dr. Oppenheimer.

623

00:29:49,390 --> 00:29:50,558

I'm Eltenton.

624

00:29:50,592 --> 00:29:51,959

-ROBERT: Oh, pleasure.

-Please, please.

625

00:29:51,992 --> 00:29:53,160

Now, might you say a word

626

00:29:53,193 --> 00:29:55,929

about organized labor

on campuses, yes?

627

00:29:55,963 --> 00:29:57,498

Coming through! Coming through!

628

00:29:57,532 --> 00:29:59,099

-(chanting): F.A.E.C.T.!

-I work at Shell.

629

00:29:59,133 --> 00:30:01,135

We've signed up chemists,

we've signed up engineers,

630

00:30:01,168 --> 00:30:03,037

so why not scientists

in academia?

631

00:30:03,070 --> 00:30:05,973

(chanting):

Oppie! Oppie! Oppie!

632

00:30:06,006 --> 00:30:09,276

Oppie! Oppie! Oppie! Oppie!

633

00:30:09,310 --> 00:30:10,944

Oppie! Oppie!

634

00:30:10,978 --> 00:30:13,881

-Oppie! Oppie! Oppie!

-(cheers and applause)

635

00:30:17,051 --> 00:30:21,021

Teachers are unionized.

Why not professors?

636

00:30:21,055 --> 00:30:22,489

Don't you have somewhere to be?

637

00:30:22,524 --> 00:30:24,358

Lawrence,

academics have rights too.

638

00:30:24,391 --> 00:30:26,894

Look, it's not that.

I've got a group coming.

639

00:30:26,927 --> 00:30:30,130

-Well, I'll sit in.

-Not this one.

640

00:30:32,433 --> 00:30:33,834

(door opens)

641

00:30:36,403 --> 00:30:38,072

ROBERT:

Richard. Dr. Bush.

642

00:30:38,105 --> 00:30:40,174

What brings you two up north?

643

00:30:42,276 --> 00:30:44,345

(somber music playing)

644

00:30:46,648 --> 00:30:48,015

(sighs)

645

00:30:49,651 --> 00:30:51,018

Richard, you tell Ruth

646

00:30:51,051 --> 00:30:52,319

I'll be down

to Pasadena Thursday.

647

00:30:58,125 --> 00:30:59,226

(sighs)

648

00:31:01,328 --> 00:31:03,964

STUDENT 1: Your paper

on black holes is in!

649

00:31:03,997 --> 00:31:05,966

-STUDENT 2: Oppie!

-(applause)

650

00:31:05,999 --> 00:31:09,637

Where's Hartland?

Get Hartland. Get Hartland.

651

00:31:09,671 --> 00:31:11,939

LOMANITZ:

September 1st, 1939,

652

00:31:11,972 --> 00:31:14,208

the world's gonna

remember this day.

653

00:31:14,241 --> 00:31:15,109

(Robert chuckles)

654

00:31:15,142 --> 00:31:16,611

Oh, Hartland.

Our paper, it's in print.

655

00:31:16,644 --> 00:31:19,380

SNYDER:

You've been upstaged.

656

00:31:22,983 --> 00:31:25,520

During the Battle of Britain,
I found myself

657

00:31:25,553 --> 00:31:28,288

increasingly out of sympathy
with the (clears throat)

658

00:31:28,322 --> 00:31:31,325

policy of neutrality
that Communists advocated.

659

00:31:31,358 --> 00:31:35,162

Right after Hitler invaded
Russia and we became allies,

660

00:31:35,195 --> 00:31:37,231

these Communist sympathies,
did they return?

661

00:31:37,264 --> 00:31:38,298

No.

662

00:31:39,433 --> 00:31:43,036

I need to make clear that
my changing views on Russia

663

00:31:43,070 --> 00:31:44,304
did not mean a sharp break

664

00:31:44,338 --> 00:31:46,407
from those who held
different views.

665

00:31:46,440 --> 00:31:49,009
For a year or two,
and during a previous marriage,

666

00:31:49,042 --> 00:31:52,346
my wife Kitty had been
a Communist Party member.

667

00:31:53,347 --> 00:31:54,948
(Kitty laughing)

668

00:31:54,982 --> 00:31:56,316
KITTY:

Oop!

669

00:31:56,350 --> 00:31:58,152

This way. This is where

I keep the good stuff.

670

00:31:58,185 --> 00:32:00,187

Well, I thought

this was the Tolmans' house.

671

00:32:00,220 --> 00:32:02,423

I live with them

while I'm at Caltech.

672

00:32:02,456 --> 00:32:03,957

Do you two need anything?

673

00:32:03,991 --> 00:32:05,459

ROBERT:

We're good, Ruthie.

674

00:32:06,561 --> 00:32:09,196

So, you're a biologist.

675

00:32:09,229 --> 00:32:12,433

Well, somehow

I have graduated to housewife.

676

00:32:12,466 --> 00:32:15,603

Can you explain

quantum mechanics to me?

677

00:32:15,637 --> 00:32:16,671

Seems baffling.

678

00:32:16,704 --> 00:32:18,405

Yes, it is.

679

00:32:19,507 --> 00:32:22,309

Well, this glass,

680

00:32:22,342 --> 00:32:23,243

this drink...

681

00:32:23,277 --> 00:32:26,380

-(knocks countertop)

-...this countertop,

682

00:32:26,413 --> 00:32:29,517

uh, our bodies...

683

00:32:29,551 --> 00:32:31,452

all of it.

684

00:32:31,485 --> 00:32:34,054

It's mostly empty space.

685

00:32:34,087 --> 00:32:36,591

Groupings of tiny energy waves
bound together.

686

00:32:36,624 --> 00:32:38,492

By what?

687

00:32:38,526 --> 00:32:42,095

Forces of attraction
strong enough to convince us

688

00:32:42,129 --> 00:32:44,331

that matter is solid.

689

00:32:44,364 --> 00:32:47,501

Stop my body

passing through yours.

690

00:32:52,640 --> 00:32:55,075

(indistinct chatter)

691

00:32:59,246 --> 00:33:00,748

You're married to Dr. Harrison.

692

00:33:00,782 --> 00:33:02,517

Not very.

693

00:33:04,552 --> 00:33:08,255

There is someone that I feel...

694

00:33:08,288 --> 00:33:09,724

Does she feel the same way?

695

00:33:09,757 --> 00:33:13,595

Sometimes. Not enough.

696

00:33:14,796 --> 00:33:17,765

You know,

I'm going to New Mexico.

697

00:33:17,799 --> 00:33:19,601

To my ranch, with friends.

698

00:33:19,634 --> 00:33:21,001

You should come.

699

00:33:21,803 --> 00:33:23,638

I meant with your husband.

700

00:33:23,671 --> 00:33:25,239

Yes, you did.

701

00:33:25,272 --> 00:33:28,175

'Cause you know it won't make

a bit of difference.

702

00:33:28,208 --> 00:33:30,410

(sentimental music playing)

703

00:33:32,145 --> 00:33:33,648

Why did you marry him?

704

00:33:33,681 --> 00:33:37,217

I was lost and he was kind.

705

00:33:39,386 --> 00:33:40,254

Lost?

706

00:33:40,287 --> 00:33:43,791

Well, my previous husband

had died, and...

707

00:33:43,825 --> 00:33:46,260

at 28, I wasn't really ready

to be a widow.

708

00:33:46,293 --> 00:33:48,295

-Who was your first husband?

-Nobody.

709

00:33:48,328 --> 00:33:50,798

But my second husband
was Joe Dallet.

710

00:33:50,832 --> 00:33:53,801

He was, um, from money,
like me, but...

711

00:33:53,835 --> 00:33:56,771

he was a union organizer
in Youngstown, Ohio.

712

00:33:56,804 --> 00:33:58,071

Fell hard.

713

00:33:58,105 --> 00:33:59,373

(chuckles) How hard?

714

00:33:59,406 --> 00:34:01,074

Hard enough to spend

the next four years

715

00:34:01,108 --> 00:34:02,442

living off beans and pancakes,

716

00:34:02,476 --> 00:34:05,245

handing out the *Daily Worker*
at factory gates.

717

00:34:05,279 --> 00:34:07,782

By 36, I just told Joe
I couldn't take it anymore.

718

00:34:07,815 --> 00:34:09,684

Quit the Party and a year later,

719

00:34:09,717 --> 00:34:13,253

I wanted him back, so...
Him, not the *Daily Worker*.

720

00:34:13,287 --> 00:34:15,422

And he said, "Swell, I'll meet
you on my way to Spain."

721

00:34:15,455 --> 00:34:17,157

He went to fight
for the Loyalists?

722

00:34:17,190 --> 00:34:19,293

And then he went to
the brigades and I waited.

723

00:34:19,326 --> 00:34:20,394

And...

724

00:34:21,261 --> 00:34:22,630

Joe got himself killed

725

00:34:22,664 --> 00:34:25,065

first time he popped his head
out of the trench.

726

00:34:26,400 --> 00:34:28,836

Ideology got Joe killed.
For nothing.

727

00:34:28,870 --> 00:34:30,738

Spanish Republic isn't nothing.

728

00:34:30,772 --> 00:34:31,873

My husband offered

both our futures

729

00:34:31,906 --> 00:34:33,373

to stop one fascist bullet

730

00:34:33,407 --> 00:34:35,577

from embedding itself

in a mudbank.

731

00:34:36,476 --> 00:34:38,312

That's the definition

of nothing.

732

00:34:38,345 --> 00:34:40,347

Seems a little reductive.

733

00:34:40,380 --> 00:34:42,115

Pragmatic.

734

00:34:42,149 --> 00:34:44,586

Now here I am.

735

00:34:46,821 --> 00:34:48,422

Wherever the hell this is.

736

00:34:49,791 --> 00:34:52,627

(sentimental music continues)

737

00:34:55,462 --> 00:34:58,733

I didn't want you to hear it
from anyone else.

738

00:34:58,766 --> 00:35:01,134

(crying softly)

739

00:35:01,168 --> 00:35:04,505

Least you didn't
bring me flowers. (sniffles)

740

00:35:05,607 --> 00:35:07,742

(chuckles)

741

00:35:07,775 --> 00:35:09,611

(tender music playing)

742

00:35:09,644 --> 00:35:13,213

We both know I'm not

what you want, Jean.

743

00:35:14,247 --> 00:35:16,884

Yeah, but it's a door closing.

744

00:35:16,918 --> 00:35:18,318

No.

745

00:35:19,887 --> 00:35:22,255

Not as far as I'm concerned, no.

746

00:35:23,457 --> 00:35:25,192

You knocked her up, fast work.

747

00:35:25,225 --> 00:35:27,862

-Can't keep a good man down.

-(scoffs)

748

00:35:27,895 --> 00:35:29,897

I meant her.

749

00:35:29,931 --> 00:35:31,933

She knew what she wanted.

750

00:35:31,966 --> 00:35:33,901

What about the husband?

751

00:35:33,935 --> 00:35:35,402

We talked, um,

752

00:35:35,435 --> 00:35:37,371

they're getting a divorce, so...

753

00:35:37,404 --> 00:35:41,174

we can get married

before she starts showing.

754

00:35:41,208 --> 00:35:42,677

How civilized.

755

00:35:44,646 --> 00:35:45,747

You idiot.

756

00:35:45,780 --> 00:35:47,548

This is your community.

757

00:35:47,582 --> 00:35:50,518

You think the rules

don't apply to the golden boy?

758

00:35:51,686 --> 00:35:53,320

Brilliance makes up for a lot.

759

00:35:53,353 --> 00:35:55,857

Don't alienate the only people
in the world

760

00:35:55,890 --> 00:35:57,558

that understand what you do.

761

00:35:59,292 --> 00:36:00,662

One day you might need them.

762

00:36:00,695 --> 00:36:03,430

F.A.E.C.T. MEMBERS (chanting):

F.A.E.C.T.!

763

00:36:03,463 --> 00:36:04,666

ROBERT:

The Federation of Architects,

764

00:36:04,699 --> 00:36:07,835

Engineers, Chemists

and Technicians.

765

00:36:07,869 --> 00:36:09,369

(chanting stops)

766

00:36:14,274 --> 00:36:16,811

Lomanitz,

what do you get paid a month?

767

00:36:16,844 --> 00:36:17,979

That's not the point, Lawrence.

768

00:36:18,012 --> 00:36:20,313

What do any of you

have in common

769

00:36:20,347 --> 00:36:22,950

with farm laborers

and dock workers?

770

00:36:22,984 --> 00:36:24,552

LOMANITZ:

Plenty.

771

00:36:25,620 --> 00:36:28,156

Everybody out. Now!

772

00:36:31,993 --> 00:36:33,393

Not you.

773

00:36:36,263 --> 00:36:39,299

(door closes)

774

00:36:39,332 --> 00:36:40,300

What are you doing?

775

00:36:40,333 --> 00:36:42,003

It's a trade union.

776

00:36:42,036 --> 00:36:43,971

Filled with Communists.

777

00:36:44,005 --> 00:36:45,707

So? I haven't joined the Party.

778

00:36:45,740 --> 00:36:47,842

They won't let me

bring you onto the project

779

00:36:47,875 --> 00:36:49,577

because of this shit.

780

00:36:49,610 --> 00:36:51,378

They won't even let me
tell you what the project is.

781

00:36:51,411 --> 00:36:53,848

Oh. (scoffs)

I know what the project is.

782

00:36:53,881 --> 00:36:54,949

Oh, really?

783

00:36:54,982 --> 00:36:56,283

We've all heard about Einstein

784

00:36:56,316 --> 00:36:57,585

and Szilard's letter

to Roosevelt

785

00:36:57,618 --> 00:36:59,419

warning him the Germans

could make a bomb,

786

00:36:59,453 --> 00:37:02,322

and I know what it means

for the Nazis to have a bomb.

787

00:37:02,355 --> 00:37:03,725

Oh, and I don't?

788

00:37:03,758 --> 00:37:06,393

It's not your people
they're herding into camps.

789

00:37:07,494 --> 00:37:08,495

It's mine.

790

00:37:08,529 --> 00:37:11,666

You think that I tell them
about your politics.

791

00:37:12,767 --> 00:37:15,335

The next time you're
coming home from a meeting,

792

00:37:15,368 --> 00:37:17,404

why don't you take a look
in the rearview mirror?

793

00:37:17,437 --> 00:37:19,507

Listen to the sounds
on your phone line

794

00:37:19,540 --> 00:37:22,610

and stop being so goddamn naive.

795

00:37:23,911 --> 00:37:25,445

Why would they care what I do?

796

00:37:25,479 --> 00:37:27,447

(scoffs) Because you're
not just self-important,

797

00:37:27,481 --> 00:37:29,650

you're actually important.

798

00:37:30,885 --> 00:37:32,252

Okay.

799

00:37:32,887 --> 00:37:35,890

Okay. I get it.

800

00:37:35,923 --> 00:37:37,992

If you could
just be a little more...

801

00:37:38,025 --> 00:37:39,527

Pragmatic.

802

00:37:39,560 --> 00:37:40,661

I'll talk to Lomanitz,
I'll talk to the others,

803

00:37:40,695 --> 00:37:42,797

you don't have to worry.
It's done.

804

00:37:42,830 --> 00:37:44,599

Lawrence.

805

00:37:49,436 --> 00:37:51,438

Then welcome to the war.

806

00:37:51,471 --> 00:37:53,775

ROBERT: I filled out my first
security questionnaire

807

00:37:53,808 --> 00:37:55,076

and was informed

808

00:37:55,109 --> 00:37:56,911

that my involvement
with left-wing groups

809

00:37:56,944 --> 00:38:00,882

would not prove a bar to my
working on the atomic program.

810

00:38:00,915 --> 00:38:03,651

SENATOR PASTORE: *Why were*
his Communist associations

811

00:38:03,684 --> 00:38:06,788

not seen as a security risk
during the war?

812

00:38:06,821 --> 00:38:08,556

Senator, I can't possibly answer

813

00:38:08,589 --> 00:38:11,926

for security clearance granted
years before I ever met the man.

814

00:38:11,959 --> 00:38:13,961

Fine. What about after?

815

00:38:13,995 --> 00:38:15,930

After the war, Dr. Oppenheimer

816

00:38:15,963 --> 00:38:19,734

was the most respected
scientific voice in the world.

817

00:38:19,767 --> 00:38:21,803

That's why I asked him
to run the Institute,

818

00:38:21,836 --> 00:38:24,939

that's why he advised
the Atomic Energy Commission.

819

00:38:24,972 --> 00:38:26,040

Simple as that.

820

00:38:26,073 --> 00:38:28,676

What are they accusing me of?

821

00:38:28,709 --> 00:38:30,477

I think they just want
to know what happened

822

00:38:30,511 --> 00:38:33,014

between 1947 and 1954
to change your mind

823

00:38:33,047 --> 00:38:35,082

on Oppenheimer's
security clearance.

824

00:38:35,116 --> 00:38:37,852

I didn't.

I was chair of the AEC,

825

00:38:37,885 --> 00:38:41,454

but it wasn't me that brought
the charges against Robert.

826

00:38:41,488 --> 00:38:42,723

-Who did?

-Some former staff member

827

00:38:42,757 --> 00:38:44,692

of the Joint
Congressional Committee.

828

00:38:44,725 --> 00:38:47,795

He was a rabid anti-Communist
named Borden.

829

00:38:47,829 --> 00:38:50,131

He wrote to the FBI
demanding they take action.

830

00:38:50,164 --> 00:38:52,700

The FBI? Why not go
to the AEC, direct?

831

00:38:52,733 --> 00:38:55,435

Why get caught
holding the knife yourself?

832

00:38:55,468 --> 00:38:57,905

What did Borden have
against Oppenheimer?

833

00:38:57,939 --> 00:38:59,774

This was the McCarthy Era.

834

00:38:59,807 --> 00:39:04,712

People hounded out of jobs
for any hint of red. And then,

835

00:39:04,745 --> 00:39:06,413

<i>reading Oppenheimer's</i>
<i>security file,</i>

836

00:39:06,446 --> 00:39:08,616

<i>his Communist brother,</i>

<i>sister-in-law,</i>

837

00:39:08,649 --> 00:39:10,718

<i>fiancée, best friend, wife.</i>

838

00:39:10,751 --> 00:39:13,087

That's before we even
get to the Chevalier incident.

839

00:39:13,120 --> 00:39:16,858

But how would Borden have access
to Oppenheimer's security file?

840

00:39:16,891 --> 00:39:18,559

Because somebody gave it to him.

841

00:39:19,727 --> 00:39:22,395

Somebody who wanted
Robert silenced.

842

00:39:22,429 --> 00:39:24,031

-Who?

-Who knows?

843

00:39:24,065 --> 00:39:26,601

Robert didn't take care
not to upset

844

00:39:26,634 --> 00:39:28,870

the power brokers in Washington.

845

00:39:28,903 --> 00:39:31,772

His opinions on the atom
became definitive

846

00:39:31,806 --> 00:39:34,709

and he wasn't always patient
with us mere mortals.

847

00:39:34,742 --> 00:39:35,910

(chuckles softly)

848

00:39:38,112 --> 00:39:40,548

I came in for plenty
of harsh treatment.

849

00:39:40,581 --> 00:39:43,751

There was an AEC vote

850

00:39:43,784 --> 00:39:45,753

on the export of isotopes
to Norway,

851

00:39:45,786 --> 00:39:48,756

<i>and they drafted in Robert</i>
<i>to make me look like a fool.</i>

852

00:39:48,789 --> 00:39:50,490

CONGRESSMAN:

But, Dr. Oppenheimer,

853

00:39:50,524 --> 00:39:52,627

we've already heard
from Admiral Strauss that

854

00:39:52,660 --> 00:39:55,495

these isotopes could be
useful to our enemies

855

00:39:55,529 --> 00:39:56,831

in the production
of atomic weapons.

856

00:39:56,864 --> 00:39:58,733

ROBERT: Congressmen,
you could use a shovel

857

00:39:58,766 --> 00:40:00,201

-in making atomic weapons.
-(laughter)

858

00:40:00,234 --> 00:40:01,434

In fact, you do.

859

00:40:01,468 --> 00:40:03,004

You could use a bottle of beer

860

00:40:03,037 --> 00:40:04,437

in making atomic weapons.

861

00:40:04,471 --> 00:40:05,940

In fact, you do.

862

00:40:05,973 --> 00:40:08,910

I say isotopes are less useful
than electronic components

863

00:40:08,943 --> 00:40:11,712

but more useful than a sandwich.

864

00:40:11,746 --> 00:40:13,514

(all laughing)

865

00:40:14,949 --> 00:40:16,817

STRAUSS: *Genius is*
no guarantee of wisdom.

866

00:40:17,818 --> 00:40:20,588

How could this man
who saw so much be so blind?

867

00:40:21,555 --> 00:40:24,926

(baby crying)

868

00:40:30,097 --> 00:40:31,532

Kitty?

869

00:40:36,237 --> 00:40:38,172

Kitty?

870

00:40:38,205 --> 00:40:41,609

Kitty, the project...

871

00:40:42,576 --> 00:40:45,179

I'm in. I'm in.

872

00:40:45,212 --> 00:40:46,981

Let's celebrate. (sighs)

873

00:40:49,283 --> 00:40:51,218

(baby continues crying)

874

00:40:51,252 --> 00:40:52,586

(Kitty moans)

875

00:40:52,620 --> 00:40:54,221

Shouldn't you go to him?

876

00:40:54,255 --> 00:40:55,690

(uneasy music playing)

877

00:40:58,826 --> 00:41:01,996

I have been going to him

all fucking day.

878

00:41:11,138 --> 00:41:12,807

(baby crying)

879

00:41:17,011 --> 00:41:19,013

(shushing)

880

00:41:19,046 --> 00:41:20,480

(knock at door)

881

00:41:25,753 --> 00:41:27,487

BARBARA:

Come here, darling.

882

00:41:28,589 --> 00:41:30,157

I don't know how to say this.

883

00:41:30,191 --> 00:41:32,893

I'm... I'm ashamed to ask.

884

00:41:32,927 --> 00:41:34,862

CHEVALIER:

Anything.

885

00:41:34,895 --> 00:41:35,696

Take Peter.

886

00:41:35,730 --> 00:41:38,766

-Sure.

-No, for-for a while, Hoke.

887

00:41:38,799 --> 00:41:40,768

A while.

888

00:41:42,336 --> 00:41:44,138

Does Kitty know you're here?

889

00:41:44,171 --> 00:41:45,906

Yes, of course she knows.

890

00:41:46,774 --> 00:41:48,776

Of course she knows. (sighs)

891

00:41:48,809 --> 00:41:52,513

We're awful people.

Selfish, awful people.

892

00:41:54,015 --> 00:41:55,016

Forget I asked.

893

00:41:55,049 --> 00:41:56,884

Selfish, awful people,

894

00:41:56,917 --> 00:41:59,320

they don't know

they're selfish and awful.

895

00:41:59,353 --> 00:42:01,922

Sit, sit, sit.

896

00:42:02,957 --> 00:42:07,061

Robert, you see beyond
the world we live in.

897

00:42:08,763 --> 00:42:11,332

There is a price
to be paid for that.

898

00:42:11,365 --> 00:42:12,933

Of course we'll help you.

899

00:42:14,368 --> 00:42:16,771

(wistful music playing)

900

00:42:23,878 --> 00:42:26,047

KITTY:

Everything's changing, Robert.

901

00:42:26,080 --> 00:42:28,049

Having a child was always

going to change...

902

00:42:28,082 --> 00:42:32,186

No, the world, it's pivoting
in some new direction.

903

00:42:32,219 --> 00:42:34,622

It's reforming.

904

00:42:36,390 --> 00:42:38,092

This is your moment.

905

00:42:39,260 --> 00:42:40,928

We're putting together a group
to study feasibility...

906

00:42:40,961 --> 00:42:43,764

"We" shouldn't be
doing anything. You should.

907

00:42:44,665 --> 00:42:46,801

Lawrence won't get this done.

908

00:42:46,834 --> 00:42:48,969

Or Tolman or Rabi. You will.

909

00:42:52,206 --> 00:42:53,841

(indistinct chatter)

910

00:42:57,812 --> 00:42:59,947

ROBERT:

Who are the uniforms?

911

00:43:00,748 --> 00:43:02,650

I thought you might know.

912

00:43:03,684 --> 00:43:05,953

-(door opens)

-MAN: Dr. Oppenheimer.

913

00:43:05,986 --> 00:43:07,955

I'm Colonel Groves.

914

00:43:07,988 --> 00:43:10,224

This is Lieutenant

Colonel Nichols.

915

00:43:10,257 --> 00:43:11,759

Have that dry-cleaned.

916

00:43:15,329 --> 00:43:17,631

(door opens, closes)

917

00:43:17,665 --> 00:43:19,733

Well, if that's how you treat

Lieutenant Colonel,

918

00:43:19,767 --> 00:43:23,137

I'd hate to see how you treat

a humble physicist.

919

00:43:23,170 --> 00:43:25,239

Ah, if I ever meet one,

I'll let you know.

920

00:43:25,272 --> 00:43:26,774

(chuckles softly) Ouch.

921

00:43:26,807 --> 00:43:28,375

Theaters of combat

all over the world,

922

00:43:28,409 --> 00:43:30,344

but I have to stay

in Washington.

923

00:43:30,377 --> 00:43:33,080

-Why?

-I built the Pentagon.

924

00:43:33,114 --> 00:43:35,749

The brass likes it so much

they made me take over

925

00:43:35,783 --> 00:43:37,918

the Manhattan Engineer District.

926

00:43:37,952 --> 00:43:39,086

Which is?

927

00:43:39,120 --> 00:43:42,389

Oh, don't be a smart ass.

You know damn well what it is.

928

00:43:42,423 --> 00:43:44,125

You and half of every

physics department

929

00:43:44,158 --> 00:43:46,994

across the country.

That's problem number one.

930

00:43:47,027 --> 00:43:48,762

I thought problem

number one would be

931

00:43:48,796 --> 00:43:50,064

securing enough uranium ore.

932

00:43:50,097 --> 00:43:53,200

1,200 tons bought

the day I took charge.

933

00:43:53,234 --> 00:43:54,401

Processing?

934

00:43:54,435 --> 00:43:56,637

Just broke ground

at Oak Ridge, Tennessee.

935

00:43:57,438 --> 00:43:59,140

Now I'm looking

for a project director.

936

00:43:59,173 --> 00:44:01,275

And my name came up?

937

00:44:01,308 --> 00:44:02,376

Nope.

938

00:44:03,512 --> 00:44:05,746

Even though you brought

quantum physics to America.

939

00:44:05,779 --> 00:44:07,148

Which made me curious.

940

00:44:07,181 --> 00:44:09,049

What have you found out?

941

00:44:09,950 --> 00:44:12,453

You're a dilettante,

a womanizer,

942

00:44:12,486 --> 00:44:13,821

a suspected Communist...

943

00:44:13,854 --> 00:44:15,256

I'm a New Deal Democrat.

944

00:44:15,289 --> 00:44:16,891

I said "suspected."

945

00:44:16,924 --> 00:44:21,162

Unstable, theatrical,

egotistical, neurotic...

946

00:44:21,195 --> 00:44:22,229

Nothing good, no?

947

00:44:22,263 --> 00:44:23,931

Not even

"he's brilliant, but..."

948

00:44:23,964 --> 00:44:25,766

Well, brilliance is taken

for granted

949

00:44:25,799 --> 00:44:27,301

in your circle, so no.

950

00:44:27,334 --> 00:44:29,303

No, the only person who had

anything good to say

951

00:44:29,336 --> 00:44:31,071

was Richard Tolman.

952

00:44:31,105 --> 00:44:33,207

Tolman thinks

you have integrity,

953

00:44:33,240 --> 00:44:35,376

but he also strikes me as a guy

954

00:44:35,409 --> 00:44:37,778

who knows more about
science than people.

955

00:44:37,811 --> 00:44:41,782

Yet here you are.

You don't take much on trust.

956

00:44:41,815 --> 00:44:43,817

I don't take anything on trust.

957

00:44:47,388 --> 00:44:49,123

Why don't you
have a Nobel Prize?

958

00:44:49,156 --> 00:44:50,224

Why aren't you a general?

959

00:44:50,257 --> 00:44:51,425

They're making me one for this.

960

00:44:51,458 --> 00:44:52,826

Perhaps I'll have the same luck.

961

00:44:52,860 --> 00:44:54,461

A Nobel Prize for making a bomb?

962

00:44:54,495 --> 00:44:56,830

Alfred Nobel invented dynamite.

963

00:44:59,266 --> 00:45:00,901

So how would you proceed?

964

00:45:02,403 --> 00:45:05,105

You're talking
about turning theory

965

00:45:05,139 --> 00:45:07,308

into a practical weapons system

966

00:45:07,341 --> 00:45:08,475

faster than the Nazis.

967

00:45:08,510 --> 00:45:10,244

Who have a 12-month head start.

968

00:45:10,277 --> 00:45:11,412

Eighteen.

969

00:45:11,445 --> 00:45:12,813

How could you possibly
know that?

970

00:45:12,846 --> 00:45:14,882

Our fast neutron research
took six months.

971

00:45:14,915 --> 00:45:16,417

The man they've
undoubtedly put in charge

972

00:45:16,450 --> 00:45:17,851

will have made

that leap instantly.

973

00:45:17,885 --> 00:45:19,086

Who do you think
they put in charge?

974

00:45:19,119 --> 00:45:20,221

Werner Heisenberg.

975

00:45:20,254 --> 00:45:22,823

He has the most intuitive
understanding

976

00:45:22,856 --> 00:45:24,526

of atomic structure
I have ever seen.

977

00:45:24,559 --> 00:45:26,260

-You know his work?
-I know him.

978

00:45:26,293 --> 00:45:28,128

<i>Just like I know Walther Bothe,</i>

<i>von Weizsäcker, Diebner.</i>

979

00:45:28,162 --> 00:45:30,965

In a straight race,
the Germans win.

980

00:45:30,998 --> 00:45:33,734

-We've got one hope.
-Which is?

981

00:45:34,335 --> 00:45:35,970

Anti-Semitism.

982

00:45:37,104 --> 00:45:38,105

What?

983

00:45:38,138 --> 00:45:40,975

Hitler called quantum physics
"Jewish science."

984

00:45:41,008 --> 00:45:42,843

Said it right
to Einstein's face.

985

00:45:42,876 --> 00:45:46,113

Our one hope is that Hitler
is so... so blinded by hate

986

00:45:46,146 --> 00:45:47,948

that he's denied Heisenberg
proper resources,

987

00:45:47,982 --> 00:45:49,917

because it'll take
vast resources.

988

00:45:49,950 --> 00:45:51,485

Our nation's best scientists
working together.

989

00:45:51,519 --> 00:45:52,920

Right now, they're scattered.

990

00:45:52,953 --> 00:45:54,556

Which gives us
compartmentalization.

991

00:45:54,589 --> 00:45:56,457

All minds have
to see the whole task

992

00:45:56,490 --> 00:45:57,858

to contribute efficiently.

993

00:45:57,891 --> 00:46:00,127

Poor security
may cost us the race.

994

00:46:00,160 --> 00:46:01,996

Inefficiency will.

995

00:46:02,029 --> 00:46:03,864

The Germans know
more than us anyway.

996

00:46:03,897 --> 00:46:06,000

The Russians don't.

997

00:46:06,033 --> 00:46:09,970

Remind me,
who are we at war with?

998

00:46:10,004 --> 00:46:12,439

Somebody with your past
doesn't want to be seen

999

00:46:12,473 --> 00:46:14,074

downplaying the importance

1000

00:46:14,108 --> 00:46:16,844

of security from
our Communist allies.

1001

00:46:16,877 --> 00:46:19,547

Point taken. But, no.

1002

00:46:19,581 --> 00:46:21,882

(scoffs) You don't get
to say "no" to me.

1003

00:46:21,915 --> 00:46:24,184

It's my job to say "no" to you
when you're wrong.

1004

00:46:24,218 --> 00:46:26,220

So you have the job now?

1005

00:46:26,253 --> 00:46:28,322

Uh, I'm considering it.

1006

00:46:31,025 --> 00:46:33,360

I'm starting to see
where you got your reputation.

1007

00:46:34,562 --> 00:46:36,997

My favorite response,

1008

00:46:37,031 --> 00:46:39,366

"Oppenheimer couldn't
run a hamburger stand."

1009

00:46:39,400 --> 00:46:41,302

(chuckles)

1010

00:46:41,335 --> 00:46:42,136

I couldn't.

1011

00:46:44,171 --> 00:46:46,340

But I can run

the Manhattan Project.

1012

00:46:47,207 --> 00:46:49,376

There's a way

to balance these things.

1013

00:46:49,410 --> 00:46:53,615

Keep the Rad Lab here

at Berkeley under Lawrence.

1014

00:46:53,648 --> 00:46:55,916

Met Lab in Chicago,

under Szilard.

1015

00:46:55,949 --> 00:46:58,385

Large-scale refining,

where did you say? Tennessee.

1016

00:46:58,419 --> 00:47:00,087

-And Hanford.

-And Hanford.

1017

00:47:00,120 --> 00:47:04,191

All America's industrial might
and scientific innovation,

1018

00:47:04,224 --> 00:47:05,593

connected by rail.

1019

00:47:05,627 --> 00:47:07,294

Focused on one goal.

1020

00:47:07,328 --> 00:47:10,030

One point in space and time.

And it comes together here.

1021

00:47:10,064 --> 00:47:12,366

<i>A secret laboratory.</i>

<i>In the middle of nowhere,</i>

1022

00:47:12,399 --> 00:47:13,867

<i>secure, self-sufficient,</i>

1023

00:47:13,901 --> 00:47:15,269

equipment, housing, the works.

1024

00:47:15,302 --> 00:47:17,471

Keep everyone there

until it's done.

1025

00:47:17,505 --> 00:47:19,541

It'll need a school,

stores, a church.

1026

00:47:19,574 --> 00:47:21,008

Why?

1027

00:47:21,041 --> 00:47:22,343

ROBERT:

<i>If we don't let scientists</i>

1028

00:47:22,376 --> 00:47:24,078

bring their families,

we'll never get the best.

1029

00:47:24,111 --> 00:47:26,180

You want security,
build a town, build it fast.

1030

00:47:26,213 --> 00:47:27,281

Where?

1031

00:47:31,285 --> 00:47:33,253

Welcome to Los Alamos.

1032

00:47:33,287 --> 00:47:36,090

Now, there's a boys school
we'll have to commandeer,

1033

00:47:36,123 --> 00:47:38,092

and the local Indians come
up here for burial rites.

1034

00:47:38,125 --> 00:47:41,362

But, apart from that, nothing.
Forty miles. Any direction.

1035

00:47:41,395 --> 00:47:43,330

Enough to find the perfect spot.

1036

00:47:43,364 --> 00:47:45,866

-For?

-Success.

1037

00:47:47,334 --> 00:47:49,403

(gripping music playing)

1038

00:47:51,138 --> 00:47:53,140

Build him a town. Fast.

1039

00:47:54,174 --> 00:47:56,678

Let's go recruit

some scientists.

1040

00:47:56,711 --> 00:47:59,046

Why would I leave my family?

1041

00:47:59,079 --> 00:48:00,515

I told you,
you can bring your family.

1042

00:48:00,548 --> 00:48:01,982

I'm not a soldier, Oppie.

1043

00:48:02,015 --> 00:48:04,118

A soldier? He's a general.

1044

00:48:04,151 --> 00:48:05,986

I've got all the soldier I need.

1045

00:48:06,019 --> 00:48:07,589

What can I tell them?

1046

00:48:07,622 --> 00:48:09,957

Heisenberg, Diebner,

Bothe and Bohr.

1047

00:48:09,990 --> 00:48:11,291

What do these men

have in common?

1048

00:48:11,325 --> 00:48:13,327

The greatest minds
on atomic theory.

1049

00:48:13,360 --> 00:48:14,696

-Yes, and?

-Uh...

1050

00:48:14,729 --> 00:48:17,998

As much as you like,

1051

00:48:18,031 --> 00:48:20,167

until you feel my boot
on your balls.

1052

00:48:20,200 --> 00:48:22,970

You know isotopes
and you know explosives

1053

00:48:23,003 --> 00:48:24,304

better than anyone in the world.

1054

00:48:24,338 --> 00:48:26,940

But you can't tell us
what you're doing?

1055

00:48:26,974 --> 00:48:28,242

(Groves sighs)

1056

00:48:30,010 --> 00:48:32,246

-I don't know.

-The Nazis have them.

1057

00:48:32,279 --> 00:48:34,415

-Niels Bohr's in Copenhagen.

-Under Nazi occupation.

1058

00:48:34,448 --> 00:48:36,316

Did they stop printing
newspapers in Princeton?

1059

00:48:36,350 --> 00:48:38,686

Why would we go
to the middle of nowhere

1060

00:48:38,720 --> 00:48:40,187

for who knows how long?

(chuckling)

1061

00:48:40,220 --> 00:48:42,322

For a year or two. Or three.

1062

00:48:43,323 --> 00:48:46,927

Uh, General, could you

give us a moment?

1063

00:48:47,995 --> 00:48:51,064

It's about unleashing

the strong force...

1064

00:48:52,199 --> 00:48:53,601

...before the Nazis do.

1065

00:48:53,635 --> 00:48:55,570

Oh, my God.

1066

00:48:55,603 --> 00:48:56,704

Niels won't work for the Nazis.

1067

00:48:56,738 --> 00:48:58,038

No, never.

1068

00:48:58,071 --> 00:49:00,374

But while they have him,
we don't.

1069

00:49:00,407 --> 00:49:01,576

That's why I need you.

1070

00:49:01,609 --> 00:49:03,578

Why would you think I'd do that?

1071

00:49:03,611 --> 00:49:05,446

"Why?" "Why?"

1072

00:49:05,479 --> 00:49:07,682

How about because this is the
most important fucking thing

1073

00:49:07,715 --> 00:49:09,717

to ever happen
in the history of the world.

1074

00:49:09,751 --> 00:49:11,185

How about that?

1075

00:49:11,753 --> 00:49:13,187

Fuck.

1076

00:49:16,624 --> 00:49:18,091

(door shuts)

1077

00:49:18,125 --> 00:49:20,494

They are not gonna
let me onto this project.

1078

00:49:20,528 --> 00:49:22,597

And failing a security check
is not gonna be good

1079

00:49:22,630 --> 00:49:24,298

for a career,
even after the war.

1080

00:49:24,331 --> 00:49:27,100

So you're a fellow traveler.

So what?

1081

00:49:27,134 --> 00:49:28,502

This is a national emergency.

1082

00:49:28,536 --> 00:49:31,706

I've got some skeletons,

they put me in charge.

1083

00:49:31,739 --> 00:49:33,040

They need us.

1084

00:49:33,073 --> 00:49:35,242

Until they don't.

1085

00:49:38,312 --> 00:49:40,715

Is there any chance of getting

Bohr out of Denmark?

1086

00:49:40,748 --> 00:49:43,751

Nah, no dice.

I checked with the British.

1087

00:49:43,785 --> 00:49:46,086

Until we get Allied boots

back onto the continent,

1088

00:49:46,119 --> 00:49:47,522

there's just no way.

1089

00:49:49,056 --> 00:49:50,491

Is he that important?

1090

00:49:50,525 --> 00:49:53,561

How many people do you know

who proved Einstein wrong?

1091

00:49:54,629 --> 00:49:56,731

You know, it really would

be quicker to take a plane.

1092

00:49:56,764 --> 00:49:58,499

No, plane's too risky.

1093

00:49:58,533 --> 00:50:01,001

Country needs us.

1094

00:50:03,370 --> 00:50:04,471

The Harvard guys,

1095

00:50:04,506 --> 00:50:07,074

they say the building's

too small for the cyclotron.

1096

00:50:09,309 --> 00:50:11,211

ROBERT: Get them together

with the architects.

1097

00:50:14,414 --> 00:50:16,416

When's this place

supposed to open?

1098

00:50:19,521 --> 00:50:20,320

Two months.

1099

00:50:21,455 --> 00:50:23,725

Robert, you're
the great improviser,

1100

00:50:23,758 --> 00:50:25,793

but this... (sighs)

1101

00:50:25,827 --> 00:50:27,427

you can't do in your head.

1102

00:50:28,462 --> 00:50:30,063

Four divisions.

1103

00:50:31,198 --> 00:50:34,802

Experimental, Theoretical,
Metallurgical, Ordnance.

1104

00:50:34,836 --> 00:50:35,803

Who's running Theoretical?

1105

00:50:35,837 --> 00:50:37,237

ROBERT:

I am.

1106

00:50:37,271 --> 00:50:38,472

RABl:

That's what I was afraid of.

1107

00:50:38,506 --> 00:50:40,374

You're spread too thin.

1108

00:50:41,576 --> 00:50:43,277

So you take Theoretical.

1109

00:50:45,847 --> 00:50:49,082

I'm not coming here, Robert.

1110

00:50:54,722 --> 00:50:56,390

Why not?

1111

00:50:59,694 --> 00:51:01,061

(scoffs)

1112

00:51:02,262 --> 00:51:06,333

You drop a bomb and it falls
on the just and the unjust.

1113

00:51:06,366 --> 00:51:07,569

(sighs)

1114

00:51:07,602 --> 00:51:10,237

I don't wish the culmination
of three centuries of physics

1115

00:51:10,270 --> 00:51:12,674

to be a weapon
of mass destruction.

1116

00:51:13,741 --> 00:51:16,076

(pensive music playing)

1117

00:51:21,883 --> 00:51:23,216

ROBERT:

Izzy.

1118

00:51:24,351 --> 00:51:28,488

I don't know if we can

be trusted with such a weapon.

1119

00:51:29,857 --> 00:51:33,160

But I know the Nazis can't.

1120

00:51:36,564 --> 00:51:39,366

We have no choice.

1121

00:51:40,768 --> 00:51:42,202

Then...

1122

00:51:43,538 --> 00:51:45,907

...the second thing

you'll have to do is appoint

1123

00:51:45,940 --> 00:51:48,208

Hans Bethe to run

the Theoretical division.

1124

00:51:48,241 --> 00:51:50,545

(rousing music playing)

1125

00:51:50,578 --> 00:51:52,412

Wait, what was the first?

1126

00:51:52,446 --> 00:51:54,916

Take off

that ridiculous uniform.

1127

00:51:54,949 --> 00:51:56,149

You're a scientist.

1128

00:51:56,183 --> 00:51:57,785

Groves is insisting we join.

1129

00:51:57,819 --> 00:52:00,253

Tell Groves to go

shit in his hat.

1130

00:52:00,287 --> 00:52:03,758

They need us for who we are.

So be yourself.

1131

00:52:03,791 --> 00:52:05,760

Only better.

1132

00:52:05,793 --> 00:52:08,395

(rousing music continues)

1133

00:52:44,799 --> 00:52:46,834

This is the only key.

1134

00:52:46,868 --> 00:52:48,301

And Teller's already here.

1135

00:52:48,335 --> 00:52:50,203

-(sighs)

-Shall I just show him in?

1136

00:52:50,237 --> 00:52:51,906

No, let's wait for the others.

1137

00:52:51,939 --> 00:52:53,473

(door opens)

1138

00:52:59,847 --> 00:53:00,848

Let's get started.

1139

00:53:00,882 --> 00:53:02,950

Hello, Edward.

1140

00:53:02,984 --> 00:53:04,686

Yes.

1141

00:53:04,719 --> 00:53:06,420

Gentlemen, so, we will work here

1142

00:53:06,453 --> 00:53:09,456

until the T-section

at Los Alamos is finished.

1143

00:53:09,489 --> 00:53:11,793

-Edward, can I please...

-It is more important.

1144

00:53:13,861 --> 00:53:15,830

When I calculated

the chain reaction,

1145

00:53:15,863 --> 00:53:18,566

I found a rather
troubling possibility.

1146

00:53:18,599 --> 00:53:20,702

BETHE:

No.

1147

00:53:20,735 --> 00:53:21,969

But this can't be right.

1148

00:53:22,003 --> 00:53:23,938

Show me how
you did your calculations.

1149

00:53:23,971 --> 00:53:25,372

TELLER:

Yes.

1150

00:53:28,876 --> 00:53:29,944

LAWRENCE:

It's exponential.

1151

00:53:29,977 --> 00:53:32,446

BETHE:

No. No, no, no. No.

1152

00:53:34,982 --> 00:53:36,984

This is fantasy.

1153

00:53:37,018 --> 00:53:39,286

Teller's calculations

can't be right.

1154

00:53:39,319 --> 00:53:41,989

Do them yourself

while I go to Princeton.

1155

00:53:42,023 --> 00:53:43,858

-What for?

-To talk to Einstein.

1156

00:53:43,891 --> 00:53:46,460

Well, there's not much

common ground between you two.

1157

00:53:46,493 --> 00:53:49,530

That's why

I should get his view.

1158

00:53:49,564 --> 00:53:51,264

(birds chirping)

1159

00:53:52,967 --> 00:53:54,969

-Albert.

-Hmm?

1160

00:53:55,002 --> 00:53:57,905

Ah. Dr. Oppenheimer. (chuckles)

1161

00:53:57,939 --> 00:53:59,406

Well, have you met Dr. Gödel?

1162

00:53:59,439 --> 00:54:01,008

We walk here most days.

1163

00:54:01,042 --> 00:54:05,847

Trees are the most

inspiring structures.

1164

00:54:05,880 --> 00:54:07,347

Albert, might I have a word?

1165

00:54:07,380 --> 00:54:10,785

Of course. 'Scuse me, Kurt.

1166

00:54:11,786 --> 00:54:14,722

You know, some days,

Kurt refuses to eat.

1167

00:54:14,756 --> 00:54:16,356

Even in Princeton.

1168

00:54:16,389 --> 00:54:19,493

He's convinced that the Nazis

can poison his food.

1169

00:54:19,527 --> 00:54:20,795

Mm.

1170

00:54:20,828 --> 00:54:22,663

Hmm? Huh.

1171

00:54:24,532 --> 00:54:26,366

Wha...

1172

00:54:26,399 --> 00:54:28,603

(suspenseful music playing)

1173

00:54:30,905 --> 00:54:33,741

Whose... Whose work is this?

1174

00:54:33,775 --> 00:54:34,809

Teller's.

1175

00:54:35,943 --> 00:54:38,411

What do you take it to mean?

1176

00:54:38,445 --> 00:54:40,380

Neutrons smash into nucleus,

1177

00:54:40,413 --> 00:54:44,451

releasing neutrons

to smash into other nuclei.

1178

00:54:44,484 --> 00:54:46,687

Criticality,

a point of no return,

1179

00:54:46,721 --> 00:54:48,321

massive explosive force.

1180

00:54:48,355 --> 00:54:50,691

But this time,

the chain reaction doesn't stop.

1181

00:54:51,592 --> 00:54:54,562

It would ignite the atmosphere.

1182

00:54:54,595 --> 00:54:55,596

(whooshing)

1183

00:54:55,630 --> 00:54:57,598

When we detonate

an atomic device,

1184

00:54:57,632 --> 00:54:59,801

we might start

a chain reaction that...

1185

00:55:00,768 --> 00:55:02,302

...destroys the world.

1186

00:55:03,470 --> 00:55:05,372

So here we are, hmm?

1187

00:55:05,405 --> 00:55:09,710

Lost in your quantum world

of probabilities

1188

00:55:09,744 --> 00:55:11,478

and needing certainty.

1189

00:55:11,512 --> 00:55:14,381

Can you run

the calculations yourself?

1190

00:55:14,414 --> 00:55:15,817

(chuckles) About the only thing

1191

00:55:15,850 --> 00:55:19,120

you and I have in common
is a disdain for mathematics.

1192

00:55:19,153 --> 00:55:21,722

Who's working on this
in-in Berkeley?

1193

00:55:21,756 --> 00:55:23,057

Hans Bethe.

1194

00:55:23,090 --> 00:55:24,926

Well, he'll get to the truth.

1195

00:55:26,561 --> 00:55:29,429

And if the truth
is catastrophic?

1196

00:55:29,462 --> 00:55:30,765

Then you stop.

1197

00:55:30,798 --> 00:55:34,535

And you share your findings
with the Nazis.

1198

00:55:34,569 --> 00:55:37,705

So neither side
destroys the world.

1199

00:55:40,908 --> 00:55:41,943

Robert.

1200

00:55:43,410 --> 00:55:46,614

This is yours, not mine.

1201

00:55:59,492 --> 00:56:00,895

BETHE:

Teller's wrong.

1202

00:56:00,928 --> 00:56:02,129

-He's wrong.

-(shushing)

1203

00:56:02,163 --> 00:56:04,397

(keys jingling)

1204

00:56:11,806 --> 00:56:14,508

BETHE: When you know

Teller's critical assumptions,

1205

00:56:14,542 --> 00:56:15,877

the real picture emerges.

1206

00:56:15,910 --> 00:56:17,712

Bottom line?

1207

00:56:17,745 --> 00:56:19,847

The chances of an uncontrolled
nuclear reaction

1208

00:56:19,881 --> 00:56:20,882

are near zero.

1209

00:56:20,915 --> 00:56:23,551

Near zero. (breathes heavily)

1210

00:56:23,584 --> 00:56:25,853

-Oppie, this is good news.

-Mm.

1211

00:56:27,188 --> 00:56:28,421

Can you run them again?

1212

00:56:28,455 --> 00:56:30,191

No, you'll get the same answer.

1213

00:56:30,224 --> 00:56:31,792

Till they actually detonate

one of these things,

1214

00:56:31,826 --> 00:56:34,662

the best assurance

you're going to get is this.

1215

00:56:34,695 --> 00:56:35,763

Near zero.

1216

00:56:37,965 --> 00:56:40,635

(exhales sharply) Theory
will take you only so far.

1217

00:56:40,668 --> 00:56:42,169

-BETHE: Mm.

-CHEVALIER: *<i>Hello!</i>*

1218

00:56:42,203 --> 00:56:43,504

-BARBARA: Hello, you.

-KITTY: Hi.

1219

00:56:43,537 --> 00:56:44,872

BARBARA:

We missed him.

1220

00:56:44,906 --> 00:56:46,040

You want to adopt?

1221

00:56:46,073 --> 00:56:47,474

-She's kidding.

-(Kitty chuckles)

1222

00:56:47,508 --> 00:56:49,442

We wanted to see you
before we left.

1223

00:56:49,476 --> 00:56:52,647

-For parts unknown.

-(chuckles)

1224

00:56:52,680 --> 00:56:55,216

CHEVALIER: You know who

I ran into the other day?

1225

00:56:55,249 --> 00:56:56,884

Eltenton.

1226

00:56:56,918 --> 00:56:58,185

ROBERT:

Oh.

1227

00:56:58,219 --> 00:56:59,921

The chemist from Shell?

The union guy?

1228

00:56:59,954 --> 00:57:03,824

CHEVALIER: Yeah. He...

The, uh, F.A.E.C.T. guy.

1229

00:57:03,858 --> 00:57:07,228

He was moaning about
how we're handling the war.

1230

00:57:07,261 --> 00:57:09,462

ROBERT:

How so?

1231

00:57:09,496 --> 00:57:12,233

Lack of cooperation
with our allies.

1232

00:57:12,266 --> 00:57:14,602

Apparently
our government's not sharing

1233

00:57:14,635 --> 00:57:16,737

any research with the Russians.

1234

00:57:16,771 --> 00:57:17,738

Well, he said,

1235

00:57:17,772 --> 00:57:20,508

"Most scientists think
the policy is stupid."

1236

00:57:20,541 --> 00:57:23,811

(suspenseful music playing)

1237

00:57:23,844 --> 00:57:25,680

-ROBERT: Oh, yeah?

-CHEVALIER: Yeah.

1238

00:57:25,713 --> 00:57:28,082

He mentioned that if anyone

1239

00:57:28,115 --> 00:57:31,085

had anything
they wanted to pass on,

1240

00:57:31,118 --> 00:57:32,954

uh, going around
official channels,

1241

00:57:32,987 --> 00:57:34,922

that he could help.

1242

00:57:43,564 --> 00:57:45,232

That would be treason.

1243

00:57:45,266 --> 00:57:48,102

Yes, of course.

1244

00:57:48,135 --> 00:57:49,937

I just thought you should know.

1245

00:57:53,074 --> 00:57:54,542

The brat is down.

1246

00:57:54,575 --> 00:57:55,943

Where are the martinis?

1247

00:58:01,148 --> 00:58:02,650

Coming right up.

1248

00:58:02,683 --> 00:58:04,151

<i>Conversation ended there.</i>

1249

00:58:04,185 --> 00:58:06,287

Nothing in our

long-standing friendship

1250

00:58:06,320 --> 00:58:07,888

would have led me to believe

1251

00:58:07,922 --> 00:58:10,658

that Chevalier was actually

seeking information,

1252

00:58:10,691 --> 00:58:13,160

and I am certain

that he had no idea

1253

00:58:13,194 --> 00:58:15,495

of the work in which

I was engaged.

1254

00:58:20,034 --> 00:58:22,003

It has long been clear to me

1255

00:58:22,036 --> 00:58:24,739

that I should have reported
this incident at once.

1256

00:58:24,772 --> 00:58:26,273

SENATOR McGEE:

<i>The Oppenheimer situation</i>

1257

00:58:26,307 --> 00:58:29,210

<i>highlights the tension</i>
<i>between scientists</i>

1258

00:58:29,243 --> 00:58:30,845

and the security apparatus.

1259

00:58:30,878 --> 00:58:32,747

In hopes of learning
how the nominee handled

1260

00:58:32,780 --> 00:58:35,116

such issues during
his time at the AEC,

1261

00:58:35,149 --> 00:58:38,652

we'll have a scientist
appearing before the committee.

1262

00:58:39,320 --> 00:58:40,888

Who are they bringing in?

1263

00:58:40,921 --> 00:58:41,889

They hadn't said.

1264

00:58:41,922 --> 00:58:43,290

STRAUSS:

Mr. Chairman, if I may,

1265

00:58:43,324 --> 00:58:45,860

I'm nominated
for Commerce Secretary.

1266

00:58:45,893 --> 00:58:48,195

Why seek the opinion

of scientists?

1267

00:58:48,229 --> 00:58:50,564

This is a Cabinet post, Admiral.

1268

00:58:50,598 --> 00:58:52,767

We seek a wide range of opinion.

1269

00:58:52,800 --> 00:58:55,603

Well, I'd like to know the name
of the scientist testifying.

1270

00:58:55,636 --> 00:58:57,138

I'd like the chance
to cross-examine.

1271

00:58:57,171 --> 00:58:59,306

This is not a court.

1272

00:58:59,340 --> 00:59:01,742

STRAUSS:

(grunts) Formality, huh?

1273

00:59:01,776 --> 00:59:03,044

SENATE AIDE:

No presidential Cabinet nominee

1274

00:59:03,077 --> 00:59:05,646

has failed to be confirmed

since 1925.

1275

00:59:05,679 --> 00:59:07,782

This is just how

the game is played.

1276

00:59:07,815 --> 00:59:09,116

It's in the bag, Lewis.

1277

00:59:09,150 --> 00:59:10,351

So play nice.

1278

00:59:10,384 --> 00:59:12,653

<i>They bring in a scientist,</i>

<i>so what?</i>

1279

00:59:12,686 --> 00:59:14,688

You don't know scientists
like I do, Counselor.

1280

00:59:14,722 --> 00:59:16,757

They resent anyone
who questions their judgment,

1281

00:59:16,791 --> 00:59:18,793

<i>especially if you're</i>
<i>not one of them.</i>

1282

00:59:18,826 --> 00:59:20,127

I was chair of the AEC.

1283

00:59:20,161 --> 00:59:22,596

I'm easy to blame
for what happened to Robert.

1284

00:59:22,630 --> 00:59:23,931

We can't have
the Senate thinking

1285

00:59:23,964 --> 00:59:27,068

the scientific community
doesn't support you, sir.

1286

00:59:27,101 --> 00:59:28,936

Or should we pivot?

1287

00:59:28,969 --> 00:59:30,938

-SENATE AIDE: To what?

-And embrace it.

1288

00:59:30,971 --> 00:59:33,741

"I fought Oppenheimer,
and the US won."

1289

00:59:33,774 --> 00:59:35,342

I-I don't think
we need to go there.

1290

00:59:35,376 --> 00:59:37,645

Isn't there someone we can call
who knows what really happened?

1291

00:59:37,678 --> 00:59:39,113

-Teller.

-He'll make an impression.

1292

00:59:39,146 --> 00:59:41,215

Can you get the name of
the scientist they've called?

1293

00:59:41,248 --> 00:59:42,817

-Probably.

-Find out if he was

1294

00:59:42,850 --> 00:59:45,219

based in Chicago
or Los Alamos during the war.

1295

00:59:45,252 --> 00:59:46,620

Why does that matter?

1296

00:59:46,654 --> 00:59:47,855

Well, if he was
based in Chicago,

1297

00:59:47,888 --> 00:59:49,290

then he worked

under Szilard and Fermi,

1298

00:59:49,323 --> 00:59:51,625

not the cult of Oppie

at Los Alamos.

1299

00:59:51,659 --> 00:59:52,893

Robert built that damn place.

1300

00:59:52,927 --> 00:59:55,696

He was founder, mayor, sheriff,

1301

00:59:55,729 --> 00:59:57,131

all rolled into one.

1302

00:59:57,164 --> 00:59:59,600

(gripping music playing)

1303

01:00:05,406 --> 01:00:08,142

(baby crying)

1304

01:00:10,077 --> 01:00:11,879

All it needs is a saloon.

1305

01:00:36,837 --> 01:00:39,240

(mutters indistinctly)

1306

01:00:40,307 --> 01:00:42,877

There's no kitchen.

1307

01:00:42,910 --> 01:00:46,847

Really? We'll fix that.

1308

01:00:46,881 --> 01:00:49,116

(gripping music continues)

1309

01:00:52,753 --> 01:00:56,157

BETHE:

Barbed wire, guns.

1310

01:00:56,190 --> 01:00:57,291

Oppie.

1311

01:00:57,324 --> 01:00:58,959

ROBERT:

We're at war, Hans.

1312

01:01:01,362 --> 01:01:03,931

Halifax. 1917.

1313

01:01:03,964 --> 01:01:06,934

A cargo ship carrying munitions
explodes in the harbor.

1314

01:01:06,967 --> 01:01:09,303

(explosions)

1315

01:01:09,336 --> 01:01:12,273

A vast and sudden
chemical reaction.

1316

01:01:12,306 --> 01:01:14,175

(violent whooshing)

1317

01:01:15,943 --> 01:01:18,779

The biggest man-made
explosion in history.

1318

01:01:18,812 --> 01:01:20,781

Now let's calculate
how much more destructive

1319

01:01:20,814 --> 01:01:23,484

it would have been
if it were a nuclear

1320

01:01:23,518 --> 01:01:25,186

and not a chemical reaction.

1321

01:01:25,219 --> 01:01:28,856

Expressing power in terms
of tons of TNT.

1322

01:01:28,889 --> 01:01:30,391

But it will be thousands.

1323

01:01:30,424 --> 01:01:33,861

Well, then kilotons.

1324

01:01:37,431 --> 01:01:40,801

Using U-235,

1325

01:01:40,834 --> 01:01:43,404

-the bomb will need a...

-Uh-uh.

1326

01:01:43,437 --> 01:01:46,508

Sorry. Gadget will need

a 33-pound sphere

1327

01:01:46,541 --> 01:01:48,008

about this size.

1328

01:01:48,042 --> 01:01:51,845

Or using plutonium,

the ten-pound sphere.

1329

01:01:53,247 --> 01:01:54,481

Here's the amount of uranium

1330

01:01:54,516 --> 01:01:57,851

Oak Ridge refined

all of last month.

1331

01:02:00,254 --> 01:02:04,258

And the Hanford plant

made this much plutonium.

1332

01:02:05,392 --> 01:02:08,495

Now, if we can enrich

these amounts,

1333

01:02:08,530 --> 01:02:11,332

-we need a way to detonate them.

-(paper tearing)

1334

01:02:11,365 --> 01:02:13,467

Are we boring you, Edward?

1335

01:02:13,500 --> 01:02:15,102

TELLER:

A little bit, yes.

1336

01:02:15,135 --> 01:02:16,370

May I ask why?

1337

01:02:16,403 --> 01:02:17,838

TELLER:

We all entered this room

1338

01:02:17,871 --> 01:02:19,807

knowing a fission bomb

was possible.

1339

01:02:19,840 --> 01:02:22,443

How 'bout we leave it

with something new?

1340

01:02:22,476 --> 01:02:23,477

Such as?

1341

01:02:23,511 --> 01:02:26,247

Instead of uranium or plutonium,

1342

01:02:26,280 --> 01:02:27,281

we use hydrogen.

1343

01:02:27,314 --> 01:02:28,816

(others murmur and laugh)

1344

01:02:28,849 --> 01:02:30,451

-TELLER: Heavy hydrogen.

-FEYNMAN: Hydrogen.

1345

01:02:30,484 --> 01:02:33,254

Deuterium. You see?

1346

01:02:33,287 --> 01:02:34,989

We compact the atoms together

1347

01:02:35,022 --> 01:02:38,092

under great pressure

to induce a fusion reaction.

1348

01:02:39,026 --> 01:02:41,862

Then we'll get not kilotons,

1349

01:02:41,895 --> 01:02:42,963

but megatons.

1350

01:02:42,997 --> 01:02:43,931

FEYNMAN:

A big fission reaction...

1351

01:02:43,964 --> 01:02:45,533

Okay, hang on, hang on.

1352

01:02:45,567 --> 01:02:50,271

So how do you generate enough
force to fuse hydrogen atoms?

1353

01:02:50,304 --> 01:02:52,373

A small fission bomb.

1354

01:02:52,406 --> 01:02:54,108

FEYNMAN:

There we are.

1355

01:02:54,141 --> 01:02:56,010

-(laughter)

-(scattered applause)

1356

01:02:56,043 --> 01:02:57,845

Well, since we're going
to need one anyway,

1357

01:02:57,878 --> 01:02:59,847

can we get back
to the business at hand?

1358

01:02:59,880 --> 01:03:01,215

SENATOR BARTLETT:

The isotopes issue

1359

01:03:01,248 --> 01:03:04,885

wasn't your most important
policy disagreement

1360

01:03:04,918 --> 01:03:06,554

with Dr. Oppenheimer.

1361

01:03:06,588 --> 01:03:08,989

It was the hydrogen bomb,
wasn't it?

1362

01:03:09,023 --> 01:03:11,892

Uh, as colleagues,
we agreed to disagree

1363

01:03:11,925 --> 01:03:13,927

on a great many things, uh,

1364

01:03:13,961 --> 01:03:15,195

and, well, one of them

1365

01:03:15,229 --> 01:03:18,299

was the need
for an H-bomb program, yes.

1366

01:03:18,332 --> 01:03:21,302

-(siren wailing)

-(uneasy music playing)

1367

01:03:31,145 --> 01:03:33,914

Thanks for convening
on short notice.

1368

01:03:33,947 --> 01:03:35,416

I can't believe it.

1369

01:03:36,417 --> 01:03:37,951

Well, here we are.

1370

01:03:37,985 --> 01:03:39,987

Catch me up. What do we know?

1371

01:03:40,020 --> 01:03:42,524

One of our B-29s

over the North Pacific

1372

01:03:42,557 --> 01:03:44,058

has detected radiation.

1373

01:03:44,091 --> 01:03:45,859

Do we have the filter papers?

1374

01:03:45,893 --> 01:03:47,895

There's no doubt what this is.

1375

01:03:47,928 --> 01:03:49,129

White House says

there's a doubt.

1376

01:03:49,163 --> 01:03:50,598

Wishful thinking, I'm afraid.

1377

01:03:50,632 --> 01:03:53,334

Are those the long-range

detection filter papers?

1378

01:03:54,268 --> 01:03:56,337

It's an atomic test.

1379

01:03:58,972 --> 01:04:00,374

The Russians have a bomb.

1380

01:04:00,407 --> 01:04:04,144

We're supposed to be years

ahead of them, but some...

1381

01:04:04,178 --> 01:04:06,480

What were you guys
doing at Los Alamos?

1382

01:04:06,514 --> 01:04:07,649

Wasn't security tight?

1383

01:04:07,682 --> 01:04:09,183

Of course it was.

You weren't there.

1384

01:04:09,216 --> 01:04:11,619

-It was...

-NICHOLS: Forgive me, Doctor...

1385

01:04:11,653 --> 01:04:14,088

but I was there.

1386

01:04:15,155 --> 01:04:16,490

SERBER:

We can now consider

1387

01:04:16,524 --> 01:04:18,459

the actual mechanics

of detonation.

1388

01:04:18,492 --> 01:04:19,627

ROBERT:

Any ideas?

1389

01:04:19,661 --> 01:04:21,395

SERBER:

I call this "shooting."

1390

01:04:21,428 --> 01:04:24,965

We fire a chunk of fissionable
material into a larger sphere

1391

01:04:24,998 --> 01:04:27,501

with enough force
to achieve criticality.

1392

01:04:27,535 --> 01:04:29,203

What do we think? Anyone?

1393

01:04:29,236 --> 01:04:31,038

TOLMAN: I've been

thinking about implosion.

1394

01:04:31,071 --> 01:04:33,040

Explosives around the sphere
blast inwards,

1395

01:04:33,073 --> 01:04:35,109

-crushing the material.
-(blasting)

1396

01:04:35,142 --> 01:04:37,077

I'd like to investigate
that idea.

1397

01:04:37,111 --> 01:04:39,413

I'll talk to Ordnance,
get you blowing things up.

1398

01:04:40,414 --> 01:04:41,516

GROVES:
Progress?

1399

01:04:41,549 --> 01:04:43,384

Nice to see you too.

1400

01:04:43,417 --> 01:04:45,185

Meet the British contingent.

1401

01:04:45,219 --> 01:04:47,054

Dr. Oppenheimer, Klaus Fuchs.

1402

01:04:47,087 --> 01:04:48,956

How long have you been British?

1403

01:04:48,989 --> 01:04:50,190

Since Hitler told me

I wasn't German.

1404

01:04:50,224 --> 01:04:54,027

Uh-huh.

Come, welcome to Los Alamos.

1405

01:04:54,061 --> 01:04:55,929

School's up and running.

1406

01:04:55,963 --> 01:04:58,265

Bar. Always running.

1407

01:04:58,298 --> 01:05:01,301

And I thought of a way
to reduce support staff.

1408

01:05:02,269 --> 01:05:04,271

-Is that...

-ROBERT: Mrs. Serber, yes.

1409

01:05:04,304 --> 01:05:05,707

I've offered jobs
to all the wives.

1410

01:05:05,740 --> 01:05:07,207

Admin, librarians, computation.

1411

01:05:07,241 --> 01:05:09,544

We cut down on staff,
keep families together.

1412

01:05:09,577 --> 01:05:12,146

-Are these women qualified?

-ROBERT: Don't be absurd.

1413

01:05:12,179 --> 01:05:14,549

These are some of the brightest
minds in our community.

1414

01:05:14,582 --> 01:05:16,150

And they're already
security cleared.

1415

01:05:16,183 --> 01:05:18,051

I've informed General Groves
you've been holding

1416

01:05:18,085 --> 01:05:19,554

cross-divisional
open discussions

1417

01:05:19,587 --> 01:05:21,288

-on a nightly basis.
-Shut them down.

1418

01:05:21,321 --> 01:05:23,658

Compartmentalization is the
key to maintaining security...

1419

01:05:23,691 --> 01:05:25,192

CONDON:

It's only the top men.

1420

01:05:25,225 --> 01:05:27,060

Who presumably communicate
with subordinates.

1421

01:05:27,094 --> 01:05:28,295

These men aren't stupid.

1422

01:05:28,328 --> 01:05:30,164

-They can be discreet.

-I don't like it.

1423

01:05:30,197 --> 01:05:33,100

You don't like anything enough
for that to be a fair test.

1424

01:05:38,640 --> 01:05:41,175

Once a week. Top men only.

1425

01:05:41,208 --> 01:05:42,577

I'd like to bring
my brother here.

1426

01:05:42,610 --> 01:05:44,077

No.

1427

01:05:44,712 --> 01:05:46,480

Uh, Nichols...

1428

01:05:47,615 --> 01:05:49,551

I still haven't heard
that my security clearance

1429

01:05:49,584 --> 01:05:51,151

-has been approved.
-It hasn't.

1430

01:05:51,185 --> 01:05:52,554

We're going to Chicago tomorrow.

1431

01:05:52,587 --> 01:05:53,621

No, you should wait.

1432

01:05:54,823 --> 01:05:55,924

You are aware that the Nazis
have a two-year head start.

1433

01:05:55,956 --> 01:05:59,026

Dr. Oppenheimer, the fact
that your security clearance

1434

01:05:59,059 --> 01:06:01,061

is proving difficult to obtain
is not my fault.

1435

01:06:01,094 --> 01:06:02,362

It's yours.

1436

01:06:02,396 --> 01:06:04,331

May not be your fault,
but it's your problem.

1437

01:06:04,364 --> 01:06:05,365

Because I'm going.

1438

01:06:05,399 --> 01:06:09,169

STRAUSS: And how many people
were in these, uh,

1439

01:06:09,203 --> 01:06:11,405

-open discussions?

-NICHOLS: Too many.

1440

01:06:11,438 --> 01:06:12,774

Compartmentalization was
supposed to be the protocol.

1441

01:06:12,807 --> 01:06:14,742

We were in a race
against the Nazis.

1442

01:06:14,776 --> 01:06:17,211

And now the race
is against the Soviets.

1443

01:06:17,244 --> 01:06:18,746

-Not unless we start it.

-STRAUSS: Robert.

1444

01:06:18,780 --> 01:06:22,182

They just fired a starting gun.

1445

01:06:22,216 --> 01:06:24,184

What's the nature
of the device they detonated?

1446

01:06:24,218 --> 01:06:25,753

ROBERT: The data indicates
it may have been

1447

01:06:25,787 --> 01:06:28,088

a plutonium implosion device.

1448

01:06:28,121 --> 01:06:31,225

Like the one you built
at Los Alamos.

1449

01:06:31,258 --> 01:06:33,093

The Russians have a bomb,

1450

01:06:33,126 --> 01:06:34,394

Truman needs to know

what's next.

1451

01:06:34,428 --> 01:06:36,230

What's next? Arms talks.

1452

01:06:36,263 --> 01:06:38,131

-Arms talks.

-Obviously.

1453

01:06:39,066 --> 01:06:40,267

What about the Super?

1454

01:06:40,300 --> 01:06:42,035

Does Truman even know about it?

1455

01:06:42,069 --> 01:06:44,071

Did we brief him on that?

1456

01:06:44,104 --> 01:06:45,172

Not specifically.

1457

01:06:45,205 --> 01:06:46,508

ROBERT:

We still don't know

1458

01:06:46,541 --> 01:06:48,308

if a hydrogen bomb's

technically feasible.

1459

01:06:48,342 --> 01:06:50,244

Right, my understanding

is that Teller proposed it?

1460

01:06:50,277 --> 01:06:52,112

-ROBERT: Yes.

-At Los Alamos?

1461

01:06:52,145 --> 01:06:53,781

Teller's designs have always

been wildly impractical.

1462

01:06:53,815 --> 01:06:56,149

You'd have to deliver
by ox cart.

1463

01:06:56,183 --> 01:06:57,451

-Not airplane.
-LAWRENCE: Oppie.

1464

01:06:57,484 --> 01:07:01,188

I'm sorry, Dr. Lawrence,
you want to comment?

1465

01:07:02,422 --> 01:07:03,525

No.

1466

01:07:05,392 --> 01:07:07,662

Because if it can
put us ahead again,

1467

01:07:07,695 --> 01:07:10,732

the President
of the United States

1468

01:07:10,765 --> 01:07:12,767

needs to know about it.

1469

01:07:12,800 --> 01:07:14,268

(scoffs)

1470

01:07:14,301 --> 01:07:16,103

And if the Russians

know about it already,

1471

01:07:16,136 --> 01:07:19,139

from a spy at Los Alamos,

1472

01:07:19,172 --> 01:07:20,474

then we've gotta get going.

1473

01:07:20,508 --> 01:07:23,477

There's no proof there was

a spy at Los Alamos.

1474

01:07:23,511 --> 01:07:24,579

Robert.

1475

01:07:25,580 --> 01:07:27,582

(dramatic music playing)

1476

01:07:29,416 --> 01:07:31,184

They put it under
the football stadium?

1477

01:07:31,218 --> 01:07:33,153

The field's not in use anymore.

1478

01:07:33,186 --> 01:07:35,422

Just as well.

1479

01:07:36,724 --> 01:07:39,159

-FERMI: Oppie.

-Dr. Fermi.

1480

01:07:39,192 --> 01:07:41,829

(greet in Italian)

1481

01:07:41,863 --> 01:07:43,196

I hear you got a little town.

1482

01:07:43,230 --> 01:07:44,464

Yes. Come and see.

1483

01:07:44,498 --> 01:07:46,166

(Szilard scoffs)

1484

01:07:46,199 --> 01:07:50,304

Who could think straight
in a place like that? Huh?

1485

01:07:50,337 --> 01:07:52,272

Everybody will go crazy.

1486

01:07:52,306 --> 01:07:56,176

Thank you for the vote
of confidence, Szilard.

1487

01:07:56,209 --> 01:07:59,847

Do we really... do we really
need that in the notes?

1488

01:07:59,881 --> 01:08:02,316

When are you going
to try it out?

1489

01:08:02,349 --> 01:08:03,383

We did.

1490

01:08:03,417 --> 01:08:07,789

The first self-sustaining
nuclear chain reaction.

1491

01:08:07,822 --> 01:08:09,456

Didn't Groves tell you?

1492

01:08:09,489 --> 01:08:11,124

No.

1493

01:08:11,158 --> 01:08:13,126

(crackling)

1494

01:08:13,160 --> 01:08:15,597

(Robert exhales)

1495

01:08:15,630 --> 01:08:18,733

GUARD: One at a time, please,
one at a time.

1496

01:08:18,766 --> 01:08:20,233

Dr. Oppenheimer?

1497

01:08:21,335 --> 01:08:23,805

I tried Personnel.

They asked if I could type.

1498

01:08:23,838 --> 01:08:25,138

Can you?

1499

01:08:25,172 --> 01:08:26,306

Harvard forgot to teach that

1500

01:08:26,340 --> 01:08:28,175

on the graduate
chemistry course.

1501

01:08:29,544 --> 01:08:32,446

Condon, put Mrs. Hornig here
on the plutonium team.

1502

01:08:33,815 --> 01:08:36,183

(door slams)

1503

01:08:38,218 --> 01:08:39,887

What the hell
were you doing in Chicago?

1504

01:08:39,921 --> 01:08:41,388

Visiting the Met?

1505

01:08:41,421 --> 01:08:42,422

-Why? Why?

-Well, you can't talk to...

1506

01:08:42,456 --> 01:08:44,491

Because we have every right...

1507

01:08:44,525 --> 01:08:46,861

You have just the rights

that I give you.

1508

01:08:46,894 --> 01:08:48,362

No more, no less.

1509

01:08:48,395 --> 01:08:50,832

We are adults

trying to run a project here.

1510

01:08:50,865 --> 01:08:52,567

This is ridiculous.

1511

01:08:52,600 --> 01:08:54,368

Tell him.

1512

01:08:54,401 --> 01:08:57,538

Compartmentalization

is the protocol we agreed to.

1513

01:08:58,673 --> 01:08:59,907

Enough of this madhouse.

1514

01:08:59,941 --> 01:09:02,309

Nobody can work

under these conditions.

1515

01:09:02,342 --> 01:09:06,781

You know what, Generalissimo?

I quit.

1516

01:09:06,814 --> 01:09:08,215

Thanks for nothing.

1517

01:09:10,317 --> 01:09:11,819

GROVES:

Better off without him.

1518

01:09:11,853 --> 01:09:13,220

(door slams shut)

1519

01:09:13,253 --> 01:09:14,287

Aren't you more concerned

1520

01:09:14,321 --> 01:09:16,691

about his discretion out there?

1521

01:09:16,724 --> 01:09:19,127

We'll have him killed.

1522

01:09:19,961 --> 01:09:22,530

I was just kidding. (chuckles)

1523

01:09:22,563 --> 01:09:25,499

-No, he hates me, not America.

-You know, General,

1524

01:09:25,533 --> 01:09:27,869

not everyone has levers

to pull like mine.

1525

01:09:27,902 --> 01:09:29,737

I don't think I understand.

1526

01:09:29,771 --> 01:09:31,939

You didn't hire me

despite my left-wing past.

1527

01:09:31,973 --> 01:09:33,708

You hired me because of it.

1528

01:09:34,709 --> 01:09:36,678

So you could control me.

1529

01:09:36,711 --> 01:09:39,312

Well, I'm not that subtle.

1530

01:09:39,346 --> 01:09:41,381

I'm just a humble soldier.

1531

01:09:41,415 --> 01:09:42,917

You're neither humble
nor just a soldier.

1532

01:09:42,950 --> 01:09:43,951

You studied engineering at MIT.

1533

01:09:43,985 --> 01:09:45,820

Guilty as charged.

1534

01:09:45,853 --> 01:09:47,354

Well, now we understand
each other,

1535

01:09:47,387 --> 01:09:48,823

perhaps you can get me
my security clearance

1536

01:09:48,856 --> 01:09:51,659

so I can perform
this miracle for you.

1537

01:09:56,564 --> 01:09:58,298

LLOYD GARRISON:

<i>General Groves, were you aware</i>

1538

01:09:58,331 --> 01:10:00,635

<i>of Dr. Oppenheimer's</i>

<i>left-wing associations</i>

1539

01:10:00,668 --> 01:10:02,335

<i>when you appointed him?</i>

1540

01:10:02,369 --> 01:10:04,005

GROVES: I was aware that there
were suspicions about him.

1541

01:10:04,038 --> 01:10:05,907

I was aware he had
a very extreme

1542

01:10:05,940 --> 01:10:07,307

liberal background.

1543

01:10:07,340 --> 01:10:08,943

In your opinion,
would he ever consciously

1544

01:10:08,976 --> 01:10:10,277

commit a disloyal act?

1545

01:10:10,310 --> 01:10:11,913

I would be amazed if he did.

1546

01:10:11,946 --> 01:10:15,016

GARRISON: So you had complete

confidence in his integrity.

1547

01:10:15,049 --> 01:10:16,450

At Los Alamos, yes,

1548

01:10:16,483 --> 01:10:17,819

which is where

I really knew him.

1549

01:10:17,852 --> 01:10:19,821

General,

did your security officers

1550

01:10:19,854 --> 01:10:21,321

on the project advise you

1551

01:10:21,354 --> 01:10:22,824

against the clearance

of Dr. Oppenheimer?

1552

01:10:22,857 --> 01:10:26,661

They could not and would not

clear him until I insisted.

1553

01:10:26,694 --> 01:10:29,329

And it's safe to say that you
had a pretty good knowledge

1554

01:10:29,362 --> 01:10:30,598

of Dr. Oppenheimer's
security file.

1555

01:10:30,631 --> 01:10:32,299

GROVES:

I did.

1556

01:10:32,332 --> 01:10:33,500

Well, then there's only
really one question

1557

01:10:33,534 --> 01:10:35,002

I need answered here today.

1558

01:10:35,036 --> 01:10:36,738

In light of
the current AEC guidelines,

1559

01:10:36,771 --> 01:10:39,473

would you clear

Dr. Oppenheimer today?

1560

01:10:39,507 --> 01:10:41,576

Do you have the guidelines?

1561

01:10:48,649 --> 01:10:51,318

ROBB:

Under current AEC guidelines,

1562

01:10:51,351 --> 01:10:53,386

would you clear

Dr. Oppenheimer today?

1563

01:10:53,420 --> 01:10:56,657

-(birds chirping)

-(rooster crowing)

1564

01:11:05,600 --> 01:11:09,402

Physics and New Mexico, huh?

(chuckles)

1565

01:11:09,436 --> 01:11:12,472

My God. What a trek.

1566

01:11:12,507 --> 01:11:13,975

That's why you need a liaison.

1567

01:11:14,008 --> 01:11:15,543

I'm appointing Lomanitz.

1568

01:11:16,711 --> 01:11:17,779

You're gonna be okay.

1569

01:11:17,812 --> 01:11:18,980

This way, gentlemen.

1570

01:11:19,013 --> 01:11:20,815

(stirring music playing)

1571

01:11:20,848 --> 01:11:23,350

(speaking indistinctly)

1572

01:11:28,956 --> 01:11:30,792

-Dr. Lawrence.

-Leslie.

1573

01:11:30,825 --> 01:11:33,393

I'd like to remind you what
we talked about in Berkeley.

1574

01:11:33,426 --> 01:11:35,763

Compartmentalization.

I understand completely.

1575

01:11:38,933 --> 01:11:39,934

LOMANITZ:

Okay.

1576

01:11:39,967 --> 01:11:41,068

(indistinct chatter)

1577

01:11:41,102 --> 01:11:42,537

Thank you.

1578

01:11:46,974 --> 01:11:49,442

(cheering and applauding)

1579

01:11:50,443 --> 01:11:51,679

LAWRENCE:

<i>Greetings from Berkeley.</i>

1580

01:11:51,712 --> 01:11:53,848

I am here to update you
on our progress

1581

01:11:53,881 --> 01:11:55,415

and solicit your input.

1582

01:11:55,448 --> 01:11:56,818

To do so,
I am going to have to share

1583

01:11:56,851 --> 01:12:00,521

a few things that
General Groves told me not to.

1584

01:12:00,555 --> 01:12:02,355

Sorry, General,
I said I understood,

1585
01:12:02,389 --> 01:12:03,456
not that I agreed.

1586
01:12:03,490 --> 01:12:05,026
-(laughter)
-'Kay.

1587
01:12:05,059 --> 01:12:07,094
Gentlemen, to business.

1588
01:12:07,128 --> 01:12:09,496
There were rumors of espionage
at Los Alamos.

1589
01:12:09,530 --> 01:12:10,998
ROBERT: Unsubstantiated.
Unsubstantiated.

1590
01:12:11,032 --> 01:12:12,499
STRAUSS:

I'm told

1591

01:12:12,533 --> 01:12:13,835

that there were Communists
on the project.

1592

01:12:13,868 --> 01:12:15,636

We didn't knowingly
employ any Communists.

1593

01:12:15,670 --> 01:12:17,437

I just want to know,
were any of them involved

1594

01:12:17,470 --> 01:12:18,940

in discussions of the Super?

1595

01:12:18,973 --> 01:12:21,142

I seem to remember you demanding
your brother come to Los Alamos.

1596

01:12:21,175 --> 01:12:23,443

My brother had left

the Party by then.

1597

01:12:23,476 --> 01:12:24,712

What about Lomanitz?

1598

01:12:24,745 --> 01:12:26,479

Lomanitz was never
employed at Los Alamos.

1599

01:12:26,514 --> 01:12:27,515

He was a liaison.

1600

01:12:27,548 --> 01:12:28,716

Our security was tight,

1601

01:12:28,749 --> 01:12:30,117

as former Colonel Nichols
well knows.

1602

01:12:30,151 --> 01:12:31,719

Our security was as tight
as it could be

1603

01:12:31,752 --> 01:12:33,120

given the personalities

involved,

1604

01:12:33,154 --> 01:12:34,989

but attempts were made.

1605

01:12:35,022 --> 01:12:36,023

What is that supposed to mean?

1606

01:12:36,057 --> 01:12:37,625

We've all read his file here.

1607

01:12:38,659 --> 01:12:40,661

Do we need to talk

about Jean Tatlock?

1608

01:12:41,195 --> 01:12:43,363

Or the Chevalier incident?

1609

01:12:47,969 --> 01:12:49,369

'Scuse me.

1610

01:12:51,205 --> 01:12:52,640

(telephone ringing)

1611

01:12:52,673 --> 01:12:54,642

CHARLOTTE:

That's Lomanitz, line one.

1612

01:13:00,514 --> 01:13:01,549

Hello, Rossi.

1613

01:13:01,582 --> 01:13:04,785

<i>What? O-Okay, just calm down.</i>

1614

01:13:05,753 --> 01:13:08,990

There's been another screw-up.

Lomanitz just got drafted.

1615

01:13:09,023 --> 01:13:11,491

-We are at war, Doctor.

-Don't be an asshole, Nichols.

1616

01:13:11,525 --> 01:13:13,527

We need this kid.

Fix it, will you?

1617

01:13:13,561 --> 01:13:14,762

It wasn't a mistake.

1618

01:13:14,795 --> 01:13:16,130

Your friend Lomanitz

has been trying

1619

01:13:16,163 --> 01:13:18,431

to unionize the Radiation Lab.

1620

01:13:18,465 --> 01:13:19,767

He promised to quit all that.

1621

01:13:19,800 --> 01:13:21,702

Well, he hasn't.

1622

01:13:21,736 --> 01:13:23,604

Security officer at Berkeley's

concerned about

1623

01:13:23,638 --> 01:13:25,940

Communist infiltration
through that union,

1624

01:13:25,973 --> 01:13:28,576

-the F.A...

-F.A.E.C.T.

1625

01:13:30,978 --> 01:13:34,682

While I'm there next week,
I'll drop in to see him.

1626

01:13:36,951 --> 01:13:38,686

Your Q clearance came through.

1627

01:13:42,223 --> 01:13:43,658

It's important
you not maintain or renew

1628

01:13:43,691 --> 01:13:45,960

any questionable associations.

1629

01:13:50,698 --> 01:13:53,200

ROBB: *Doctor, did you think*

social contacts

1630

01:13:53,234 --> 01:13:55,569

between a person engaged

on secret war work

1631

01:13:55,603 --> 01:13:56,971

and Communists was dangerous?

1632

01:13:57,004 --> 01:14:00,675

My awareness of the danger

would be greater today.

1633

01:14:00,708 --> 01:14:03,611

I mean, it's fair to say

that during the war years,

1634

01:14:03,644 --> 01:14:06,847

you felt that such contacts

were potentially dangerous.

1635

01:14:11,519 --> 01:14:13,254

(elevator dings)

1636

01:14:13,287 --> 01:14:16,257

ROBERT:

Were conceivably dangerous, yes.

1637

01:14:16,290 --> 01:14:18,559

ROBB:

I mean, really,

1638

01:14:18,592 --> 01:14:20,628

known Communists.

1639

01:14:22,763 --> 01:14:24,999

ROBERT:

Look... (sighs)

1640

01:14:25,032 --> 01:14:26,567

I've had a lot of secrets

1641

01:14:26,600 --> 01:14:29,570

<i>-in my head for a long time.</i>

-(knock on door)

1642

01:14:30,538 --> 01:14:31,806

<i>Doesn't matter</i>

<i>who I associate with.</i>

1643

01:14:31,839 --> 01:14:34,742

I don't talk about

those secrets.

1644

01:14:42,149 --> 01:14:43,784

ROBB:

You said in your statement

1645

01:14:43,818 --> 01:14:49,757

that you had to see

Jean Tatlock in 1943.

1646

01:14:51,225 --> 01:14:52,893

You left.

1647

01:14:54,128 --> 01:14:55,563

Not a word.

1648

01:14:55,596 --> 01:14:58,065

What did you think
that would do to me?

1649

01:14:59,166 --> 01:15:00,234

I wrote.

1650

01:15:00,267 --> 01:15:02,670

Pages of nothing.

1651

01:15:04,939 --> 01:15:07,274

Where did you go?

1652

01:15:07,308 --> 01:15:09,744

-I can't tell you.

-Why not?

1653

01:15:09,777 --> 01:15:12,513

Because you're a Communist.

1654

01:15:14,048 --> 01:15:15,916

Why did you have to see her?

1655

01:15:15,950 --> 01:15:19,053

Because she had indicated
a great desire

1656

01:15:19,086 --> 01:15:20,755

to see me before we left.

1657

01:15:20,788 --> 01:15:21,956

At that time, I couldn't,

1658

01:15:21,989 --> 01:15:25,793

but I felt that

she had to see me.

1659

01:15:25,826 --> 01:15:28,329

She was undergoing
psychiatric treatment.

1660

01:15:28,362 --> 01:15:30,598

She was extremely unhappy.

1661

01:15:30,631 --> 01:15:32,633

Did you find out

why she had to see you?

1662

01:15:32,666 --> 01:15:34,802

(grim music playing)

1663

01:15:37,738 --> 01:15:39,807

Because she was

still in love with me.

1664

01:15:41,675 --> 01:15:44,578

(heavy breathing)

1665

01:15:47,014 --> 01:15:49,083

Spent the night together,

didn't you?

1666

01:15:57,058 --> 01:15:58,092

ROBERT:

Yes.

1667

01:16:03,764 --> 01:16:07,635

You drop in and out of my life,

1668

01:16:07,668 --> 01:16:10,137

and you don't

have to tell me why.

1669

01:16:10,171 --> 01:16:11,639

Now that's power.

1670

01:16:11,672 --> 01:16:13,707

Not that I enjoy.

1671

01:16:14,675 --> 01:16:16,811

I'd rather be here

for you as you need.

1672

01:16:16,844 --> 01:16:19,313

But you have

other priorities now.

1673

01:16:19,346 --> 01:16:22,116

I have a wife and child.

1674

01:16:23,117 --> 01:16:25,920

That's not what either of us
is talking about.

1675

01:16:29,356 --> 01:16:31,225

Jean.

1676

01:16:31,258 --> 01:16:33,394

You asked me to come.

1677

01:16:33,427 --> 01:16:35,796

And I'm glad I did.

1678

01:16:36,430 --> 01:16:38,999

But I can't see you again.

1679

01:16:41,402 --> 01:16:43,104

But what if I need you?

1680

01:16:46,674 --> 01:16:49,643

You said you would
always answer.

1681

01:16:52,113 --> 01:16:53,247

Not a word?

1682

01:16:54,516 --> 01:16:55,584

ROBB: *Did you think that*

consistent with good security?

1683

01:16:55,616 --> 01:16:58,285

-As a matter of fact, it was.

-(rhythmic stomping)

1684

01:16:58,319 --> 01:17:00,688

Not a word.

1685

01:17:00,721 --> 01:17:02,890

ROBB: When did you
see her after that?

1686

01:17:03,724 --> 01:17:05,893

(stomping intensifying)

1687

01:17:09,363 --> 01:17:11,265

(stomping stops)

1688

01:17:11,298 --> 01:17:12,967

I never saw her again.

1689

01:17:19,173 --> 01:17:21,809

I can make the last train
back to Princeton.

1690

01:17:21,842 --> 01:17:25,012

Kitty, I didn't say anything
that I hadn't already told you.

1691

01:17:25,045 --> 01:17:27,181

Today you said it to history,
didn't you?

1692

01:17:27,214 --> 01:17:28,749

This is a closed hearing.

1693

01:17:30,451 --> 01:17:32,052

KITTY: If they don't release
the transcript,

1694

01:17:32,086 --> 01:17:34,088

-I'm sure you will.

-ROBERT: I was under oath.

1695

01:17:34,121 --> 01:17:35,890

KITTY: Well, you were
under an oath for me

1696

01:17:35,923 --> 01:17:37,725

when you went to see Jean.

1697

01:17:38,392 --> 01:17:39,827

You know, you...

1698

01:17:40,728 --> 01:17:43,030

...you sit there, day after day,

1699

01:17:43,063 --> 01:17:46,100

letting them pick our lives

to pieces.

1700

01:17:49,103 --> 01:17:50,804

Why won't you fight?

1701

01:17:53,941 --> 01:17:57,077

GARRISON: Robert, I'm not
putting her up there.

1702

01:18:02,216 --> 01:18:05,085

Dr. Oppenheimer, it's an honor.
Please, take a seat.

1703

01:18:05,119 --> 01:18:08,722

No need, um, I just wanted
to check whether I should

1704

01:18:08,756 --> 01:18:10,925

talk to Lomanitz while I'm here,
given your concerns.

1705

01:18:10,958 --> 01:18:13,060

Well, I'd say that's really

up to you, Professor,

1706

01:18:13,093 --> 01:18:15,262

-but I'd be cautious.

-Uh-huh. Understood.

1707

01:18:15,296 --> 01:18:18,032

Oh, and, um, (clears throat)

as regards to the union,

1708

01:18:18,065 --> 01:18:19,833

I wanted to give you

a heads-up on a...

1709

01:18:19,867 --> 01:18:21,202

on a man named Eltenton.

1710

01:18:21,235 --> 01:18:22,736

A heads-up?

1711

01:18:22,770 --> 01:18:26,707

Yes, just that he might

merit watching is all.

1712

01:18:27,509 --> 01:18:28,943

Well, I'd love
to get more details.

1713

01:18:28,976 --> 01:18:31,312

Well, I...
I have an appointment now

1714

01:18:31,345 --> 01:18:32,780

and I leave early tomorrow.

1715

01:18:32,813 --> 01:18:34,348

Well, come back
as early as you like.

1716

01:18:34,381 --> 01:18:36,717

Since you haven't time now.

1717

01:18:37,384 --> 01:18:39,220

You went back the next morning.

1718

01:18:39,253 --> 01:18:41,255

I did, I had to, really.

1719

01:18:42,189 --> 01:18:44,792

<i>This time, there was</i>

<i>another man.</i>

1720

01:18:45,459 --> 01:18:46,961

He said his name's Pash.

1721

01:18:46,994 --> 01:18:49,496

Pash. You met Colonel Pash?

1722

01:18:49,531 --> 01:18:51,065

ROBB: Colonel Pash,

could you please read

1723

01:18:51,098 --> 01:18:54,902

from your memo

dated June 29, 1943?

1724

01:18:57,004 --> 01:18:59,106

PASH: "Results of surveillance

conducted on subject

1725

01:18:59,139 --> 01:19:01,976

"indicate further possible
Communist Party connections.

1726

01:19:02,009 --> 01:19:04,178

"Subject met with
and spent considerable time

1727

01:19:04,211 --> 01:19:06,413

"with one Jean Tatlock,
Communist,

1728

01:19:06,447 --> 01:19:07,915

the record of whom is attached."

1729

01:19:07,948 --> 01:19:09,817

The subject being
Dr. Oppenheimer?

1730

01:19:09,850 --> 01:19:12,319

-PASH: Yes.

-ROBB: Whom you had not met?

1731

01:19:12,353 --> 01:19:14,154

PASH:

Not then, but soon after.

1732

01:19:14,188 --> 01:19:15,557

He's the head of security
for the project.

1733

01:19:15,590 --> 01:19:16,824

Shouldn't I know him?

1734

01:19:16,857 --> 01:19:18,192

No, he should know you.

1735

01:19:18,225 --> 01:19:20,127

I would never put you
in a room with Pash.

1736

01:19:20,160 --> 01:19:21,428

-Why not?

-(sighs)

1737

01:19:21,462 --> 01:19:23,531

When Pash first heard
about Lomanitz,

1738

01:19:23,565 --> 01:19:26,500

he told the FBI
he was gonna kidnap him,

1739

01:19:26,534 --> 01:19:28,002

take him out on a boat

1740

01:19:28,035 --> 01:19:31,038

and interrogate him
in the Russian manner.

1741

01:19:33,173 --> 01:19:36,010

General Groves has placed in me
a certain responsibility,

1742

01:19:36,043 --> 01:19:38,279

and it's like having a child
who I can't see.

1743

01:19:38,312 --> 01:19:40,414

-Ah.

-By remote control.

1744

01:19:40,447 --> 01:19:44,051

-(chuckles quietly)

-So to actually meet you is...

1745

01:19:45,152 --> 01:19:46,588

I won't take up

too much of your time.

1746

01:19:46,621 --> 01:19:48,889

No, no, not at all.

Whatever time you choose.

1747

01:19:48,922 --> 01:19:51,825

Mm. Mr. Johnson told me

of a conversation

1748

01:19:51,859 --> 01:19:53,595

you had yesterday

in which I'm very interested.

1749

01:19:53,628 --> 01:19:55,896

It's had me worried all day.

1750

01:19:55,929 --> 01:19:58,432

Yes, well, I didn't want
to talk to Lomanitz

1751

01:19:58,465 --> 01:20:00,000

without authorization.

1752

01:20:00,034 --> 01:20:01,235

That's not the particular
interest that I have.

1753

01:20:01,268 --> 01:20:03,237

It's something
a little bit more...

1754

01:20:04,271 --> 01:20:06,040

...well, in my opinion,
more serious.

1755

01:20:06,073 --> 01:20:09,009

Now, when the FBI pointed out
that such information

1756

01:20:09,043 --> 01:20:10,578

wouldn't be admissible in court,
Pash made it clear

1757

01:20:10,612 --> 01:20:14,381

he had no intention of leaving
any witness left to prosecute.

1758

01:20:14,415 --> 01:20:15,983

Now, the FBI talked him down,

1759

01:20:16,016 --> 01:20:17,585

but that's the man
you're dancing with.

1760

01:20:17,619 --> 01:20:20,321

I gather you've heard
there are other parties

1761

01:20:20,354 --> 01:20:23,057

interested in the work
of the Radiation Lab.

1762

01:20:23,090 --> 01:20:26,994

A man attached
to the Soviet Consul

1763

01:20:27,027 --> 01:20:30,064

indicated,
through intermediate people,

1764

01:20:30,097 --> 01:20:31,633

to people on this project,

1765

01:20:31,666 --> 01:20:35,102

that he was in a position
to transmit information.

1766

01:20:35,135 --> 01:20:37,971

Oh, why would anyone
on the project want to do that?

1767

01:20:39,406 --> 01:20:41,942

Frankly, I can see that
there might be an argument

1768

01:20:41,975 --> 01:20:44,378

for the Commander-in-Chief
informing the Russians--

1769

01:20:44,411 --> 01:20:46,280

they're our allies after all--

1770

01:20:46,313 --> 01:20:49,216

but I don't like the idea of it
going out the back door.

1771

01:20:49,249 --> 01:20:51,985

It might not hurt
to be on the lookout for it.

1772

01:20:53,387 --> 01:20:54,556

And you said that to Pash?

1773

01:20:54,589 --> 01:20:56,090

I was trying to put it

1774

01:20:56,123 --> 01:20:58,959

in a context

of Russia's not Germany.

1775

01:20:58,992 --> 01:21:03,397

Boris Pash is the son

of a Russian Orthodox bishop.

1776

01:21:03,430 --> 01:21:06,934

Born here, but in 1918,

he went back to Russia

1777

01:21:06,967 --> 01:21:08,402

to fight the Bolsheviks.

1778

01:21:08,435 --> 01:21:10,605

This is a man who has killed

Communists with his own hands.

1779

01:21:10,638 --> 01:21:14,108

I'm not the judge of who should
or should not have information.

1780

01:21:14,141 --> 01:21:16,176

It's my business to stop it
from going through illegally.

1781

01:21:16,210 --> 01:21:18,412

Would you be
a little more specific?

1782

01:21:19,681 --> 01:21:21,248

(smacks lips)

1783

01:21:21,281 --> 01:21:24,151

There's a man whose name
was mentioned to me

1784

01:21:24,184 --> 01:21:26,286

a couple of times. Eltenton.

1785

01:21:27,321 --> 01:21:30,424

Uh, I believe he's a chemist
who works at Shell.

1786

01:21:30,457 --> 01:21:32,993

He talked to a friend of his

1787

01:21:33,026 --> 01:21:36,930

who's an acquaintance
of someone on the project.

1788

01:21:38,165 --> 01:21:40,602

And you thought Pash
would be satisfied with that?

1789

01:21:40,635 --> 01:21:43,170

I was attempting
to give them Eltenton

1790

01:21:43,203 --> 01:21:44,539

without opening a can of worms.

1791

01:21:44,572 --> 01:21:46,541

I told them

a cock-and-bull story.

1792

01:21:46,574 --> 01:21:48,108

Did you lie

to General Groves too?

1793

01:21:48,142 --> 01:21:51,679

No. I admitted to him

that I'd lied to Pash.

1794

01:21:51,713 --> 01:21:53,147

GARRISON:

Do you recall this conversation

1795

01:21:53,180 --> 01:21:55,583

-about the Chevalier incident?

-(scoffs)

1796

01:21:55,617 --> 01:21:58,018

I've seen so many

versions of it. Um...

1797

01:21:58,051 --> 01:21:59,219

Wasn't confused before,

1798

01:21:59,253 --> 01:22:00,688

but I'm certainly
getting there now.

1799

01:22:00,722 --> 01:22:02,022

GARRISON:

And what was your conclusion?

1800

01:22:02,055 --> 01:22:04,425

That he was under
the influence of

1801

01:22:04,458 --> 01:22:07,327

the typical American
schoolboy attitude

1802

01:22:07,361 --> 01:22:10,964

that there's something wicked
about telling on a friend.

1803

01:22:10,998 --> 01:22:13,033

Well, now.

1804

01:22:13,066 --> 01:22:15,502

Might we know through whom
the contact was made?

1805

01:22:15,537 --> 01:22:17,739

That would in... involve people

1806

01:22:17,772 --> 01:22:19,741

who are not to be
involved in this.

1807

01:22:19,774 --> 01:22:22,544

Is that someone
a member of the project?

1808

01:22:22,577 --> 01:22:27,114

A member of the faculty, yes,
but not in the project, no.

1809

01:22:27,147 --> 01:22:28,248

Ah.

1810

01:22:28,282 --> 01:22:30,050

So Eltenton made his approach

1811

01:22:30,083 --> 01:22:33,320

through a member of
the faculty here at Berkeley?

1812

01:22:35,055 --> 01:22:37,525

As far as I know.

As far as I know, yes.

1813

01:22:37,559 --> 01:22:40,194

But there-there may have been

1814

01:22:40,227 --> 01:22:42,963

more than one person involved.

1815

01:22:46,366 --> 01:22:49,571

Gentlemen, if I...

if I seem uncooperative,

1816

01:22:49,604 --> 01:22:52,540

I think you can understand
that's because of my insistence

1817

01:22:52,574 --> 01:22:55,175

in not getting
innocent people into trouble.

1818

01:22:55,209 --> 01:22:57,010

GROVES: *You're trying*
to protect your friend.

1819

01:22:57,044 --> 01:22:58,278

Who's protecting you?

1820

01:22:58,312 --> 01:22:59,714

Well, you could.

1821

01:22:59,747 --> 01:23:01,081

If you gave me the name.

1822

01:23:01,114 --> 01:23:03,050

If you order me to, I'll do it.

1823

01:23:03,083 --> 01:23:04,117

That's a mistake, Robert.

1824

01:23:04,151 --> 01:23:05,986

You need to volunteer this name.

1825

01:23:06,821 --> 01:23:08,489

ROBB:

And did he give you the name?

1826

01:23:08,523 --> 01:23:09,657

GROVES:

He did.

1827

01:23:09,691 --> 01:23:11,158

-ROBB: But not then, did he?

-No.

1828

01:23:11,191 --> 01:23:12,660

No. In fact, it was some
months later, wasn't it?

1829

01:23:12,694 --> 01:23:14,596

It was.

1830

01:23:14,629 --> 01:23:15,730

You see me as persistent.

1831

01:23:15,763 --> 01:23:17,498

Well, you are...

1832

01:23:17,532 --> 01:23:19,366

you are persistent,

but that is your job.

1833

01:23:19,399 --> 01:23:23,103

And-and my job is to protect

the people that work for me.

1834

01:23:23,136 --> 01:23:25,138

PASH: Instead of us going

on certain steps,

1835

01:23:25,172 --> 01:23:27,274

which may come
to your attention...

1836

01:23:28,643 --> 01:23:30,410

...and be disturbing to you,

1837

01:23:30,444 --> 01:23:33,548

I would like to discuss
those with you first.

1838

01:23:33,581 --> 01:23:35,082

I'm not formulating a plan.

1839

01:23:35,115 --> 01:23:37,451

I'll just have to digest
the whole thing.

1840

01:23:41,088 --> 01:23:43,791

ROBB: <i>In the months</i>
<i>in between your interview</i>

1841

01:23:43,825 --> 01:23:47,461

with Dr. Oppenheimer and his

eventual naming of Chevalier,

1842

01:23:47,494 --> 01:23:48,796

did you expend resources

1843

01:23:48,830 --> 01:23:50,297

trying to find the name

of the intermediary?

1844

01:23:50,330 --> 01:23:52,800

Considerable resources, yes.

1845

01:23:52,834 --> 01:23:55,068

Without the name, our job

was extremely difficult.

1846

01:23:55,102 --> 01:23:56,538

And when did you

receive the name?

1847

01:23:56,571 --> 01:23:57,805

I was gone by the time

1848

01:23:57,839 --> 01:24:00,274

-Oppenheimer finally
offered it up. -Gone?

1849

01:24:00,307 --> 01:24:02,476

They felt my time would be
better spent in Europe

1850

01:24:02,510 --> 01:24:05,245

determining the status
of the Nazi bomb project.

1851

01:24:05,279 --> 01:24:06,446

Who did?

1852

01:24:07,549 --> 01:24:09,283

General Groves.

1853

01:24:09,316 --> 01:24:11,084

He transferred me to London.

1854

01:24:17,525 --> 01:24:19,627

SERBER: *<i>It's a little early</i>
*<i>for a Christmas party.</i>**

1855

01:24:19,661 --> 01:24:21,663

Something's up.

1856

01:24:21,696 --> 01:24:23,731

Tolman's been away.

1857

01:24:23,765 --> 01:24:25,465

Where?

1858

01:24:25,499 --> 01:24:27,067

Ruth won't tell.

1859

01:24:29,604 --> 01:24:31,573

(lively chatter and laughter)

1860

01:24:31,606 --> 01:24:32,607

Hey!

1861

01:24:32,640 --> 01:24:34,341

(playing upbeat music)

1862

01:24:36,778 --> 01:24:38,312

Come on, Ruthie.

1863

01:24:38,345 --> 01:24:40,414

Can't tell me, who can you tell?

1864

01:24:40,447 --> 01:24:43,183

RUTH:

Compartmentalization, Oppie.

1865

01:24:43,216 --> 01:24:44,586

What makes you think

I know where he is anyway?

1866

01:24:44,619 --> 01:24:46,320

ROBERT:

'Cause you do a pretty good job

1867

01:24:46,353 --> 01:24:49,122

of knowing where Mr. Tolman is

when it counts.

1868

01:24:49,156 --> 01:24:50,692

Like now?

1869

01:24:50,725 --> 01:24:54,161

GROVES:

Attention!

1870

01:24:54,194 --> 01:24:56,096

(chatter and music subside)

1871

01:24:57,364 --> 01:24:59,299

Early Christmas present

for you all.

1872

01:25:00,702 --> 01:25:03,503

(applause)

1873

01:25:03,538 --> 01:25:06,106

(crowd cheering)

1874

01:25:07,374 --> 01:25:09,744

BOHR: *<i>The British pilots</i>
*<i>put me in the bomb bay.</i>**

1875

01:25:09,777 --> 01:25:11,779

Showed me the-the oxygen,
you know,

1876

01:25:11,813 --> 01:25:13,548

-but I messed it up.

-(crowd laughs)

1877

01:25:13,581 --> 01:25:16,183

Uh, when they opened me up
in Scotland, I was unconscious.

1878

01:25:16,216 --> 01:25:18,418

But I pretended

I'd been napping.

1879

01:25:18,452 --> 01:25:19,353

(crowd laughing)

1880

01:25:19,386 --> 01:25:20,822

Please enjoy your party.

1881

01:25:20,855 --> 01:25:22,155

(light applause)

1882

01:25:22,189 --> 01:25:23,490

(whispering):

Is it big enough?

1883

01:25:23,524 --> 01:25:24,792

To end the war?

1884

01:25:24,826 --> 01:25:27,729

To end all war.

1885

01:25:29,262 --> 01:25:30,531

(intriguing music playing)

1886

01:25:30,565 --> 01:25:34,636

Uh, Heisenberg sought me out
in Copenhagen.

1887

01:25:34,669 --> 01:25:36,403

It was chilling,

1888

01:25:36,436 --> 01:25:38,472

my old student

working for the Nazis.

1889

01:25:38,506 --> 01:25:42,409

He told me some things

to draw me out.

1890

01:25:43,310 --> 01:25:46,648

Sustained fission reactions

in uranium.

1891

01:25:46,681 --> 01:25:48,883

That sounds more like

a reactor than a bomb.

1892

01:25:48,916 --> 01:25:50,350

Did he mention

gaseous diffusion?

1893

01:25:50,384 --> 01:25:52,654

He seemed more focused
on heavy water.

1894

01:25:52,687 --> 01:25:54,388

As a moderator?

1895

01:25:54,421 --> 01:25:55,790

Yes, instead of graphite.

1896

01:25:55,823 --> 01:25:58,158

-(Teller snorts)

-(laughter)

1897

01:25:58,826 --> 01:26:00,193

What?

1898

01:26:00,227 --> 01:26:02,396

He took a wrong turn.

1899

01:26:02,429 --> 01:26:04,899

We're ahead. And with you here
to help us, Niels.

1900

01:26:04,932 --> 01:26:07,200

Sorry, could you...

1901

01:26:07,234 --> 01:26:10,170

could you give us a moment,
gentlemen?

1902

01:26:16,343 --> 01:26:18,880

I am not here to help, Robert.

1903

01:26:18,913 --> 01:26:20,815

I knew you could
do this without me.

1904

01:26:20,848 --> 01:26:21,949

Then why did you come?

1905

01:26:21,983 --> 01:26:23,417

BOHR:

To talk about after.

1906

01:26:23,450 --> 01:26:25,419

The power you're about to reveal

1907

01:26:25,452 --> 01:26:27,655

will forever outlive the Nazis.

1908

01:26:28,723 --> 01:26:30,323

And the world is not prepared.

1909

01:26:30,357 --> 01:26:31,759

"You could lift the stone

1910

01:26:31,793 --> 01:26:34,428

without being ready

for the snake that's revealed."

1911

01:26:34,461 --> 01:26:35,830

We have to make

the politicians understand,

1912

01:26:35,863 --> 01:26:37,965

this isn't a new weapon.

1913

01:26:37,999 --> 01:26:39,466

It's a new world.

1914

01:26:39,499 --> 01:26:42,870

I'll be out there

doing what I can, but you...

1915

01:26:42,904 --> 01:26:45,472

you're an American Prometheus.

1916

01:26:45,506 --> 01:26:47,742

The man who gave them the power

1917

01:26:47,775 --> 01:26:49,811

to destroy themselves,

1918

01:26:49,844 --> 01:26:51,478

and they'll respect that.

1919

01:26:51,512 --> 01:26:53,681

And your work really begins.

1920

01:26:57,618 --> 01:27:00,755

I'm sorry, Oppie,
but there's a call.

1921

01:27:01,889 --> 01:27:04,625

From San Francisco.

1922

01:27:04,659 --> 01:27:06,728

(somber music playing)

1923

01:27:10,898 --> 01:27:12,600

Robert!

1924

01:27:15,837 --> 01:27:17,370

Robert?

1925

01:27:18,039 --> 01:27:20,608

Robert. Robert.

1926

01:27:20,641 --> 01:27:22,844

-God, what's the matter?

-(grunts softly)

1927

01:27:22,877 --> 01:27:24,645

-What happened?

-(sighs)

1928

01:27:25,513 --> 01:27:27,447

ROBERT:

Her father called.

1929

01:27:27,481 --> 01:27:29,617

They found her yesterday

in the bath.

1930

01:27:30,618 --> 01:27:31,753

Who?

1931

01:27:32,754 --> 01:27:34,756

She'd taken pills.

1932

01:27:34,789 --> 01:27:36,691

<i>Left a note, not signed.</i>

1933

01:27:37,692 --> 01:27:38,659

She took barbiturates,

1934

01:27:38,693 --> 01:27:40,628

but there was chloral hydrate
in her blood.

1935

01:27:40,661 --> 01:27:42,029

(muffled screaming)

1936

01:27:42,063 --> 01:27:43,965

(screaming stops)

1937

01:27:43,998 --> 01:27:45,332

There was a note.

1938

01:27:45,365 --> 01:27:47,668

(whispering):

Jean Tatlock?

1939

01:27:53,440 --> 01:27:55,442

We were together.

1940

01:27:55,475 --> 01:27:58,278

She said she needed me. I...

1941

01:28:00,380 --> 01:28:03,316

I told her I... I wouldn't...

(shudders)

1942

01:28:03,350 --> 01:28:04,986

I told her I couldn't...

1943

01:28:05,019 --> 01:28:06,687

No, it was... it was me.

1944

01:28:08,488 --> 01:28:09,657

(Kitty breathing heavily)

1945

01:28:09,690 --> 01:28:11,793

You don't get to commit the sin

1946

01:28:11,826 --> 01:28:13,628

and then have us all

feel sorry for you

1947

01:28:13,661 --> 01:28:16,531

that it had consequences.

(breath shuddering)

1948

01:28:18,599 --> 01:28:20,802

-You pull yourself together.

-(sniffing)

1949

01:28:24,471 --> 01:28:26,607

You know,

people here depend on you.

1950

01:28:29,110 --> 01:28:30,578

SERBER:

Donald, would you like

1951

01:28:30,611 --> 01:28:31,679

to contribute here?

Please, help me out.

1952

01:28:31,712 --> 01:28:32,914

HORNIG:

You're on your own, pal.

1953

01:28:32,947 --> 01:28:34,048

Bob, I'm not quitting my job

1954

01:28:34,081 --> 01:28:35,415

because plutonium

is radioactive.

1955

01:28:35,448 --> 01:28:36,984

We just don't know

what it might do

1956

01:28:37,018 --> 01:28:38,753

to the female

reproductive system...

1957

01:28:38,786 --> 01:28:40,688

Your reproductive system is more
exposed than mine, presumably.

1958

01:28:40,721 --> 01:28:43,591

Can we please? The implosion

device is nowhere.

1959

01:28:43,624 --> 01:28:45,026

Hey, you can't rush everything.

1960

01:28:45,059 --> 01:28:46,594

-Oppie, please.

-Well, there's rushing

1961

01:28:46,627 --> 01:28:48,428

and there's getting on

with it, so pick one.

1962

01:28:48,461 --> 01:28:50,463

Wait. Neddermeyer's

doing his job.

1963

01:28:50,497 --> 01:28:51,431

Teller's not helping.

1964

01:28:51,464 --> 01:28:53,000

You're not helping.

1965

01:28:53,034 --> 01:28:54,434

I've been asking
for calculations

1966

01:28:54,467 --> 01:28:55,603

on the implosion lenses
for weeks.

1967

01:28:55,636 --> 01:28:57,104

The British can do it. Fuchs.

1968

01:28:57,138 --> 01:28:58,438

Absolutely.

1969

01:28:58,471 --> 01:28:59,841

It's your job, Teller.

1970

01:28:59,874 --> 01:29:01,676

I'm engaged in research.

1971

01:29:01,709 --> 01:29:04,377

On a hydrogen bomb

we're not even building.

1972

01:29:04,411 --> 01:29:05,847

(others laughing)

1973

01:29:12,485 --> 01:29:13,855

I won't work for that man.

1974

01:29:13,888 --> 01:29:15,590

(others exclaim)

1975

01:29:15,623 --> 01:29:17,725

Let him go. He's a prima donna.

1976

01:29:17,758 --> 01:29:19,994

SERBER: I agree.

He should leave Los Alamos.

1977

01:29:20,027 --> 01:29:21,529

Okay.

1978

01:29:21,562 --> 01:29:23,430

Kisty, you replace Neddermeyer.

1979

01:29:23,463 --> 01:29:24,866

Seth, I'm putting you
on plutonium.

1980

01:29:24,899 --> 01:29:28,002

Lilli, you go work for Kisty.
Because he needs you.

1981

01:29:28,035 --> 01:29:30,605

Fuchs, you take Teller's role.

1982

01:29:30,638 --> 01:29:33,007

I'm putting you exclusively
on the implosion device.

1983

01:29:33,040 --> 01:29:36,811

And no one is leaving
Los Alamos.

1984

01:29:36,844 --> 01:29:39,580

(rousing music playing)

1985

01:29:51,058 --> 01:29:53,027

-They won't let me leave.

-ROBERT: No.

1986

01:29:53,060 --> 01:29:54,662

I won't let you leave.

1987

01:29:55,529 --> 01:29:58,633

Forget Hans. Forget fission.

1988

01:29:58,666 --> 01:30:01,802

Stay here,

research what you want.

1989

01:30:01,836 --> 01:30:04,437

Fusion, the hydrogen bomb,

whatever.

1990

01:30:04,471 --> 01:30:05,640

We'll meet to discuss.

1991

01:30:05,673 --> 01:30:07,141

You don't have time to meet.

1992

01:30:07,174 --> 01:30:08,743

You're a politician now, Robert.

1993

01:30:08,776 --> 01:30:11,411

You've left physics behind
many, many years ago.

1994

01:30:12,246 --> 01:30:14,048

Once a week.

1995

01:30:14,081 --> 01:30:15,950

One hour. You and me.

1996

01:30:21,122 --> 01:30:23,691

Now raise this fucking barrier.

1997

01:30:27,628 --> 01:30:30,064

ROBB: <i>So the Super</i>

<i>was under development</i>

1998

01:30:30,097 --> 01:30:32,066

<i>on your watch at Los Alamos?</i>

1999

01:30:32,099 --> 01:30:33,601

Yes.

2000

01:30:33,634 --> 01:30:35,502

ROBB:

And yet, after the war,

2001

01:30:35,536 --> 01:30:37,138

you tried to deny it was viable.

2002

01:30:37,171 --> 01:30:38,673

No, no, no. I...

2003

01:30:38,706 --> 01:30:40,541

I pointed out

technical difficulties with it.

2004

01:30:40,574 --> 01:30:42,209

You... Didn't you try

to kill it at the AEC meeting

2005

01:30:42,243 --> 01:30:43,811

-after the Russian bomb test?

-No.

2006

01:30:43,844 --> 01:30:45,947

ROBB: But that was

the recommendation of the AEC,

2007

01:30:45,980 --> 01:30:48,249

-was it not?

-After hours of discussion

2008

01:30:48,282 --> 01:30:50,551

<i>about the best response.</i>

2009

01:30:50,584 --> 01:30:55,690

An H-bomb is 1,000 times

the power of an A-bomb.

2010

01:30:56,857 --> 01:31:00,628

Its only intended target

would be the largest cities.

2011

01:31:00,661 --> 01:31:02,763

It's a weapon of mass genocide.

2012

01:31:02,797 --> 01:31:05,099

Izzy, draw some circles
on this side of the map

2013

01:31:05,132 --> 01:31:06,767

where they would target us.

2014

01:31:06,801 --> 01:31:08,836

-Starting with New York. D.C.

-RAB: That's fair.

2015

01:31:08,869 --> 01:31:11,639

It's a weapon of attack
with no defensive value.

2016

01:31:11,672 --> 01:31:13,207

-Deterrence.

-BUSH: "Deterrence"?

2017

01:31:13,240 --> 01:31:14,842

Do we really need
more deterrence

2018

01:31:14,875 --> 01:31:17,278

than our current arsenal
of atomic bombs?

2019

01:31:17,311 --> 01:31:20,014

Y-You drown in ten feet
of water or-or 10,000,

2020

01:31:20,047 --> 01:31:21,716

-what's the difference?
-(rhythmic stomping)

2021

01:31:21,749 --> 01:31:23,718

We can already drown Russia.
They know it.

2022

01:31:23,751 --> 01:31:26,020

-And now they can drown us.

-So we're just escalating...

2023

01:31:26,053 --> 01:31:27,855

(stomping intensifying)

2024

01:31:27,888 --> 01:31:30,091

(discussion continues

indistinctly)

2025

01:31:33,928 --> 01:31:35,529

(stomping stops)

2026

01:31:36,931 --> 01:31:39,767

As I said,

Teller's designs are still as

2027

01:31:39,800 --> 01:31:41,736

impractical as they were

during the war.

2028

01:31:41,769 --> 01:31:44,739

A hydrogen bomb can be made

to work, Oppie, you know that.

2029

01:31:44,772 --> 01:31:45,906

I don't believe we should commit

2030

01:31:45,940 --> 01:31:47,842

all our resources

to that chance.

2031

01:31:47,875 --> 01:31:50,745

Then how would you have Truman

reassure the American people?

2032

01:31:50,778 --> 01:31:52,980

Simply by limiting the spread

of atomic weapons

2033

01:31:53,014 --> 01:31:56,317

through international control

on nuclear energy.

2034

01:31:56,350 --> 01:31:57,918

By which you mean

world government?

2035

01:31:57,952 --> 01:32:00,888

The United Nations

as Roosevelt intended.

2036

01:32:00,921 --> 01:32:03,824

Well, I... I asked what Truman
should do, right?

2037

01:32:03,858 --> 01:32:06,761

The world's changed,
it's not fascism but Communism

2038

01:32:06,794 --> 01:32:08,262

that now threatens our survival.

2039

01:32:08,295 --> 01:32:11,932

Lewis, do you understand,
if we build a hydrogen bomb,

2040

01:32:11,966 --> 01:32:14,835

the Russians will have no choice
but to build their own?

2041

01:32:14,869 --> 01:32:16,637

Could they be working
on one already?

2042

01:32:16,670 --> 01:32:19,173

Based on information gathered
from a spy at Los Alamos.

2043

01:32:19,206 --> 01:32:20,674

No spy at Los Alamos.

2044

01:32:20,708 --> 01:32:21,776

-Gentlemen.

-There wasn't?

2045

01:32:21,809 --> 01:32:23,044

Let's not get sidetracked.

2046

01:32:23,077 --> 01:32:24,779

I say we use this moment

2047

01:32:24,812 --> 01:32:26,213

to gain concessions
from the Russians

2048

01:32:26,247 --> 01:32:29,316

by committing that we will not
build a hydrogen bomb.

2049

01:32:29,350 --> 01:32:30,985

Thereby revealing its existence.

2050

01:32:31,018 --> 01:32:33,020

Which you seem convinced
they already know.

2051

01:32:33,054 --> 01:32:34,655

(clears throat) All right.

2052

01:32:34,688 --> 01:32:36,791

At this point, I'd like
the committee members

2053

01:32:36,824 --> 01:32:40,761

to meet in privacy to finalize
our recommendations.

2054

01:32:41,896 --> 01:32:43,898

I'm just not sure you want
to go down this road.

2055

01:32:43,931 --> 01:32:46,200

Lewis, with respect,
we are the advisory committee,

2056

01:32:46,233 --> 01:32:48,002

we will give them our advice.

2057

01:32:48,035 --> 01:32:49,136

STRAUSS:

Good night.

2058

01:32:53,340 --> 01:32:57,611

Dr. Oppenheimer?

Hi. William Borden.

2059

01:32:57,645 --> 01:32:58,979

Joint Committee
on Atomic Energy?

2060

01:32:59,013 --> 01:33:00,214

Oh, yes, yes.

2061

01:33:00,247 --> 01:33:01,882

During the war, I was a pilot.

2062

01:33:03,017 --> 01:33:05,753

One night,

flying back from a raid,

2063

01:33:05,786 --> 01:33:08,689

I saw an amazing sight

like a meteor.

2064

01:33:08,722 --> 01:33:09,857

(engine rumbling)

2065

01:33:09,890 --> 01:33:12,660

<i>A V-2 rocket headed to England.</i>

2066

01:33:12,693 --> 01:33:14,695

I can't help but imagine

what it will be

2067

01:33:14,728 --> 01:33:18,632

for such an enemy rocket

to carry an atomic warhead.

2068

01:33:18,666 --> 01:33:20,734

(rhythmic stomping)

2069

01:33:21,368 --> 01:33:22,303

(rocket engine rumbling)

2070

01:33:22,336 --> 01:33:24,905

(stomping intensifying)

2071

01:33:24,939 --> 01:33:25,806

(stomping stops)

2072

01:33:27,408 --> 01:33:28,742

Well, let's make sure

we're not the ones

2073

01:33:28,776 --> 01:33:30,077

to make that possible.

2074

01:33:36,784 --> 01:33:39,687

Oppie, I don't think you want
to go up against Strauss.

2075

01:33:39,720 --> 01:33:41,789

If we both speak,
they listen to me.

2076

01:33:41,822 --> 01:33:43,891

When you speak,
they hear a prophet.

2077

01:33:43,924 --> 01:33:45,893

When Strauss speaks,
they hear themselves.

2078

01:33:45,926 --> 01:33:47,728

They'll listen to a prophet.

2079

01:33:47,761 --> 01:33:51,031

A prophet can't be wrong.

Not once.

2080

01:33:51,065 --> 01:33:52,833

SENATOR McGEE:

<i>Didn't you accuse Oppenheimer</i>

2081

01:33:52,867 --> 01:33:54,768

<i>of sabotaging the development</i>

<i>of the Super?</i>

2082

01:33:54,802 --> 01:33:56,403

I was never one of those

2083

01:33:56,437 --> 01:33:59,707

to bandy around terms

like "sabotage."

2084

01:33:59,740 --> 01:34:01,709

SENATOR McGEE:

<i>But Mr. Borden was?</i>

2085

01:34:01,742 --> 01:34:03,010

As I understand it, possibly.

2086

01:34:03,043 --> 01:34:05,146

How was Mr. Borden able
to put together

2087

01:34:05,179 --> 01:34:06,447

such a detailed indictment?

2088

01:34:06,480 --> 01:34:08,015

He was no longer

a government employee,

2089

01:34:08,048 --> 01:34:10,684

yet he appears to have
had unlimited access

2090

01:34:10,718 --> 01:34:12,219

to Dr. Oppenheimer's file.

2091

01:34:12,253 --> 01:34:15,156

<i>Might Mr. Nichols have</i>

<i>given him access to the file?</i>

2092

01:34:15,189 --> 01:34:17,091

Or someone else, at the AEC?

2093

01:34:17,124 --> 01:34:19,960

That's a very serious
accusation, Senator.

2094

01:34:19,994 --> 01:34:22,463

Is it your intention to
suggest that Dr. Oppenheimer

2095

01:34:22,496 --> 01:34:24,431

is disloyal
to the United States?

2096

01:34:24,465 --> 01:34:27,001

I've always assumed,
and still assume,

2097

01:34:27,034 --> 01:34:29,737

that he's loyal
to the United States.

2098

01:34:29,770 --> 01:34:31,205

I believe this.
And I shall believe it

2099

01:34:31,238 --> 01:34:34,041

until I see very conclusive
proof to the opposite.

2100

01:34:34,074 --> 01:34:35,843

ROBB:
<i>Do you or do you not believe</i>

2101

01:34:35,876 --> 01:34:38,245

<i>that Dr. Oppenheimer</i>
<i>is a security risk?</i>

2102

01:34:39,346 --> 01:34:41,815

(suspenseful music plays)

2103

01:34:46,453 --> 01:34:48,088

PHILIP MORRISON:

And if I may,

2104

01:34:48,122 --> 01:34:50,925

when Hitler blew

his brains out in that bunker,

2105

01:34:50,958 --> 01:34:52,493

it's my humble opinion

that there is no need

2106

01:34:52,527 --> 01:34:53,994

for that bomb

to be seen anywhere

2107

01:34:54,028 --> 01:34:55,796

-except for that test site.

-(applause)

2108

01:34:55,829 --> 01:34:57,831

HORNIG: But we at least

have to take a moment

2109

01:34:57,865 --> 01:34:59,867

to think about whether the means

2110

01:34:59,900 --> 01:35:02,169

justify the ends

any longer, because...

2111

01:35:04,505 --> 01:35:07,074

Germany is about to surrender.

2112

01:35:07,107 --> 01:35:08,943

(applause)

2113

01:35:08,976 --> 01:35:12,313

It's no longer the enemy

who are the greatest threat

2114

01:35:12,346 --> 01:35:14,148

to mankind, it's our work.

2115

01:35:14,181 --> 01:35:15,849

(people murmur)

2116

01:35:16,551 --> 01:35:19,286

Hitler's dead, it's true.

2117

01:35:20,988 --> 01:35:22,524

But the Japanese fight on.

2118

01:35:22,557 --> 01:35:24,225

Their defeat seems assured.

2119

01:35:24,258 --> 01:35:27,261

Not if you're a G.I.

preparing to invade.

2120

01:35:28,563 --> 01:35:29,863

We can end this war.

2121

01:35:29,897 --> 01:35:31,298

MORRISON:

But how do we justify

2122

01:35:31,332 --> 01:35:32,900

using this weapon
on human beings?

2123

01:35:32,933 --> 01:35:34,868

-(murmurs of assent)

-(scattered applause)

2124

01:35:35,936 --> 01:35:39,340

We're theorists, yes?

2125

01:35:39,373 --> 01:35:40,975

PEOPLE:

Yes. Yep.

2126

01:35:41,008 --> 01:35:45,045

We imagine a future
and our imaginings horrify us.

2127

01:35:46,113 --> 01:35:48,249

But they won't fear it
until they understand it,

2128

01:35:48,282 --> 01:35:51,185

and they won't understand it
until they've used it.

2129

01:35:51,218 --> 01:35:52,386

When the world learns

2130

01:35:52,419 --> 01:35:54,922

the terrible secret

of Los Alamos,

2131

01:35:54,955 --> 01:35:58,392

our work here will ensure

a peace mankind has never seen.

2132

01:35:58,425 --> 01:36:01,795

A peace based on the kind

of international cooperation

2133

01:36:01,829 --> 01:36:03,864

that Roosevelt always envisaged.

2134

01:36:03,897 --> 01:36:06,000

(scattered applause)

2135

01:36:08,969 --> 01:36:10,204

ROBERT:

<i>Progress?</i>

2136

01:36:10,237 --> 01:36:13,007

Two years and

a billion dollars' worth?

2137

01:36:13,040 --> 01:36:14,808

Well, hard to put a price on it.

2138

01:36:14,842 --> 01:36:16,410

Not really,

just add up the bills.

2139

01:36:16,443 --> 01:36:18,145

"Rural free deliveries."

2140

01:36:18,178 --> 01:36:20,948

Eighty babies delivered

the first year.

2141

01:36:20,981 --> 01:36:23,317

This year,
we've had ten a month.

2142

01:36:23,350 --> 01:36:26,086

Birth control is a little out
of my jurisdiction, General.

2143

01:36:26,954 --> 01:36:29,290

-GROVES: Clearly.

-KITTY: General.

2144

01:36:29,323 --> 01:36:31,225

(thrilling music playing)

2145

01:36:34,261 --> 01:36:35,597

Head down, everyone.

2146

01:36:35,630 --> 01:36:37,798

Fuchs, head down.

2147

01:36:40,301 --> 01:36:41,468

Hmm? (sniffs)

2148

01:36:41,502 --> 01:36:42,503

(spool winds)

2149

01:36:42,537 --> 01:36:44,305

(explosion)

2150

01:36:44,338 --> 01:36:46,073

That's the one. (grunts)

2151

01:36:46,106 --> 01:36:49,009

Two viable bombs. I need a date.

2152

01:36:51,312 --> 01:36:53,147

September.

2153

01:36:53,180 --> 01:36:54,181

July.

2154

01:36:54,214 --> 01:36:56,150

That's the sweet spot,

gentlemen.

2155

01:36:56,183 --> 01:36:58,352

August.

2156

01:36:58,385 --> 01:37:00,120

July.

2157

01:37:00,154 --> 01:37:01,955

Test in July.

2158

01:37:01,989 --> 01:37:03,625

But I need my brother.

2159

01:37:03,658 --> 01:37:06,160

(thrilling music continues)

2160

01:37:07,995 --> 01:37:09,930

Frank knows the desert,
he's left politics behind,

2161

01:37:09,963 --> 01:37:12,399

he's been working with
Lawrence for two years now.

2162

01:37:19,373 --> 01:37:21,208

What do we call the test?

2163

01:37:22,309 --> 01:37:26,080

"Batter my heart,
three-person'd god."

2164

01:37:26,113 --> 01:37:27,214

What?

2165

01:37:28,583 --> 01:37:29,983

Trinity.

2166

01:37:37,659 --> 01:37:39,026

ROBB:

You insisted

2167

01:37:39,059 --> 01:37:40,361

on bringing on
your brother Frank,

2168

01:37:40,394 --> 01:37:41,995

-a known Communist.

-A former Communist.

2169

01:37:42,029 --> 01:37:44,465

You brought a known

former Communist

2170

01:37:44,498 --> 01:37:48,369

onto America's most secret

and important defense project.

2171

01:37:48,402 --> 01:37:51,505

I knew my brother

could be trusted. Absolutely.

2172

01:37:51,539 --> 01:37:53,508

And you felt

your judgment was sound

2173

01:37:53,541 --> 01:37:55,376

on who on the team

could be trusted?

2174

01:37:56,377 --> 01:37:57,512

Fuchs, head down.

2175

01:37:57,545 --> 01:37:59,279

Okay, everybody ready?

2176

01:38:00,648 --> 01:38:02,584

Hmm? (sniffs)

2177

01:38:02,617 --> 01:38:04,385

-(spool winds)

-Oh.

2178

01:38:04,418 --> 01:38:06,019

(explosion)

2179

01:38:07,522 --> 01:38:08,656

Oh.

2180

01:38:08,690 --> 01:38:10,424

Well, I hope
you learned something.

2181

01:38:10,457 --> 01:38:12,359

Yeah, we learned we're gonna
need to be a lot further away.

2182

01:38:12,393 --> 01:38:13,961

Well, figure it out. Fast.

2183

01:38:13,994 --> 01:38:15,663

We leave for Washington
in the morning.

2184

01:38:15,697 --> 01:38:17,898

We're gonna give them a date.

2185

01:38:23,437 --> 01:38:25,139

(telephones ringing)

2186

01:38:32,045 --> 01:38:33,715

You're a long way
from Chicago, Leo.

2187

01:38:33,748 --> 01:38:35,249

If we don't act now,

2188

01:38:35,282 --> 01:38:36,984

they're going to use

this thing against Japan.

2189

01:38:37,017 --> 01:38:38,986

We booked a meeting with Truman,

2190

01:38:39,019 --> 01:38:40,287

but somebody killed it.

2191

01:38:40,320 --> 01:38:42,189

You're meeting

the Secretary of War.

2192

01:38:42,222 --> 01:38:44,391

Just because we're building it,

2193

01:38:44,425 --> 01:38:46,427

doesn't mean we get to decide
how it's used.

2194

01:38:46,460 --> 01:38:49,229

History will judge us, Robert.

2195

01:38:49,263 --> 01:38:52,567

In Chicago,
we put together a petition.

2196

01:38:52,600 --> 01:38:54,536

I'm not...

I'm not getting into that.

2197

01:38:54,569 --> 01:38:56,303

(clattering)

2198

01:38:56,336 --> 01:38:58,038

(sighs)

2199

01:38:59,607 --> 01:39:01,543

Just tell me your concerns,
and I'll relay them.

2200

01:39:01,576 --> 01:39:02,677

My concerns?

2201

01:39:02,710 --> 01:39:04,679

Germany's defeated.

2202

01:39:04,712 --> 01:39:06,480

Japan's not going
to hold out alone.

2203

01:39:06,514 --> 01:39:08,415

How could you know that?

You got us into this.

2204

01:39:08,449 --> 01:39:10,217

You and Einstein
with your letter to Roosevelt

2205

01:39:10,250 --> 01:39:13,053

-saying we could build a bomb.
-(scoffs) Against Germany.

2206

01:39:13,086 --> 01:39:16,023

That's not how weapons
manufacture works, Szilard.

2207

01:39:16,056 --> 01:39:17,191

SZILARD:

Oppie, you have to help.

2208

01:39:17,224 --> 01:39:18,526

ROBERT:

Fermi's in the meeting.

2209

01:39:18,560 --> 01:39:20,127

-Lawrence is in the meeting.

-They're not you.

2210

01:39:20,160 --> 01:39:22,329

You're the great salesman
of science.

2211

01:39:22,362 --> 01:39:24,965

You can convince
anyone of anything.

2212

01:39:25,667 --> 01:39:27,067

Even yourself.

2213

01:39:27,669 --> 01:39:29,069

'Scuse me.

2214

01:39:30,103 --> 01:39:33,373

The firestorm in Tokyo killed
100,000 people.

2215

01:39:33,407 --> 01:39:35,209

Mostly civilians.

2216

01:39:35,242 --> 01:39:37,779

I worry about an America
where we do these things

2217

01:39:37,812 --> 01:39:39,547

and no one protests.

2218

01:39:39,581 --> 01:39:42,617

Pearl Harbor and three years of
brutal conflict in the Pacific

2219

01:39:42,650 --> 01:39:45,185

bought us a lot of latitude
with the American public.

2220

01:39:45,219 --> 01:39:47,254

STIMSON: Enough to unleash
the atomic bomb?

2221

01:39:47,287 --> 01:39:49,156

FERMI:
Uh, the A-bomb might not cause

2222

01:39:49,189 --> 01:39:51,091

as much damage
as the Tokyo bombings.

2223

01:39:51,124 --> 01:39:52,493

What are we estimating?

2224

01:39:52,527 --> 01:39:55,362

In a medium-size city, uh,

2225

01:39:55,395 --> 01:39:56,798

20 or 30,000 dead.

2226

01:39:56,831 --> 01:39:58,633

ROBERT:

Yes, but, uh,

2227

01:39:58,666 --> 01:40:01,703

don't underestimate

the psychological impact of a...

2228

01:40:01,736 --> 01:40:03,136

of an atomic explosion.

2229

01:40:03,170 --> 01:40:07,407

A pillar of fire

10,000 feet tall.

2230

01:40:07,441 --> 01:40:10,778

Deadly neutron effects

for a mile, in all directions,

2231

01:40:10,812 --> 01:40:13,715

from one single device.

2232

01:40:13,748 --> 01:40:16,083

Dropped from

a barely noticed B-29,

2233

01:40:16,116 --> 01:40:18,385

the atomic bomb will be

2234

01:40:18,418 --> 01:40:21,255

a terrible revelation

of divine power.

2235

01:40:21,288 --> 01:40:24,559

If that's true,

it would be definitive.

2236

01:40:24,592 --> 01:40:26,661

World War II would be over.

2237

01:40:26,694 --> 01:40:28,395

Our boys would come home.

2238

01:40:28,428 --> 01:40:29,564

Military targets?

2239

01:40:30,698 --> 01:40:33,367

Uh, there aren't any big enough.

2240

01:40:33,400 --> 01:40:39,172

Perhaps a vital war plant
with workers housed nearby.

2241

01:40:39,206 --> 01:40:41,543

And we could issue a warning
to reduce civilian casualties.

2242

01:40:41,576 --> 01:40:43,745

They'd send everything
they have up against us,

2243

01:40:43,778 --> 01:40:45,379

and I'd be up in that plane.

2244

01:40:45,412 --> 01:40:48,616

But if we announce it
and it fails to go off,

2245

01:40:48,650 --> 01:40:51,351

we'd scupper any chance
of a Japanese surrender.

2246

01:40:51,385 --> 01:40:54,488

Is there no way to demonstrate
a bomb to Japan

2247

01:40:54,522 --> 01:40:56,223

to provoke surrender?

2248

01:40:56,256 --> 01:40:59,326

We intend to demonstrate it
in the most unambiguous terms.

2249

01:40:59,359 --> 01:41:00,060

Twice.

2250

01:41:00,093 --> 01:41:02,162

Once to show the weapon's power

2251

01:41:02,195 --> 01:41:04,699

and a second to show

that we can keep doing this

2252

01:41:04,732 --> 01:41:06,233

until they surrender.

2253

01:41:06,266 --> 01:41:09,637

We have a list of 12 cities

to choose from...

2254

01:41:09,671 --> 01:41:11,573

Sorry, 11.

2255

01:41:11,606 --> 01:41:13,307

I've taken Kyoto off the list

2256

01:41:13,340 --> 01:41:17,144

due to its cultural significance

to the Japanese people.

2257

01:41:17,177 --> 01:41:19,814

Also, my wife and I
honeymooned there.

2258

01:41:19,847 --> 01:41:21,348

It's a magnificent city.

2259

01:41:24,919 --> 01:41:26,621

Let me make this
simple for you, gentlemen.

2260

01:41:26,654 --> 01:41:29,156

According to my intelligence,
which I cannot share with you,

2261

01:41:29,189 --> 01:41:31,626

the Japanese people
will not surrender

2262

01:41:31,659 --> 01:41:33,427

under any circumstances

2263

01:41:33,460 --> 01:41:36,864

short of a successful and total
invasion of the home islands.

2264

01:41:36,898 --> 01:41:39,867

Many lives will be lost,
American and Japanese.

2265

01:41:39,901 --> 01:41:42,135

The use of the atomic bomb
on Japanese cities

2266

01:41:42,169 --> 01:41:44,137

will save lives.

2267

01:41:44,171 --> 01:41:46,473

If we retain moral advantage.

2268

01:41:46,507 --> 01:41:48,643

-How so?

-Well, if we use this weapon

2269

01:41:48,676 --> 01:41:51,613

without informing our allies,
they'll see it as a threat.

2270

01:41:51,646 --> 01:41:52,814

And we'll be in an arms race.

2271

01:41:52,847 --> 01:41:54,916

How open can we be
with the Soviets?

2272

01:41:54,949 --> 01:41:56,517

BUSH:

Secrecy won't stop the Soviets

2273

01:41:56,551 --> 01:41:58,920

from becoming part
of the atomic world.

2274

01:41:58,953 --> 01:42:01,254

We've been told
they have no uranium.

2275

01:42:01,288 --> 01:42:02,489

You've been misinformed.

2276

01:42:02,523 --> 01:42:04,358

A Russian bomb
is a matter of time.

2277

01:42:04,391 --> 01:42:07,795

The program needs to continue
at full pace after the war.

2278

01:42:07,829 --> 01:42:10,430

Uh, Secretary Stimson,
if I may...

2279

01:42:10,464 --> 01:42:14,468

Not all scientists
on the project are in agreement.

2280

01:42:14,501 --> 01:42:17,371

In fact, this might be a moment
to consider other opinions.

2281

01:42:17,404 --> 01:42:19,306

-If you talk a scientist in...

-GROVES: The Manhattan Project

2282

01:42:19,339 --> 01:42:20,708

has been plagued from the start

2283

01:42:20,742 --> 01:42:24,545

by certain scientists

of doubtful discretion

2284

01:42:24,579 --> 01:42:25,647

and uncertain loyalty.

2285

01:42:25,680 --> 01:42:27,915

One of them just tried to meet

with the president.

2286

01:42:27,949 --> 01:42:29,784

Now, we need these men,

2287

01:42:29,817 --> 01:42:31,351

but as soon as it's practical,

2288

01:42:31,385 --> 01:42:33,655

we should sever any such
scientists from the program.

2289

01:42:33,688 --> 01:42:35,255

Wouldn't you agree, Doctor?

2290

01:42:36,390 --> 01:42:38,225

MARSHALL: If a Russian bomb
is inevitable,

2291

01:42:38,258 --> 01:42:41,529

perhaps we should invite
their top scientists to Trinity.

2292

01:42:41,562 --> 01:42:43,865

President Truman
has no intention

2293

01:42:43,898 --> 01:42:45,465

of raising expectations

2294

01:42:45,499 --> 01:42:48,301

that Stalin be included
in the atomic project.

2295

01:42:48,335 --> 01:42:49,704

Informing him
of our breakthrough

2296

01:42:49,737 --> 01:42:51,338

and presenting it as a means
to win the war

2297

01:42:51,371 --> 01:42:54,274

need not make
unkeepable promises.

2298

01:42:54,307 --> 01:42:55,843

But the Potsdam
peace conference in July

2299

01:42:55,877 --> 01:42:57,779

will be President Truman's

last chance

2300

01:42:57,812 --> 01:42:59,947

to have that conversation.

2301

01:42:59,981 --> 01:43:01,883

Can you give us

a working bomb by then?

2302

01:43:02,850 --> 01:43:06,587

Absolutely. We will test fire

before the conference.

2303

01:43:07,454 --> 01:43:10,290

(suspenseful music playing)

2304

01:43:11,324 --> 01:43:13,861

FRANK:

<i>Ground zero observation posts</i>

2305

01:43:13,895 --> 01:43:15,362

<i>at 10,000 yards</i>

2306

01:43:15,395 --> 01:43:17,565

north, south and west.

2307

01:43:17,598 --> 01:43:20,902

-Where do we trigger from?

-Uh, south 10,000.

2308

01:43:20,935 --> 01:43:24,271

And base camp

is ten miles south, here.

2309

01:43:24,304 --> 01:43:27,240

And there's a further

observation post

2310

01:43:27,274 --> 01:43:29,443

on-on that hill 20 miles away.

2311

01:43:29,476 --> 01:43:32,446

What's that, Frank?

Trigger lines already went in.

2312

01:43:32,479 --> 01:43:35,983

The Air Force requested
a line of lights for their B-29.

2313

01:43:36,017 --> 01:43:38,452

What B-29?
Our bomb's on the tower.

2314

01:43:38,485 --> 01:43:39,854

FRANK:
They want to use the test

2315

01:43:39,887 --> 01:43:41,723

to confirm a safe
operating distance.

2316

01:43:41,756 --> 01:43:42,990

That's risky.

2317

01:43:43,024 --> 01:43:44,659

Not as risky as dropping one
over Japan

2318

01:43:44,692 --> 01:43:46,460

and hoping that we were right
about the blast radius.

2319

01:43:46,493 --> 01:43:48,596

Don't let them slow us down,
we're firing on the 15th.

2320

01:43:48,629 --> 01:43:51,866

-The 15th? That's not...

-GROVES: The 15th.

2321

01:43:51,899 --> 01:43:54,234

The 15th.

2322

01:43:55,335 --> 01:43:57,270

ROBERT: So I'll be here
at South Observation point

2323

01:43:57,304 --> 01:43:59,507

<i>with Frank and Kistiakowsky.</i>

2324

01:43:59,540 --> 01:44:02,043

You'll all be assigned
to Base Camp,

2325

01:44:02,076 --> 01:44:05,278

West Observation
or Far Observation.

2326

01:44:05,312 --> 01:44:08,381

(suspenseful music continues)

2327

01:44:14,922 --> 01:44:16,824

Whoa, whoa.

Careful with the knife.

2328

01:44:16,858 --> 01:44:19,292

There, carefully.

2329

01:44:20,393 --> 01:44:21,929

Are those safe distances?

2330

01:44:21,963 --> 01:44:24,464

They're based
on your calculations.

2331

01:44:24,498 --> 01:44:27,400

Time to stand behind
your science, Hans. Literally.

2332

01:44:29,469 --> 01:44:31,606

(suspenseful music continues)

2333

01:44:50,825 --> 01:44:52,292

KISTIAKOWSKY:

Yeah.

2334

01:44:56,964 --> 01:44:58,800

What 'bout the radiation cloud?

2335

01:44:58,833 --> 01:45:00,067

Without high winds,

2336

01:45:00,101 --> 01:45:01,669

it should settle
within two to three miles.

2337

01:45:01,702 --> 01:45:04,105

Evacuation measures

are in place.

2338

01:45:04,138 --> 01:45:05,940

But we need good weather

for visibility,

2339

01:45:05,973 --> 01:45:07,440

so it has to be fine.

2340

01:45:08,543 --> 01:45:09,811

KISTIAKOWSKY:

Everybody out.

2341

01:45:11,078 --> 01:45:13,380

(suspenseful music continues)

2342

01:45:19,987 --> 01:45:21,122

We go on the night of the 15th.

2343

01:45:21,155 --> 01:45:23,090

It's a hard deadline,

2344

01:45:23,124 --> 01:45:26,426

so if anyone has anything,
speak now.

2345

01:45:27,128 --> 01:45:28,461

Okay, stop, stop.

2346

01:45:28,495 --> 01:45:30,363

Everybody, mattresses.

2347

01:45:30,397 --> 01:45:32,465

Put the mattress underneath.

2348

01:45:49,449 --> 01:45:52,352

Could use
a final implosion test.

2349

01:45:53,054 --> 01:45:55,022

It couldn't hurt.

2350

01:45:55,056 --> 01:45:56,557

Do it.

2351

01:45:57,525 --> 01:45:59,827

Is there anything else
that might stop us?

2352

01:45:59,861 --> 01:46:01,529

(thunder rumbling)

2353

01:46:18,045 --> 01:46:20,681

(suspenseful music continues)

2354

01:46:33,928 --> 01:46:36,831

It's happening, isn't it?

2355

01:46:37,932 --> 01:46:39,700

I'll send a message.

2356

01:46:40,568 --> 01:46:43,204

If it's gone our way,

2357

01:46:43,237 --> 01:46:44,805

take in the sheets.

2358

01:46:48,843 --> 01:46:49,877

Robert?

2359

01:46:52,546 --> 01:46:53,981

Break a leg.

2360

01:46:59,954 --> 01:47:02,123

(suspenseful music continues)

2361

01:47:02,156 --> 01:47:04,592

(explosion)

2362

01:47:07,762 --> 01:47:09,063

(mutters)

2363

01:47:09,096 --> 01:47:10,998

(wind gusting)

2364

01:47:36,223 --> 01:47:38,491

(wind whistling)

2365

01:47:43,764 --> 01:47:44,899

(sighs)

2366

01:47:52,606 --> 01:47:54,775

(thunder rumbling)

2367

01:48:00,548 --> 01:48:03,684

Oppie's taken a very modest
three kilotons.

2368

01:48:03,718 --> 01:48:06,087

-Teller's in with 45.

-RABI: 20.

2369

01:48:06,120 --> 01:48:08,556

Twenty thousand tons of TNT,

2370

01:48:08,589 --> 01:48:09,991

and does anyone want
the side action

2371

01:48:10,024 --> 01:48:12,760

-on atmospheric ignition?

-(all laughing)

2372

01:48:13,728 --> 01:48:16,664

Are you saying

we'll have to delay?

2373

01:48:16,697 --> 01:48:17,865

I'm saying it would be prudent.

2374

01:48:17,898 --> 01:48:19,133

This weather,

has it reached the site?

2375

01:48:19,166 --> 01:48:21,002

(tense music playing)

2376

01:48:21,035 --> 01:48:23,270

(thunder rumbling)

2377

01:48:23,304 --> 01:48:24,939

(telephone ringing)

2378

01:48:24,972 --> 01:48:26,941

Bethe is calling to tell you
the implosion test failed.

2379

01:48:26,974 --> 01:48:28,609

ROBERT:

Hello, Hans.

2380

01:48:28,642 --> 01:48:30,044

Yes, he's here.

2381

01:48:30,878 --> 01:48:32,213

Yes.

2382

01:48:32,246 --> 01:48:34,749

(thunder rumbling)

2383

01:48:34,782 --> 01:48:35,983

-Is he wrong?

-No.

2384

01:48:36,017 --> 01:48:37,918

-No?

-No.

2385

01:48:38,753 --> 01:48:40,321

So we're about to fire a dud?

2386

01:48:40,354 --> 01:48:41,822

-No.

-Explain.

2387

01:48:41,856 --> 01:48:44,625

Well, I can't. I just...

I-I just know.

2388

01:48:44,658 --> 01:48:46,327

I know the implosion lenses

will work.

2389

01:48:46,360 --> 01:48:47,762

If we fire these detonators

2390

01:48:47,795 --> 01:48:49,030

and they don't
trigger a reaction,

2391

01:48:49,063 --> 01:48:50,731

two years' worth of plutonium

2392

01:48:50,765 --> 01:48:52,166

will be scattered
across White Sands.

2393

01:48:52,199 --> 01:48:56,103

A month of my salary against
ten bucks says it lights.

2394

01:48:56,137 --> 01:48:58,139

-Jesus.

-(thunder rumbling)

2395

01:48:58,172 --> 01:49:00,674

(tense music continues)

2396

01:49:03,210 --> 01:49:06,347

WEATHERMAN: The wind's picking

up at zero, not the rain.

2397

01:49:06,380 --> 01:49:07,815

Lightning's circling.

2398

01:49:07,848 --> 01:49:09,283

You think it might be time
to tell your men

2399

01:49:09,316 --> 01:49:12,219

to get away from the steel tower
with the atomic bomb?

2400

01:49:12,253 --> 01:49:14,722

(laughter)

2401

01:49:15,356 --> 01:49:17,324

Let's get to South Observation.

2402

01:49:17,358 --> 01:49:18,826

Pull 'em out.

2403

01:49:18,859 --> 01:49:20,261

ROBERT: We can make
our determination there.

2404

01:49:20,294 --> 01:49:22,763

(tense music continues)

2405

01:49:25,666 --> 01:49:27,668

The team hasn't slept
in two nights.

2406

01:49:27,701 --> 01:49:29,703

If we stand down,
make the bomb safe,

2407

01:49:29,737 --> 01:49:31,072

we won't be back here for weeks.

2408

01:49:31,105 --> 01:49:32,773

Then we'll miss Potsdam.

2409

01:49:32,807 --> 01:49:34,708

I gotta get word

to Truman by 7:00.

2410

01:49:34,742 --> 01:49:35,976

Our window's closing.

2411

01:49:36,010 --> 01:49:37,078

What is this doing?

2412

01:49:37,111 --> 01:49:38,612

Raining, blowing, lightning.

2413

01:49:38,646 --> 01:49:40,681

-For how long, damn it?

-It's holdin' strong.

2414

01:49:40,714 --> 01:49:42,016

It'll break before dawn.

2415

01:49:42,049 --> 01:49:43,717

-How could you know that?

-I know this desert.

2416

01:49:43,751 --> 01:49:44,852

Storm cools overnight.

2417

01:49:44,885 --> 01:49:46,687

Just before dawn,
the storm breaks.

2418

01:49:46,720 --> 01:49:48,923

He could be right, but schedule
as late as possible.

2419

01:49:48,956 --> 01:49:50,691

5:30!

2420

01:49:50,724 --> 01:49:51,759

Sign your forecast.

2421

01:49:51,792 --> 01:49:52,860

If you're wrong, I'll hang you.

2422

01:49:52,893 --> 01:49:54,695

Frank, tell them all, 5:30.

2423

01:49:54,728 --> 01:49:56,864

-5:30, 5:30.

-MAN: 5:30.

2424

01:49:59,066 --> 01:50:04,004

Three years,

4,000 people, \$2 billion.

2425

01:50:04,038 --> 01:50:06,407

Well, if it doesn't go off...

(sighs)

2426

01:50:06,440 --> 01:50:08,042

we're both finished.

2427

01:50:09,110 --> 01:50:10,778

(thunder rumbling)

2428

01:50:10,811 --> 01:50:12,780

I'm betting on three kilotons.

2429

01:50:13,747 --> 01:50:15,182

Anything less,
they won't get what it is.

2430

01:50:15,216 --> 01:50:19,787

What did Fermi mean
by "atmospheric ignition"?

2431

01:50:19,820 --> 01:50:21,288

Well, we had a moment
where it looked like

2432

01:50:21,322 --> 01:50:25,159

the chain reaction from an
atomic device might never stop.

2433

01:50:26,393 --> 01:50:28,429

Setting fire to the atmosphere.

2434

01:50:28,462 --> 01:50:30,431

Why is Fermi
still taking side bets on it?

2435

01:50:30,464 --> 01:50:33,634

Call it gallows humor.

2436

01:50:35,970 --> 01:50:38,772

Wait, are we saying

there's a chance

2437

01:50:38,806 --> 01:50:40,674

that when we push that button,

2438

01:50:40,708 --> 01:50:42,042

we destroy the world?

2439

01:50:42,076 --> 01:50:44,245

Nothing in our research

over three years

2440

01:50:44,278 --> 01:50:45,913

supports that conclusion.

2441

01:50:45,946 --> 01:50:48,916

Except as the most

remote possibility.

2442

01:50:48,949 --> 01:50:50,284

How remote?

2443

01:50:50,317 --> 01:50:51,919

Chances are near zero.

2444

01:50:53,254 --> 01:50:54,655

Near zero?

2445

01:50:55,422 --> 01:50:57,992

What do you want

from theory alone?

2446

01:50:58,025 --> 01:50:59,460

(scoffs)

2447

01:50:59,493 --> 01:51:01,862

Zero would be nice.

2448

01:51:05,166 --> 01:51:06,800

In exactly

2449

01:51:06,834 --> 01:51:10,137

one hour, 58 minutes,

2450

01:51:10,171 --> 01:51:11,705

we'll know.

2451

01:51:17,745 --> 01:51:18,946

It's letting up.

2452

01:51:20,214 --> 01:51:22,683

(tense music continues)

2453

01:51:31,825 --> 01:51:34,195

The arming party's left Zero,
they're heading this way.

2454

01:51:34,228 --> 01:51:35,196

Throwing the switches.

2455

01:51:35,229 --> 01:51:36,330

Turn the cars.

2456

01:51:36,363 --> 01:51:38,832

Ready for emergency evacuation.

2457

01:51:42,803 --> 01:51:45,105

(tense music continues)

2458

01:51:56,518 --> 01:51:57,751

ARMY CAPTAIN:

...welder's glass.

2459

01:51:57,785 --> 01:51:59,353

Everybody take your places.

2460

01:51:59,386 --> 01:52:01,889

Everybody take a welder's glass.

2461

01:52:03,390 --> 01:52:05,259

Everybody take a welder's glass.

2462

01:52:24,845 --> 01:52:28,015

(tense music continues)

2463

01:52:54,908 --> 01:52:56,443

(timer ticking)

2464

01:52:56,477 --> 01:52:57,878

Twenty minutes.

2465

01:53:01,382 --> 01:53:03,217

Twenty minutes.

2466

01:53:14,395 --> 01:53:15,929

That's 20.

2467

01:53:18,932 --> 01:53:20,401

On the leg, please.

2468

01:53:21,935 --> 01:53:24,438

-Feynman.

-No.

2469

01:53:24,471 --> 01:53:26,440

The glass. Stops the U.V.

2470

01:53:26,473 --> 01:53:28,275

And what stops the glass?

2471

01:53:29,276 --> 01:53:32,246

I'm gonna head to base camp.

Best of luck.

2472

01:53:33,380 --> 01:53:34,915

Robert.

2473

01:53:35,517 --> 01:53:37,351

Try not to blow up the world.

2474

01:53:40,921 --> 01:53:43,123

(tense music building)

2475

01:53:49,229 --> 01:53:50,331

Watch that needle.

2476

01:53:50,364 --> 01:53:51,932

If the detonators don't charge

2477

01:53:51,965 --> 01:53:53,901

or the voltage drops

below one volt,

2478

01:53:53,934 --> 01:53:55,936

you hit that button, you abort.

2479

01:53:55,969 --> 01:53:58,272

-Understood?

-Understood.

2480

01:54:03,377 --> 01:54:04,945

(rocket hissing)

2481

01:54:05,680 --> 01:54:08,215

MAN (on speaker):

Two minutes to detonation.

2482

01:54:08,248 --> 01:54:10,217

Everybody down.

2483

01:54:10,250 --> 01:54:11,218

Do not turn around

2484

01:54:11,251 --> 01:54:14,321

until you see light
reflected on the hills.

2485

01:54:14,355 --> 01:54:15,489

Then look at the explosion

2486

01:54:15,523 --> 01:54:17,157

only through
your welder's glass.

2487

01:54:17,191 --> 01:54:19,893

MAN (on speaker):

Ninety seconds to detonation.

2488

01:54:21,529 --> 01:54:24,365

Ninety seconds to detonation.

2489

01:54:24,398 --> 01:54:26,500

Is it rubbed in?

2490

01:54:26,534 --> 01:54:27,901

Yeah.

2491

01:54:34,241 --> 01:54:37,344

MAN (on speaker):

Sixty seconds to detonation.

2492

01:54:38,613 --> 01:54:41,382

(intense music playing)

2493

01:54:52,025 --> 01:54:54,261

These things are hard

on your heart.

2494

01:54:54,294 --> 01:54:55,996

MAN (on speaker):

Thirty seconds.

2495

01:54:58,600 --> 01:55:00,300

(charging up)

2496

01:55:01,101 --> 01:55:02,503

Detonators charged.

2497

01:55:03,705 --> 01:55:07,174

(intense music continues)

2498

01:55:12,647 --> 01:55:16,116

MAN (on speaker):

Seventeen, sixteen,

2499

01:55:16,150 --> 01:55:17,317

fifteen,

2500

01:55:17,351 --> 01:55:18,520

fourteen,

2501

01:55:18,553 --> 01:55:20,354

thirteen,

2502

01:55:20,387 --> 01:55:22,557

twelve,

2503

01:55:22,590 --> 01:55:24,258

eleven,

2504

01:55:24,291 --> 01:55:26,260

ten,

2505

01:55:26,293 --> 01:55:28,696

nine,

2506

01:55:28,730 --> 01:55:30,698

eight,

2507

01:55:30,732 --> 01:55:33,300

seven,

2508

01:55:33,333 --> 01:55:35,703

-six...

-(intense music building)

2509

01:55:35,737 --> 01:55:37,204

...five...

2510

01:55:39,206 --> 01:55:41,676

...four...

2511

01:55:41,709 --> 01:55:43,645

three...

2512

01:55:43,678 --> 01:55:45,212

two...

2513

01:55:46,514 --> 01:55:47,582

-...one.

-(music stops)

2514

01:55:47,615 --> 01:55:50,350

(silence)

2515

01:55:51,485 --> 01:55:53,987

(breathing heavily)

2516

01:56:01,261 --> 01:56:04,264

(both gasp)

2517

01:56:06,634 --> 01:56:09,069

(exhales)

2518

01:56:09,102 --> 01:56:11,038

(whispers):

Poof.

2519

01:56:13,708 --> 01:56:15,510

(breathing heavily)

2520

01:56:29,156 --> 01:56:31,992

(faint pensive music playing)

2521

01:56:43,671 --> 01:56:45,405

(continues breathing heavily)

2522

01:56:55,148 --> 01:56:59,052

(breathing heavily)

2523

01:57:00,822 --> 01:57:03,490

(faint pensive music continues)

2524

01:57:19,841 --> 01:57:23,210

ROBERT:

"And now I am become Death."

2525

01:57:25,112 --> 01:57:27,281

The destroyer of worlds."

2526

01:57:29,884 --> 01:57:31,318

(explosion)

2527

01:57:31,351 --> 01:57:33,287

(rumbling)

2528

01:57:38,425 --> 01:57:40,127

(silence)

2529

01:57:41,796 --> 01:57:43,765

(explosion)

2530

01:57:43,798 --> 01:57:46,834

(rumbling)

2531

01:57:46,868 --> 01:57:48,302

(silence)

2532

01:57:49,604 --> 01:57:51,739

(distant explosion)

2533

01:57:51,773 --> 01:57:53,473

(distant rumbling)

2534

01:57:54,742 --> 01:57:56,209

(rumbling)

2535

01:58:00,280 --> 01:58:01,649

FRANK:

It worked.

2536

01:58:04,284 --> 01:58:05,620

(rumbling subsides)

2537

01:58:08,856 --> 01:58:10,825

(muffled laughter)

2538

01:58:10,858 --> 01:58:13,493

(all cheering and applauding)

2539

01:58:23,938 --> 01:58:26,373

(mellow music playing)

2540

01:58:31,378 --> 01:58:33,413

-(playing triumphant beat)

-(all cheering)

2541

01:58:35,315 --> 01:58:36,851

(whooping excitedly)

2542

01:58:36,884 --> 01:58:38,886

-You owe me ten dollars!

-Oh!

2543

01:58:38,920 --> 01:58:41,188

(laughs)

2544

01:58:41,221 --> 01:58:42,356

-Come on!

-Hang on.

2545

01:58:42,389 --> 01:58:43,825

I'm good for it, Kisty.

2546

01:58:43,858 --> 01:58:46,159

-(both laughing)

-You are.

2547

01:58:46,193 --> 01:58:48,896

Yes, you are! (laughs)

2548

01:58:48,930 --> 01:58:51,633

(cheering and applauding)

2549

01:58:53,901 --> 01:58:56,269

(mellow music continues)

2550

01:59:12,987 --> 01:59:14,522

ROBERT:

Well done.

2551

01:59:16,223 --> 01:59:18,760

We did it! We did it!

2552

01:59:18,793 --> 01:59:20,695

Well done.

2553

01:59:25,499 --> 01:59:27,334

-Get me Potsdam right away.

-Yes, sir.

2554

01:59:27,367 --> 01:59:29,570

(cheering continues)

2555

01:59:38,813 --> 01:59:40,581

Get a message to Kitty.

2556

01:59:40,615 --> 01:59:41,314

We can't say anything.

2557

01:59:41,348 --> 01:59:43,283

Tell her to take in the sheets.

2558

01:59:51,291 --> 01:59:52,827

We did it, everyone!

2559

01:59:52,860 --> 01:59:55,462

-(telephone ringing)

-(baby crying)

2560

01:59:57,699 --> 01:59:59,499

(shushes) Hello?

2561

01:59:59,534 --> 02:00:01,969

-CHARLOTTE: Hi, Kitty?

-What, what? Charlotte...

2562

02:00:02,003 --> 02:00:03,370

Charlotte, go ahead, go ahead.

2563

02:00:03,403 --> 02:00:04,772

Oh, um, well, I don't know,

2564

02:00:04,806 --> 02:00:08,009

he just said to tell you
to "bring in the sheets."

2565

02:00:08,042 --> 02:00:10,678

(baby continues crying)

2566

02:00:10,712 --> 02:00:12,279

Kitty?

2567

02:00:13,380 --> 02:00:15,817

Kitty?

Kitty, are you still there?

2568

02:00:22,724 --> 02:00:24,859

ROBERT: *<i>If they detonate it</i>
<i>too high in the air,</i>*

2569

02:00:24,892 --> 02:00:26,259

the blast won't be as powerful.

2570

02:00:26,293 --> 02:00:28,328

With respect, Dr. Oppenheimer,

2571

02:00:28,361 --> 02:00:30,397

we'll take it from here.

2572

02:00:31,766 --> 02:00:34,769

(disquieting music playing)

2573

02:00:40,641 --> 02:00:43,544

Did Truman brief Stalin
at Potsdam?

2574

02:00:43,578 --> 02:00:46,313

A brief would be
an overstatement.

2575

02:00:46,346 --> 02:00:50,417

He referred
to a powerful new weapon.

2576

02:00:50,450 --> 02:00:55,523

Stalin hoped we'd use it
against Japan.

2577

02:00:56,758 --> 02:00:58,492

That's it?

2578

02:00:58,526 --> 02:01:01,763

Robert, we've given them an ace,
it's for them to play the hand.

2579

02:01:03,898 --> 02:01:06,000

You're aiming for the 6th?

2580

02:01:06,033 --> 02:01:08,335

It's up to the CO
in the Pacific.

2581

02:01:09,670 --> 02:01:11,739

Shall I come with you
to Washington?

2582

02:01:13,340 --> 02:01:14,575

What for?

2583

02:01:16,844 --> 02:01:18,445

Well, you'll keep me informed.

2584

02:01:19,781 --> 02:01:21,414

Of course.

2585

02:01:22,984 --> 02:01:24,585

As best I can.

2586

02:01:24,619 --> 02:01:26,386

(engine revs)

2587

02:01:42,003 --> 02:01:44,872

Would the Japanese surrender
if they knew what was coming?

2588

02:01:46,107 --> 02:01:47,708

I don't know.

2589

02:01:50,111 --> 02:01:52,113

TELLER: Have you seen
Szilard's petition?

2590

02:01:52,146 --> 02:01:54,882

What the hell does Szilard
know about the Japanese?

2591

02:01:54,916 --> 02:01:56,117

You're not signing it, are you?

2592

02:01:56,150 --> 02:01:59,554

Many people have.

A lot of people have.

2593

02:01:59,587 --> 02:02:00,721

Edward.

2594

02:02:01,989 --> 02:02:03,658

The fact that we built this bomb

2595

02:02:03,691 --> 02:02:06,694

does not give us any more...

any more right or responsibility

2596

02:02:06,727 --> 02:02:08,830

to decide how it's used

than anyone else.

2597

02:02:08,863 --> 02:02:10,865

But we're the only people

who know about it.

2598

02:02:10,898 --> 02:02:14,467

I've told Stimson the various
opinions of the community.

2599

02:02:14,501 --> 02:02:15,903

But what's your opinion?

2600

02:02:17,138 --> 02:02:18,673

Once it's used...

2601

02:02:19,774 --> 02:02:23,476

...nuclear war,
perhaps all war...

2602

02:02:25,079 --> 02:02:26,514

...becomes unthinkable.

2603

02:02:26,547 --> 02:02:29,550

Until somebody
builds a bigger bomb.

2604

02:02:50,137 --> 02:02:51,873

I thought they would call.

2605

02:02:51,906 --> 02:02:53,473

It's only the 5th.

2606

02:02:55,643 --> 02:02:57,645

In Japan, it's the 6th.

2607

02:03:10,791 --> 02:03:11,792

Charlotte.

2608

02:03:14,128 --> 02:03:15,830

Try Groves.

2609

02:03:16,831 --> 02:03:17,899

<i>Anything?</i>

2610

02:03:20,201 --> 02:03:21,569

Charlotte?

2611

02:03:21,602 --> 02:03:22,904

CHARLOTTE:

Truman's on the radio.

2612

02:03:23,838 --> 02:03:26,741

TRUMAN (on radio):

Sixteen hours ago,

2613

02:03:26,774 --> 02:03:32,680

an American airplane dropped
one bomb on Hiroshima...

2614

02:03:33,714 --> 02:03:36,851

...and destroyed its usefulness
to the enemy.

2615

02:03:36,884 --> 02:03:38,786

(elated laughter outside)

2616

02:03:38,819 --> 02:03:44,692

The bomb had more power
than 20,000 tons of TNT.

2617

02:03:46,160 --> 02:03:48,629

It is an atomic bomb.

2618

02:03:48,663 --> 02:03:51,799

-(excited chatter)

-(car horns honking)

2619

02:03:51,832 --> 02:03:53,200

It is a harnessing

2620

02:03:53,234 --> 02:03:56,003

of the basic powers

of the universe.

2621

02:03:58,039 --> 02:03:59,674

CHARLOTTE:

<i>Groves on one.</i>

2622

02:03:59,707 --> 02:04:02,743

TRUMAN: We are now prepared
to destroy more rapidly

2623

02:04:02,777 --> 02:04:05,079

and completely the Japanese...

2624

02:04:05,112 --> 02:04:06,781

ROBERT:

(clears throat) General?

2625

02:04:06,814 --> 02:04:09,850

GROVES: I'm very proud of you
and all of your people.

2626

02:04:09,884 --> 02:04:11,218

It went all right?

2627

02:04:11,252 --> 02:04:14,221

Apparently, it went
with a tremendous bang.

2628

02:04:14,255 --> 02:04:15,890

ROBERT:

Well,

2629

02:04:15,923 --> 02:04:18,859

everyone here is feeling

reasonably good about it.

2630

02:04:20,294 --> 02:04:21,929

It's been a long road.

2631

02:04:21,963 --> 02:04:24,765

GROVES: I think one of
the wisest things I ever did

2632

02:04:24,799 --> 02:04:27,835

was when I selected
the director of Los Alamos.

2633

02:04:27,868 --> 02:04:30,171

-(cheering)

-(car horns honking)

2634

02:04:30,204 --> 02:04:32,540

TRUMAN:

<i>We have spent</i>

2635

02:04:32,573 --> 02:04:34,575

<i>more than \$2 billion</i>

2636

02:04:34,608 --> 02:04:38,846

<i>on the greatest</i>

<i>scientific gamble in history,</i>

2637

02:04:38,879 --> 02:04:41,716

<i>and we have won.</i>

2638

02:04:41,749 --> 02:04:44,518

(cheering)

2639

02:04:45,252 --> 02:04:47,955

CROWD (chanting):

Oppie! Oppie! Oppie!

2640

02:04:47,989 --> 02:04:49,991

Oppie! Oppie!

2641

02:04:50,024 --> 02:04:53,227

Oppie! Oppie! Oppie! Oppie!

2642

02:04:53,260 --> 02:04:55,096

Oppie! Oppie!

2643

02:04:55,129 --> 02:04:57,898

Oppie! Oppie! Oppie! Oppie!

2644

02:04:57,932 --> 02:05:01,268

-Oppie! Oppie! Oppie! Oppie!

-(applause)

2645

02:05:01,302 --> 02:05:05,906

Oppie! Oppie! Oppie!

Oppie! Oppie! Oppie!

2646

02:05:05,940 --> 02:05:07,274

Oppie! Oppie!

2647

02:05:07,308 --> 02:05:09,877

Oppie! Oppie! Oppie! Oppie!

2648

02:05:09,910 --> 02:05:12,780

(rhythmic stomping)

2649

02:05:13,647 --> 02:05:16,650

(stomping intensifying)

2650

02:05:29,864 --> 02:05:32,700

-(stomping subsides)

-(cheering continues)

2651

02:06:06,634 --> 02:06:08,936

(breathing heavily)

2652

02:06:08,969 --> 02:06:10,071

The world...

2653

02:06:12,073 --> 02:06:13,207

...will remember this day.

2654

02:06:13,240 --> 02:06:15,609

(cheering and applauding)

2655

02:06:24,251 --> 02:06:26,921

(muffled distant rumbling)

2656

02:06:32,126 --> 02:06:33,861

It's too soon to...

2657

02:06:34,728 --> 02:06:36,397

It's too soon to determine

2658

02:06:36,430 --> 02:06:38,799

what the results
of the bombing are.

2659

02:06:41,735 --> 02:06:43,337

But I'll bet the Japanese
didn't like it.

2660

02:06:43,370 --> 02:06:45,906

(cheering and applauding)

2661

02:06:52,146 --> 02:06:53,747

-(woman screams)

-(cheering sound muted)

2662

02:06:53,781 --> 02:06:55,316

(distant rumbling continues)

2663

02:06:55,349 --> 02:06:57,985

(Robert breathing heavily)

2664

02:07:04,225 --> 02:07:05,759

I'm so proud.

2665

02:07:06,894 --> 02:07:09,029

So proud of what

you have accomplished.

2666

02:07:10,397 --> 02:07:12,666

(continues breathing heavily)

2667

02:07:15,336 --> 02:07:19,173

I just wish we had it in time

to use against the Germans.

2668

02:07:24,712 --> 02:07:27,114

(continues breathing heavily)

2669

02:07:27,148 --> 02:07:29,216

(wind howling)

2670

02:07:41,795 --> 02:07:43,030

(jarring musical sting)

2671

02:07:43,063 --> 02:07:45,900

-(cheering sound returns)

-(hearty laughter)

2672

02:07:57,111 --> 02:07:58,979

(somber music playing)

2673

02:08:07,354 --> 02:08:09,723

(sobbing)

2674

02:08:29,511 --> 02:08:32,514

(man weeping)

2675

02:08:32,547 --> 02:08:34,782

(laughter)

2676

02:08:35,449 --> 02:08:37,985

(somber music continues)

2677

02:09:00,908 --> 02:09:03,010

(somber music fading out)

2678

02:09:09,016 --> 02:09:10,884

WOMAN:

Dr. Oppenheimer?

2679

02:09:11,485 --> 02:09:13,787

Dr. Oppenheimer? (chuckles)

2680

02:09:13,821 --> 02:09:15,489

-Nice picture.

-Oh.

2681

02:09:15,523 --> 02:09:17,858

President Truman

will see you now.

2682

02:09:20,562 --> 02:09:22,196

(clears throat)

2683

02:09:31,573 --> 02:09:34,408

Dr. Oppenheimer. It's an honor.

2684

02:09:34,441 --> 02:09:36,377

-Mr. President.

-TRUMAN: Please.

2685

02:09:36,410 --> 02:09:38,212

Thank you.

2686

02:09:38,245 --> 02:09:39,780

Secretary Byrnes.

2687

02:09:40,981 --> 02:09:42,983

How's it feel to be

2688

02:09:43,017 --> 02:09:45,052

the most famous man

in the world?

2689

02:09:46,053 --> 02:09:49,123

You helped save a lot

of American lives.

2690

02:09:49,156 --> 02:09:51,526

What we did

at Hiroshima was a...

2691

02:09:51,559 --> 02:09:53,494

And Nagasaki.

2692

02:09:53,528 --> 02:09:55,530

Well, obviously.

2693

02:09:55,563 --> 02:09:59,500

Your invention let us

bring our boys home.

2694

02:09:59,534 --> 02:10:02,903

Well, it was hardly

my invention.

2695

02:10:02,936 --> 02:10:05,205

It was you on the cover of *Time*.

2696

02:10:05,239 --> 02:10:08,042

(both chuckling)

2697

02:10:08,075 --> 02:10:09,611

Jim tells me you're concerned

2698

02:10:09,644 --> 02:10:11,412

about an arms race

with the Soviets.

2699

02:10:11,445 --> 02:10:13,814

Uh, yes, uh...

2700

02:10:14,516 --> 02:10:16,016

Well, um,

2701

02:10:16,050 --> 02:10:21,155

it's that, uh, now is

our chance to secure

2702

02:10:21,188 --> 02:10:24,058

international cooperation on

(clears throat) atomic energy,

2703

02:10:24,091 --> 02:10:27,127

and... and I'm concerned...

2704

02:10:27,161 --> 02:10:29,396

Do you know when the Soviets
are gonna have the bomb?

2705

02:10:29,430 --> 02:10:31,365

I don't think I could give a...

2706

02:10:31,398 --> 02:10:32,801

Never.

2707

02:10:33,434 --> 02:10:35,069

Never.

2708

02:10:35,102 --> 02:10:38,272

Mr. President, the-the Russians
have good physicists

2709

02:10:38,305 --> 02:10:39,940

and-and...

and abundant resources.

2710

02:10:39,973 --> 02:10:42,076

-Abundant? (laughs)

-Yes.

2711

02:10:42,109 --> 02:10:45,379

-I don't think so.

-(chuckles)

2712

02:10:45,412 --> 02:10:48,949

Well, they'll-they'll put

everything they have and...

2713

02:10:52,219 --> 02:10:56,090

I hear you're leaving

Los Alamos.

2714

02:10:57,358 --> 02:10:58,459

What should we do with it?

2715

02:10:58,492 --> 02:11:00,994

Give it back to the Indians.

2716

02:11:08,402 --> 02:11:11,639

Um... Dr. Oppenheimer, (sighs)

2717

02:11:11,673 --> 02:11:14,007

if what you say about

the Soviets is true,

2718

02:11:14,041 --> 02:11:17,444

we have to build up Los Alamos,

2719

02:11:17,478 --> 02:11:19,380

not shut it down.

2720

02:11:22,617 --> 02:11:24,418

Uh, Mr. President...

2721

02:11:25,486 --> 02:11:26,987

Um...

2722

02:11:29,657 --> 02:11:33,327

I feel that I have blood
on my hands.

2723

02:11:34,428 --> 02:11:37,431

(disquieting music playing)

2724

02:11:53,113 --> 02:11:58,419

You think anyone
in Hiroshima or Nagasaki

2725

02:11:58,452 --> 02:12:01,488

gives a shit who built the bomb?

2726

02:12:04,659 --> 02:12:07,027

They care who dropped it.

2727

02:12:07,729 --> 02:12:09,997

I did.

2728

02:12:11,231 --> 02:12:14,201

Hiroshima isn't about you.

2729

02:12:17,204 --> 02:12:18,540

(sniffs)

2730

02:12:20,340 --> 02:12:22,476

Dr. Oppenheimer.

2731

02:12:25,747 --> 02:12:27,214

(Truman clears throat)

2732

02:12:33,420 --> 02:12:36,223

TRUMAN: Don't let that crybaby
back in here.

2733

02:12:41,328 --> 02:12:44,364

STRAUSS: *Robert saw that*
hand-wringing got him nowhere.

2734

02:12:44,398 --> 02:12:47,735

By the time I'd met him,
he'd fully embraced

2735

02:12:47,769 --> 02:12:50,337

<i>his "father of the bomb"</i>
<i>reputation.</i>

2736

02:12:50,370 --> 02:12:52,774

Used his profile
to influence policy.

2737

02:12:52,807 --> 02:12:55,342

(clamoring)

2738

02:13:02,249 --> 02:13:03,618

ROBB: <i>Doctor, in the years</i>
<i>following the war,</i>

2739

02:13:03,651 --> 02:13:05,787

would you say that
you exerted a great influence

2740

02:13:05,820 --> 02:13:07,622

on the atomic policies
of the USA?

2741

02:13:07,655 --> 02:13:10,357

ROBERT: <i>I think great</i>

<i>would be an overstatement.</i>

2742

02:13:10,390 --> 02:13:12,359

ROBB: Really? If we look
at the issue of isotopes,

2743

02:13:12,392 --> 02:13:14,094

were you not
personally responsible

2744

02:13:14,127 --> 02:13:16,163

for destroying all opposition
to their export?

2745

02:13:16,196 --> 02:13:19,066

-Could use a-a bottle of beer...

-(laughter)

2746

02:13:19,099 --> 02:13:20,768

...when making atomic weapons.

In fact, you do.

2747

02:13:20,802 --> 02:13:23,270

I was the spokesman,
but the-the opinion

2748

02:13:23,303 --> 02:13:25,105

among scientists was unanimous.

2749

02:13:25,138 --> 02:13:26,808

All along with McCarthy
on the rise,

2750

02:13:26,841 --> 02:13:28,242

he knew he was vulnerable.

2751

02:13:28,275 --> 02:13:29,644

His brother was blacklisted

2752

02:13:29,677 --> 02:13:32,580

by every university
in the country.

2753

02:13:33,681 --> 02:13:36,518

Lomanitz wound up working

the railroad, laying track.

2754

02:13:39,119 --> 02:13:40,555

And Chevalier went into exile.

2755

02:13:43,691 --> 02:13:45,125

But none of that

2756

02:13:45,158 --> 02:13:47,127

stopped Robert

from pushing the GAC

2757

02:13:47,160 --> 02:13:50,030

to recommend arms control

instead of the H-bomb.

2758

02:13:51,833 --> 02:13:53,300

He was devastated

2759

02:13:53,333 --> 02:13:55,402

when Truman rejected

their recommendation.

2760

02:13:57,137 --> 02:13:59,674

I miss Richard
more than I can bear.

2761

02:13:59,707 --> 02:14:01,475

I know, Ruth, I know.

2762

02:14:01,509 --> 02:14:04,612

Part of me's glad he didn't live
to see where this is all going.

2763

02:14:07,381 --> 02:14:08,816

ROBERT:

Here comes the birthday boy.

2764

02:14:08,850 --> 02:14:11,451

-To gloat.

-RUTH: Have fun.

2765

02:14:12,452 --> 02:14:14,822

Robert, uh, my son and his
fiancée are desperate to meet

2766

02:14:14,856 --> 02:14:16,824

the father of the atomic bomb,
and so...

2767

02:14:16,858 --> 02:14:19,661

Well. Good day.

2768

02:14:25,733 --> 02:14:27,835

Is this a bad time?

2769

02:14:27,869 --> 02:14:29,369

What do you think, Lewis?

2770

02:14:29,403 --> 02:14:31,471

Well, I think it must have
been a blow for you.

2771

02:14:31,505 --> 02:14:33,641

For the world.

2772

02:14:33,675 --> 02:14:35,309

The world?

2773

02:14:35,342 --> 02:14:39,313

What does Fuchs mean
to the rest of the world?

2774

02:14:39,346 --> 02:14:40,748

Fuchs?

2775

02:14:40,782 --> 02:14:42,382

Klaus Fuchs?

2776

02:14:43,818 --> 02:14:46,219

Oh, dear. You haven't heard.

2777

02:14:47,889 --> 02:14:49,356

(sighs)

2778

02:14:49,389 --> 02:14:51,258

Klaus Fuchs, the British
scientist that you put

2779

02:14:51,291 --> 02:14:54,328

onto the implosion team
at Los Alamos,

2780

02:14:54,361 --> 02:14:56,496

<i>turns out he was...</i>

2781

02:14:56,531 --> 02:14:59,801

he was spying for the Soviets
the whole time.

2782

02:14:59,834 --> 02:15:01,368

I'm sorry.

2783

02:15:04,371 --> 02:15:06,506

(brooding music playing)

2784

02:15:06,541 --> 02:15:09,443

<i>After the truth</i>

<i>about Fuchs came out,</i>

2785

02:15:09,476 --> 02:15:11,579

the FBI stepped up
surveillance on him.

2786

02:15:11,613 --> 02:15:15,482

He knew his phone was tapped,
he was followed everywhere...

2787

02:15:16,851 --> 02:15:18,285

...his trash picked through.

2788

02:15:22,289 --> 02:15:23,758

But never stopped
speaking his mind.

2789

02:15:23,791 --> 02:15:26,460

A man of conviction.

2790

02:15:26,493 --> 02:15:29,329

And maybe he thought fame
could actually protect him.

2791

02:15:30,832 --> 02:15:34,267

When Eisenhower took office,
he saw one more chance.

2792

02:15:35,670 --> 02:15:36,704

He took it.

2793

02:15:36,738 --> 02:15:39,206

America and Russia

2794

02:15:39,239 --> 02:15:43,511

may be likened

to two scorpions in a bottle,

2795

02:15:43,544 --> 02:15:46,914

each capable

of killing the other

2796

02:15:46,948 --> 02:15:49,651

but only at the risk

of his own life.

2797

02:15:49,684 --> 02:15:52,452

Now, there are various aspects

of this policy...

2798

02:15:52,486 --> 02:15:54,488

STRAUSS:

<i>Lot of scientists blame me,</i>

2799

02:15:54,522 --> 02:15:57,659

<i>but how was I supposed</i>

<i>to protect him?</i>

2800

02:15:57,692 --> 02:15:59,661

...too secret for discussion,

2801

02:15:59,694 --> 02:16:01,696

candor is the only remedy.

2802

02:16:01,729 --> 02:16:03,263

Officials in Washington

2803

02:16:03,296 --> 02:16:04,799

need to start leveling

with the American people.

2804

02:16:04,832 --> 02:16:06,466

(people murmuring)

2805

02:16:06,500 --> 02:16:09,336

That was the last straw
for Robert's enemies.

2806

02:16:09,369 --> 02:16:11,405

So he had to lose
his security clearance.

2807

02:16:11,438 --> 02:16:14,207

-And with it, his credibility.
-(knocking)

2808

02:16:14,241 --> 02:16:16,644

But how could they do it?

2809

02:16:16,678 --> 02:16:17,945

He was a war hero.

2810

02:16:17,979 --> 02:16:19,681

He'd already told everyone
about his past.

2811

02:16:19,714 --> 02:16:21,683

Borden dredged it all up.

2812

02:16:21,716 --> 02:16:24,952

How could Borden get access
to Oppenheimer's FBI file?

2813

02:16:24,986 --> 02:16:26,554

Could it have been Nichols?

2814

02:16:26,587 --> 02:16:28,890

No, I can't imagine
he'd do that.

2815

02:16:28,923 --> 02:16:30,958

But whoever did
unleashed a firestorm

2816

02:16:30,992 --> 02:16:32,994

that burned a path
from the White House

2817

02:16:33,027 --> 02:16:35,697

back to my desk at the AEC.

2818

02:16:35,730 --> 02:16:37,565

You see them in there, right?

2819

02:16:37,598 --> 02:16:41,468

I've been working

my whole life to get here.

2820

02:16:41,501 --> 02:16:43,538

Cabinet of

the United States of America.

2821

02:16:43,571 --> 02:16:45,505

Now, in front

of the entire country,

2822

02:16:45,540 --> 02:16:47,608

they're gonna put me

back in my place.

2823

02:16:49,043 --> 02:16:51,713

A lowly shoe salesman.

2824

02:16:51,746 --> 02:16:53,581

Lewis, we can win this thing.

2825

02:16:53,614 --> 02:16:55,683

I-I think we can

get the Senate to grasp

2826

02:16:55,717 --> 02:16:58,519

that you did your duty,

painful though it was.

2827

02:16:58,553 --> 02:17:00,320

Now, will Hill's testimony

back us up?

2828

02:17:00,353 --> 02:17:02,322

-COUNSEL: Hill will be fine.

-I don't really know him,

2829

02:17:02,355 --> 02:17:04,525

but, uh, he was one

of Szilard's boys in Chicago,

2830

02:17:04,559 --> 02:17:06,594

and they never forgave Robert
for not supporting

2831

02:17:06,627 --> 02:17:09,030

their petition
against bombing Japan.

2832

02:17:09,063 --> 02:17:14,267

This was taken 31 days
after the bombing.

2833

02:17:14,301 --> 02:17:17,038

Virtually everyone
in the street,

2834

02:17:17,071 --> 02:17:19,306

for nearly a mile around,

2835

02:17:19,339 --> 02:17:22,543

was instantly

and seriously burned.

2836

02:17:22,577 --> 02:17:23,745

(people gasping)

2837

02:17:23,778 --> 02:17:28,315

The, uh, Japanese spoke of
people who wore striped clothing

2838

02:17:28,348 --> 02:17:31,318

upon whom the skin
was burned in stripes.

2839

02:17:32,385 --> 02:17:34,756

There were many
who thought themselves lucky,

2840

02:17:34,789 --> 02:17:37,491

who climbed out of the ruins
of their homes

2841

02:17:37,525 --> 02:17:39,392

only slightly injured.

2842

02:17:40,528 --> 02:17:42,295

But they died anyway.

2843

02:17:42,964 --> 02:17:46,067

They died days or weeks later

2844

02:17:46,100 --> 02:17:49,436

from the radium-like rays

emitted in great numbers

2845

02:17:49,469 --> 02:17:51,371

at the moment of the explosion.

2846

02:17:52,573 --> 02:17:54,642

Did you read this crap

in the papers?

2847

02:17:54,675 --> 02:17:57,477

A British physicist is saying

the atomic bombings

2848

02:17:57,512 --> 02:17:59,680

were not the last act
of World War II

2849

02:17:59,714 --> 02:18:02,850

but the first act
of this cold war with Russia.

2850

02:18:02,884 --> 02:18:04,351

Which physicist?

2851

02:18:04,384 --> 02:18:05,787

I think you knew him.

2852

02:18:05,820 --> 02:18:07,420

Patrick Blackett.

2853

02:18:08,656 --> 02:18:09,857

(scoffs)

2854

02:18:09,891 --> 02:18:11,458

ROBERT:

He may not be wrong.

2855

02:18:11,491 --> 02:18:12,827

Stimson is now telling me

2856

02:18:12,860 --> 02:18:16,097

we bombed an enemy
that was essentially defeated.

2857

02:18:16,130 --> 02:18:19,667

TELLER: Robert,
you've all the influence now.

2858

02:18:19,700 --> 02:18:21,401

Please.

2859

02:18:21,434 --> 02:18:23,538

Urge them to continue
my research on the Super.

2860

02:18:23,571 --> 02:18:24,939

I neither can nor will, Edward.

2861

02:18:24,972 --> 02:18:27,074

Why not?

2862

02:18:27,108 --> 02:18:28,810

It's not the right use

of our resources.

2863

02:18:28,843 --> 02:18:30,945

Is that what you really believe?

2864

02:18:30,978 --> 02:18:33,346

J. Robert Oppenheimer.

2865

02:18:33,380 --> 02:18:35,783

Sphinx-like guru of the atom.

2866

02:18:37,084 --> 02:18:38,853

Nobody knows what you believe.

2867

02:18:39,954 --> 02:18:41,823

Do you? Hmm?

2868

02:18:41,856 --> 02:18:44,559

GROVES: *<i>One final time,</i>*

<i>our program director,</i>

2869

02:18:44,592 --> 02:18:46,561

<i>Dr. J. Robert Oppenheimer.</i>

2870

02:18:46,594 --> 02:18:47,728

(applause)

2871

02:18:47,762 --> 02:18:49,530

ROBERT:

<i>I hope that in years to come</i>

2872

02:18:49,564 --> 02:18:53,568

you will look back

on your work here with pride.

2873

02:18:53,601 --> 02:18:55,970

But today, that pride

must be tempered

2874

02:18:56,003 --> 02:18:58,338

with a profound concern.

2875

02:18:59,607 --> 02:19:01,408

If atomic weapons

are to be added

2876

02:19:01,441 --> 02:19:03,845

to the arsenals

of a warring world,

2877

02:19:03,878 --> 02:19:07,447

then the day will come

when people will curse

2878

02:19:07,480 --> 02:19:08,883

the name of Los Alamos.

2879

02:19:12,887 --> 02:19:14,989

Uh, sorry, Admiral.

2880

02:19:15,022 --> 02:19:17,024

Stopped off to get this.

2881

02:19:17,058 --> 02:19:19,861

It seems pretty favorable.

2882

02:19:19,894 --> 02:19:20,995

COUNSEL:

There's Oppenheimer.

2883

02:19:21,028 --> 02:19:22,597

What's the caption?

2884

02:19:22,630 --> 02:19:25,465

Uh, "J. Robert Oppenheimer,
Strauss fought..."

2885

02:19:25,498 --> 02:19:27,001

(soft music plays)

2886

02:19:27,034 --> 02:19:28,603

"...and the US won."

2887

02:19:29,436 --> 02:19:30,705

That'll work.

2888

02:19:30,738 --> 02:19:32,974

Those were your words
from the other day.

2889

02:19:33,007 --> 02:19:34,407

We needed to pivot.

2890

02:19:34,441 --> 02:19:35,710

But how would you know

2891

02:19:35,743 --> 02:19:37,545

what *Time* magazine's
gonna write?

2892

02:19:37,578 --> 02:19:39,814

Henry Luce is a friend.

2893

02:19:45,953 --> 02:19:49,456

You sat here and let me
tell you how it's done,

2894

02:19:49,489 --> 02:19:52,159

but you've been
far ahead all along.

2895

02:19:52,193 --> 02:19:55,162

Survival in Washington

2896

02:19:55,196 --> 02:19:57,531

is about knowing
how to get things done.

2897

02:19:58,165 --> 02:19:59,567

SENATE AIDE:

Right.

2898

02:20:01,168 --> 02:20:02,904

What was it you said
about Borden?

2899

02:20:02,937 --> 02:20:05,940

"Why get caught
holding the knife yourself?"

2900

02:20:05,973 --> 02:20:07,742

(sighs)

2901

02:20:07,775 --> 02:20:10,778

I'm beginning to think Borden
was holding the knife for you.

2902

02:20:12,847 --> 02:20:15,082

It's gonna come down
to how much influence

2903

02:20:15,116 --> 02:20:17,184

Borden's been able
to exert on Teller.

2904

02:20:17,218 --> 02:20:19,654

-(Kitty laughing)

-Did I say something funny?

2905

02:20:19,687 --> 02:20:21,055

Just "Borden, Borden, Borden"

2906

02:20:21,088 --> 02:20:24,859

when we all know
that it's Strauss.

2907

02:20:24,892 --> 02:20:26,861

Lewis brought me
to Princeton, Kitty.

2908

02:20:26,894 --> 02:20:29,597

And then you humiliated him
in front of Congress.

2909

02:20:29,630 --> 02:20:32,465

But more useful than a sandwich.

2910

02:20:32,499 --> 02:20:34,635

(laughter)

2911

02:20:35,636 --> 02:20:36,804

-How'd I do?

-MAN: I'll call recess,

2912

02:20:36,837 --> 02:20:37,939

ten minutes.

2913

02:20:37,972 --> 02:20:40,207

Maybe a little too well, Robert.

2914

02:20:40,241 --> 02:20:41,474

That was six years ago.

2915

02:20:41,509 --> 02:20:43,210

You know, the truly vindictive,

2916

02:20:43,244 --> 02:20:44,845

patient as saints.

2917

02:20:44,879 --> 02:20:47,682

Strauss has been perfectly

clear that he is neutral.

2918

02:20:47,715 --> 02:20:51,218

-(glass shatters)

-Wake up. It is Strauss.

2919

02:20:51,252 --> 02:20:54,188

It's always been Strauss,
and you know it.

2920

02:20:54,221 --> 02:20:55,856

Why won't you fight him?

2921

02:20:56,891 --> 02:20:58,092

Christ's sake.

2922

02:20:58,125 --> 02:20:59,160

(door slams)

2923

02:20:59,193 --> 02:21:01,862

It wasn't Nichols or Hoover

2924

02:21:01,896 --> 02:21:03,564

or one of Truman's guys.

It was you.

2925

02:21:03,597 --> 02:21:05,566

You gave the file to Borden.

2926

02:21:05,599 --> 02:21:07,234

You set him on Oppenheimer.

2927

02:21:07,268 --> 02:21:09,704

-You convinced him to...

-(loudly): Borden...

2928

02:21:09,737 --> 02:21:11,639

(in normal tone):

didn't take any convincing.

2929

02:21:11,672 --> 02:21:13,774

NICHOLS: Take your time,

use the entire file.

2930

02:21:13,808 --> 02:21:16,711

Write up your conclusion,

send them to the FBI.

2931

02:21:16,744 --> 02:21:18,980

The material

is obviously extensive,

2932

02:21:19,013 --> 02:21:21,682

but there's nothing new here.

2933

02:21:21,716 --> 02:21:23,250

STRAUSS:

Your conclusions will be.

2934

02:21:23,284 --> 02:21:25,586

And they'll have to be answered.

2935

02:21:25,619 --> 02:21:27,088

Hoover passes them to McCarthy?

2936

02:21:27,121 --> 02:21:30,725

Oppenheimer's too slippery
for that self-promoting clown.

2937

02:21:30,758 --> 02:21:33,627

I've talked it over with Hoover,
he'll hold McCarthy at bay

2938

02:21:33,661 --> 02:21:35,262

while you do this with the AEC.

2939

02:21:35,296 --> 02:21:37,131

-A trial.

-No.

2940

02:21:37,164 --> 02:21:40,935

No trial. You can't

give Oppenheimer a platform.

2941

02:21:40,968 --> 02:21:42,737

You can't martyr him.

2942

02:21:42,770 --> 02:21:45,940

We need a systematic destruction
of Oppenheimer's credibility

2943

02:21:45,973 --> 02:21:49,543

so he can never again speak
on matters of national security.

2944

02:21:49,577 --> 02:21:51,645

Then what?

2945

02:21:52,847 --> 02:21:56,217

A shabby little room,
far from the limelight.

2946

02:21:56,250 --> 02:21:58,019

(speaking indistinctly)

2947

02:22:02,656 --> 02:22:03,924

STRAUSS:

<i>A simple bureaucratic procedure.</i>

2948

02:22:03,958 --> 02:22:06,594

His Q clearance
is up for renewal.

2949

02:22:06,627 --> 02:22:09,597

You send your accusations
to the FBI.

2950

02:22:11,232 --> 02:22:14,835

Hoover sends them to the AEC,
you're forced to act.

2951

02:22:15,669 --> 02:22:16,971

You write up an indictment

2952

02:22:17,004 --> 02:22:18,639

<i>and tell Oppenheimer</i>

2953

02:22:18,672 --> 02:22:21,342

<i>his security clearance</i>

<i>is not being renewed.</i>

2954

02:22:21,375 --> 02:22:22,910

<i>But offer him</i>

<i>the chance to appeal.</i>

2955

02:22:22,943 --> 02:22:25,279

As you can see, Robert,

it's not yet signed.

2956

02:22:25,312 --> 02:22:26,814

ROBERT:

May I keep this?

2957

02:22:26,847 --> 02:22:27,782

No.

2958

02:22:27,815 --> 02:22:30,051

If you do decide to appeal,

2959

02:22:30,084 --> 02:22:31,619

they'll have to send you a copy.

2960

02:22:31,652 --> 02:22:34,889

When he appeals--

and trust me, he will--

2961

02:22:34,922 --> 02:22:37,324

-I appoint a board.

-(indistinct conversation)

2962

02:22:37,358 --> 02:22:39,827

They will, of course,

have counsel.

2963

02:22:39,860 --> 02:22:41,796

-NICHOLS: Prosecutor?

-In all but name.

2964

02:22:41,829 --> 02:22:43,998

-NICHOLS: Who?

-Roger Robb.

2965

02:22:44,031 --> 02:22:45,199

Ouch.

2966

02:22:45,232 --> 02:22:46,700

Robb will have
security clearance

2967

02:22:46,734 --> 02:22:48,269

<i>to examine Oppenheimer's file.</i>

2968

02:22:48,302 --> 02:22:49,737

<i>As will the Gray board.</i>

2969

02:22:49,770 --> 02:22:51,138

Defense counsel will not.

2970

02:22:52,973 --> 02:22:54,375

A closed hearing.

2971

02:22:54,408 --> 02:22:55,643

ROBERT: <i>The so-called</i>
<i>derogatory information</i>

2972

02:22:55,676 --> 02:22:57,845

in your indictment of me.

2973

02:22:57,878 --> 02:23:00,347

No audience. No reporters.

2974

02:23:00,381 --> 02:23:03,851

-No burden of proof.

-No burden of proof?

2975

02:23:05,219 --> 02:23:06,720

We're not convicting.

2976

02:23:07,421 --> 02:23:10,024

We're just denying.

2977

02:23:14,995 --> 02:23:17,765

What is it you said?

2978

02:23:17,798 --> 02:23:21,135

"This is just how
the game is played."

2979

02:23:21,168 --> 02:23:24,138

Well, forgive my naivete.

2980

02:23:24,171 --> 02:23:26,140

Amateurs seek the sun.

2981

02:23:27,108 --> 02:23:28,175

Get eaten.

2982

02:23:29,243 --> 02:23:32,079

Power stays in the shadows.

2983

02:23:32,113 --> 02:23:35,816

But, sir, you're...
you're out of the shadows now.

2984

02:23:35,850 --> 02:23:37,284

Yeah, that's why

this has to work.

2985

02:23:37,318 --> 02:23:38,786

Well...

2986

02:23:40,087 --> 02:23:42,223

Teller's testifying

this morning.

2987

02:23:42,256 --> 02:23:44,658

That'll help. And then...

2988

02:23:44,692 --> 02:23:46,127

Hill is in the afternoon.

2989

02:23:46,160 --> 02:23:48,629

Hill is gonna help us too.

2990

02:23:50,865 --> 02:23:54,034

STRAUSS: As you can see,
Robert, it's not yet signed.

2991

02:23:54,068 --> 02:23:55,102

May I keep this?

2992

02:23:55,136 --> 02:23:56,170

NICHOLS:

No.

2993

02:23:58,272 --> 02:24:00,274

If you do decide to appeal,

2994

02:24:00,307 --> 02:24:03,144

then they'll have
to send you a copy.

2995

02:24:03,177 --> 02:24:05,679

(unsettling music playing)

2996

02:24:06,714 --> 02:24:09,016

Take my car and driver.

I insist.

2997

02:24:13,754 --> 02:24:15,689

I'll have to consult

my lawyers, Lewis.

2998

02:24:15,723 --> 02:24:18,425

Of course.

But don't take too long.

2999

02:24:18,459 --> 02:24:20,661

I can't keep Nichols at bay.

3000

02:24:26,800 --> 02:24:29,103

I'm sorry

it's come to this, Robert.

3001

02:24:29,136 --> 02:24:30,171

I think it's wrong.

3002

02:24:30,204 --> 02:24:32,239

(unsettling music building)

3003

02:24:43,484 --> 02:24:44,919

ROBERT:

<i>Nichols wants me to fight</i>

3004

02:24:44,952 --> 02:24:46,954

<i>so he can get it</i>

<i>all on the record.</i>

3005

02:24:46,987 --> 02:24:48,856

Strauss wants me to walk away.

3006

02:24:48,889 --> 02:24:51,725

Strauss knows

that you can't do that,

3007

02:24:51,759 --> 02:24:54,195

you'd be accepting the charges.

3008

02:24:54,228 --> 02:24:55,896

You'll lose your job.

3009

02:24:55,930 --> 02:24:58,199

You will lose your reputation.

We'll lose our house.

3010

02:24:58,232 --> 02:25:00,935

Robert, we have to fight.

3011

02:25:01,769 --> 02:25:03,470

(smacks lips)

3012

02:25:03,504 --> 02:25:05,806

VOLPE: As AEC Counsel,

I can't represent you.

3013

02:25:05,839 --> 02:25:07,374

I'll call Lloyd Garrison.

3014

02:25:07,408 --> 02:25:08,943

Oh, he's good.

3015

02:25:08,976 --> 02:25:12,713

The best,

but I have to warn you...

3016

02:25:13,380 --> 02:25:15,816

...this won't be a fair fight.

3017

02:25:15,849 --> 02:25:17,851

-(suspenseful music plays)

-ROBB: <i>During your interview</i>

3018

02:25:17,885 --> 02:25:20,354

with Boris Pash in 1943,

did you refer to microfilm?

3019

02:25:20,387 --> 02:25:21,889

-No.

-Tab 11,

3020

02:25:21,922 --> 02:25:23,357

page one, paragraph three.

You never said,

3021

02:25:23,390 --> 02:25:27,027

"Man at the consulate expert

in the use of microfilm"?

3022

02:25:27,061 --> 02:25:28,395

-I'm sorry, I'm sorry.

-No.

3023

02:25:28,429 --> 02:25:29,363

I would like to know

what document

3024

02:25:29,396 --> 02:25:30,831

Mr. Robb is quoting from

3025

02:25:30,864 --> 02:25:32,132

and if we might be

furnished with a copy.

3026

02:25:32,166 --> 02:25:34,235

The document is classified,

Mr. Garrison.

3027

02:25:34,268 --> 02:25:36,103

I think we should get back

to first-hand information.

3028

02:25:36,136 --> 02:25:37,504

This is first-hand.

3029

02:25:37,539 --> 02:25:39,807

How so, Roger?

3030

02:25:41,175 --> 02:25:43,010

There was a recording
of the interview.

3031

02:25:46,981 --> 02:25:48,882

GARRISON:

You let my client sit here

3032

02:25:48,916 --> 02:25:50,417

and potentially perjure himself,

3033

02:25:50,451 --> 02:25:52,987

and all this time,
you had a recording?

3034

02:25:53,020 --> 02:25:54,388

Nobody told your client

3035

02:25:54,421 --> 02:25:55,823

to misrepresent
his former answers.

3036

02:25:55,856 --> 02:25:57,925

Misrepre...

It-it was 12 years ago.

3037

02:25:57,958 --> 02:25:59,260

Can we hear this recording?

3038

02:25:59,293 --> 02:26:00,861

You don't have the clearance,
Mr. Garrison.

3039

02:26:00,894 --> 02:26:02,530

But you're reading it
into the record.

3040

02:26:02,564 --> 02:26:04,198

Please, please.

3041

02:26:04,231 --> 02:26:07,835

Is this proceeding interested
in entrapment or in truth?

3042

02:26:07,868 --> 02:26:10,304

If it's truth,
where's the disclosure?

3043

02:26:10,337 --> 02:26:11,972

Where's the witness list?

3044

02:26:12,006 --> 02:26:14,542

Mr. Garrison, this isn't
a trial, as you are well aware.

3045

02:26:14,576 --> 02:26:16,443

Evidentiary rules do not apply.

3046

02:26:16,477 --> 02:26:18,345

We are dealing
with national security.

3047

02:26:18,379 --> 02:26:19,880

Yes, sir, with all due respect,

3048

02:26:19,913 --> 02:26:22,283

I fail to see how

national security

3049

02:26:22,316 --> 02:26:24,018

prevents the prosecution

from providing us

3050

02:26:24,051 --> 02:26:26,053

-with a list of witnesses.

-Perhaps we are in need

3051

02:26:26,086 --> 02:26:27,388

-of a brief recess.

-ROBERT: Gentlemen,

3052

02:26:27,421 --> 02:26:29,156

you have my words.

3053

02:26:29,189 --> 02:26:31,325

If you say they're from a
transcript, then I'll accept it.

3054

02:26:31,358 --> 02:26:34,128

I've already explained
I made up a cock-and-bull story.

3055

02:26:34,161 --> 02:26:37,498

But why would anyone
make up such an elaborate story?

3056

02:26:37,532 --> 02:26:39,601

Because I was an idiot.

3057

02:26:39,634 --> 02:26:41,235

Why lie?

3058

02:26:41,268 --> 02:26:43,871

Well, clearly with
the intention of not revealing

3059

02:26:43,904 --> 02:26:45,973

who the intermediary was.

3060

02:26:46,006 --> 02:26:48,042

Your friend, Haakon Chevalier,
the Communist.

3061

02:26:48,075 --> 02:26:50,344

Is he still your friend?

3062

02:26:50,377 --> 02:26:51,812

Yes.

3063

02:26:53,914 --> 02:26:56,850

GARRISON:

Dr. Rabi, thank you for coming.

3064

02:26:56,884 --> 02:26:58,586

Do you know who else
the prosecution has called?

3065

02:26:58,620 --> 02:27:00,954

Teller, obviously.

3066

02:27:01,922 --> 02:27:03,190

They've asked Lawrence.

3067

02:27:03,223 --> 02:27:04,058

What did he say?

3068

02:27:04,091 --> 02:27:06,994

He wasn't going
to help them, but...

3069

02:27:07,027 --> 02:27:07,961

But?

3070

02:27:07,995 --> 02:27:09,997

Strauss told him that
you and Ruth Tolman

3071

02:27:10,030 --> 02:27:12,466

<i>have been having</i>
<i>an affair for years.</i>

3072

02:27:12,499 --> 02:27:13,601

<i>The whole time you lived</i>

3073

02:27:13,635 --> 02:27:15,269

-with them in Pasadena.

-(sighs)

3074

02:27:15,302 --> 02:27:16,970

He convinced Lawrence

3075

02:27:17,004 --> 02:27:18,573

that Richard died

of a broken heart.

3076

02:27:18,606 --> 02:27:19,907

That's absurd.

3077

02:27:19,940 --> 02:27:22,476

-What part?

-The broken heart.

3078

02:27:22,510 --> 02:27:24,546

Richard never found out.

3079

02:27:24,579 --> 02:27:26,347

Is Lawrence gonna testify?

3080

02:27:26,380 --> 02:27:27,881

I don't know.

3081

02:27:28,415 --> 02:27:30,050

GARRISON:

Dr. Rabi,

3082

02:27:30,084 --> 02:27:33,153

what governmental positions
do you currently hold?

3083

02:27:33,187 --> 02:27:36,090

I am the chairman of the
General Advisory Committee

3084

02:27:36,123 --> 02:27:39,026

to the AEC,
succeeding Dr. Oppenheimer.

3085

02:27:39,059 --> 02:27:41,895

GARRISON: And how long have
you known Dr. Oppenheimer?

3086

02:27:41,929 --> 02:27:43,531

Since 1928.

3087

02:27:43,565 --> 02:27:45,633

I... I know him quite well.

3088

02:27:45,667 --> 02:27:47,635

Well enough

to speak to the bearing

3089

02:27:47,669 --> 02:27:50,237

of his loyalty and character?

3090

02:27:50,270 --> 02:27:54,274

Dr. Oppenheimer is a man

of upstanding character.

3091

02:27:54,308 --> 02:27:56,977

And he is loyal

to the United States,

3092

02:27:57,010 --> 02:27:58,245

to his friends,

3093

02:27:58,278 --> 02:28:00,948

to the institutions

of which he is part.

3094

02:28:02,416 --> 02:28:03,450

Eat.

3095

02:28:06,353 --> 02:28:07,388

(scoffs)

3096

02:28:08,556 --> 02:28:11,158

(suspenseful music continues)

3097

02:28:22,436 --> 02:28:24,138

-ROBERT: What was that?

-(door closes)

3098

02:28:24,171 --> 02:28:26,206

RABI:

Nothing to worry about.

3099

02:28:28,442 --> 02:28:30,177

ROBB:

<i>After the Russian A-bomb test,</i>

3100

02:28:30,210 --> 02:28:32,680

did Dr. Lawrence come to see you
about the hydrogen bomb?

3101

02:28:32,714 --> 02:28:34,516

You'd be better off asking him.

3102

02:28:34,549 --> 02:28:36,083

Well, I fully intend to.

3103

02:28:36,116 --> 02:28:38,686

Would you say
that Dr. Oppenheimer was

3104

02:28:38,720 --> 02:28:40,722

unalterably opposed

to the H-bomb?

3105

02:28:40,755 --> 02:28:43,558

No, he-he thought that

a fusion program

3106

02:28:43,591 --> 02:28:46,694

would come at the expense of our

awfully good fission program.

3107

02:28:46,728 --> 02:28:48,563

But that proved

not to be the case.

3108

02:28:48,596 --> 02:28:51,231

In the event both could be done.

3109

02:28:51,265 --> 02:28:53,568

Suppose that this board

did not feel satisfied

3110

02:28:53,601 --> 02:28:54,736

that in his testimony here,

3111

02:28:54,769 --> 02:28:57,037

Dr. Oppenheimer had been
wholly truthful.

3112

02:28:57,070 --> 02:29:00,274

What would you say whether
or not he should be cleared?

3113

02:29:00,307 --> 02:29:02,209

Why go through
all this against a man

3114

02:29:02,242 --> 02:29:04,445

who has accomplished
what Dr. Oppenheimer has?

3115

02:29:04,478 --> 02:29:06,113

Look at his record.

3116

02:29:06,146 --> 02:29:08,215

We have an A-bomb
and a whole series of it.

3117

02:29:08,248 --> 02:29:10,184

We have a whole series
of Super bombs.

3118

02:29:10,217 --> 02:29:12,186

What more do you want?

3119

02:29:12,219 --> 02:29:13,086

Mermaids?

3120

02:29:13,120 --> 02:29:15,422

TELLER:

But I've known Secretary Strauss

3121

02:29:15,456 --> 02:29:17,057

for many years,

3122

02:29:17,090 --> 02:29:20,360

and I feel it a necessity
to express the warm support

3123

02:29:20,394 --> 02:29:23,063

for science and scientists

Lewis has shown.

3124

02:29:23,096 --> 02:29:24,331

We'll break now,

3125

02:29:24,364 --> 02:29:26,166

unless there's

any immediate business.

3126

02:29:26,200 --> 02:29:28,736

STRAUSS: Senator, I'd like

to once again request

3127

02:29:28,770 --> 02:29:31,438

that we're furnished

with a list of witnesses.

3128

02:29:31,472 --> 02:29:34,241

And I will remind the nominee

that we don't always

3129

02:29:34,274 --> 02:29:36,276

have that information
in advance.

3130

02:29:36,310 --> 02:29:39,747

We do know that Dr. Hill
will be here after lunch.

3131

02:29:39,781 --> 02:29:41,415

Mr. Chairman,
our next scheduled witness,

3132

02:29:41,448 --> 02:29:45,986

Dr. Lawrence, has apparently
come down with colitis.

3133

02:29:47,454 --> 02:29:50,357

So we'll proceed with
William Borden instead.

3134

02:29:51,626 --> 02:29:53,026

Mr. Borden, welcome.

3135

02:29:53,060 --> 02:29:54,529

Please take a seat.

3136

02:29:55,697 --> 02:29:58,098

Mr. Borden,

3137

02:29:58,131 --> 02:30:00,702

during your investigation
into Dr. Oppenheimer,

3138

02:30:00,735 --> 02:30:02,369

did you reach
certain conclusions?

3139

02:30:02,402 --> 02:30:04,706

-I did.

-And did there come a time

3140

02:30:04,739 --> 02:30:06,206

when you expressed
those conclusions

3141

02:30:06,240 --> 02:30:08,242

in a letter
to Mr. J. Edgar Hoover

3142

02:30:08,275 --> 02:30:10,210

of the Federal Bureau
of Investigation?

3143

02:30:10,244 --> 02:30:11,646

-BORDEN: That is correct.

-Prior to the writing

3144

02:30:11,679 --> 02:30:13,447

of the letter, did you discuss
the writing of the letter

3145

02:30:13,480 --> 02:30:15,783

with anybody attached to
the Atomic Energy Commission?

3146

02:30:15,817 --> 02:30:17,417

I did not.

3147

02:30:17,451 --> 02:30:18,786

ROBB: Thanks, and do you have
a copy of the letter?

3148

02:30:18,820 --> 02:30:20,420

BORDEN:

I have one in front of me.

3149

02:30:20,454 --> 02:30:22,557

Would you please be so kind
as to read it, sir?

3150

02:30:22,590 --> 02:30:24,124

BORDEN:

"Dear Mr. Hoover,

3151

02:30:24,157 --> 02:30:25,593

the purpose of this letter
is to state..."

3152

02:30:25,627 --> 02:30:27,662

GARRISON: Uh, I'm sorry,
I'm sorry, if I could have a...

3153

02:30:27,695 --> 02:30:30,063

What is the purpose
of the delay?

3154

02:30:30,097 --> 02:30:31,566

He's simply gonna
read the letter.

3155

02:30:31,599 --> 02:30:33,133

(scoffs) Mr. Chairman,

3156

02:30:33,166 --> 02:30:35,168

this is the first
I've seen of this letter,

3157

02:30:35,202 --> 02:30:36,470

and I see statements here, uh,

3158

02:30:36,503 --> 02:30:38,472

at least one,
of a kind that I don't think

3159

02:30:38,505 --> 02:30:40,474

anyone would like to see
go into the record.

3160

02:30:40,507 --> 02:30:43,277

These are accusations that have
not previously been made.

3161

02:30:43,310 --> 02:30:45,245

That are not part of
the indictment from Nichols.

3162

02:30:45,279 --> 02:30:47,414

Accusations of a kind that
I don't think belong here.

3163

02:30:47,447 --> 02:30:49,617

The witness wrote this letter
on his own initiative,

3164

02:30:49,651 --> 02:30:52,219

laying out evidence that has
already been before the board.

3165

02:30:52,252 --> 02:30:53,855

His conclusions
are valid testimony,

3166

02:30:53,888 --> 02:30:55,790

just like the...
the positive conclusions

3167

02:30:55,823 --> 02:30:57,157

of friends of Dr. Oppenheimer.

3168

02:30:57,190 --> 02:30:58,693

It cuts both ways.

3169

02:30:58,726 --> 02:31:01,161

How long has Counsel been
in possession of this letter?

3170

02:31:01,194 --> 02:31:02,564

I don't think
I should be subject

3171

02:31:02,597 --> 02:31:05,165

to cross-examination by you,
Mr. Garrison.

3172

02:31:05,198 --> 02:31:06,834

GRAY: Mr. Garrison,
given that we on the board

3173

02:31:06,868 --> 02:31:08,368

have all read the letter,

3174

02:31:08,402 --> 02:31:10,738

wouldn't it be better
to have it in the record?

3175

02:31:10,772 --> 02:31:12,239

Let's proceed.

3176

02:31:12,272 --> 02:31:14,207

(tense music playing)

3177

02:31:14,241 --> 02:31:15,710

BORDEN:

"Dear Mr. Hoover,

3178

02:31:15,743 --> 02:31:19,179

"the purpose of this letter
is to state my opinion

3179

02:31:19,212 --> 02:31:20,515

"based upon years of study

3180

02:31:20,548 --> 02:31:23,317

"of the available
classified evidence,

3181

02:31:23,350 --> 02:31:25,385

"that more probably than not,

3182

02:31:25,419 --> 02:31:30,290

"J. Robert Oppenheimer is
an agent of the Soviet Union.

3183

02:31:30,324 --> 02:31:32,660

"The following conclusions
are justified.

3184

02:31:32,694 --> 02:31:37,532

"One, between 1929 and 1942,
more probably than not,

3185

02:31:37,565 --> 02:31:38,866

"J. Robert Oppenheimer

3186

02:31:38,900 --> 02:31:41,201

"was a sufficiently
hardened Communist,

3187

02:31:41,234 --> 02:31:43,337

"that he volunteered
information to the Soviets.

3188

02:31:43,370 --> 02:31:45,707

"Two, more probably than not,

3189

02:31:45,740 --> 02:31:50,310

"he has since been functioning
as an espionage agent.

3190

02:31:50,344 --> 02:31:53,180

"Three, more probably than not,

3191

02:31:53,213 --> 02:31:55,449

"he has since acted

under a Soviet directive

3192

02:31:55,482 --> 02:31:58,218

in influencing United States

military policy..."

3193

02:31:58,251 --> 02:31:59,486

I'm sorry, Robert.

3194

02:31:59,520 --> 02:32:00,855

BORDEN:

"...atomic energy, intelligence

3195

02:32:00,888 --> 02:32:02,255

-and diplomatic policy."

-Is anyone

3196

02:32:02,289 --> 02:32:03,925

ever going to tell the truth

3197

02:32:03,958 --> 02:32:05,727

about what's happening here?

3198

02:32:05,760 --> 02:32:09,296

CHAIRMAN MAGNUSON: *We will now*

hear from Dr. David Hill.

3199

02:32:09,329 --> 02:32:11,733

(soft suspenseful music plays)

3200

02:32:18,539 --> 02:32:19,874

Dr. Hill,

3201

02:32:19,907 --> 02:32:22,543

would you care

to make a statement?

3202

02:32:23,678 --> 02:32:25,245

Thank you.

3203

02:32:25,278 --> 02:32:28,950

I've been asked to testify
about Lewis Strauss.

3204

02:32:28,983 --> 02:32:31,385

A man who has
given years of service

3205

02:32:31,418 --> 02:32:34,388

in high positions of government

3206

02:32:34,421 --> 02:32:39,359

and who is known to be earnest,
hardworking and intelligent.

3207

02:32:40,360 --> 02:32:41,863

The views I have to express
are my own,

3208

02:32:41,896 --> 02:32:45,600

but I believe that much I have
to say will help to indicate

3209

02:32:45,633 --> 02:32:49,336

why most of the scientists
in this country

3210

02:32:49,369 --> 02:32:52,372

would prefer to see Mr. Strauss

3211

02:32:52,406 --> 02:32:54,241

completely out of government.

3212

02:32:54,274 --> 02:32:56,243

(murmurs of surprise)

3213

02:32:56,276 --> 02:32:58,780

You're... You're referring
to the hostility

3214

02:32:58,813 --> 02:33:00,280

of certain scientists

3215

02:33:00,313 --> 02:33:01,949

directed toward Mr. Strauss

3216

02:33:01,983 --> 02:33:04,217

because of his commitment
to security

3217

02:33:04,251 --> 02:33:07,254

as demonstrated
in the Oppenheimer affair?

3218

02:33:09,724 --> 02:33:10,992

No.

3219

02:33:11,025 --> 02:33:13,427

Because of the personal
vindictiveness

3220

02:33:13,460 --> 02:33:15,697

he demonstrated against
Dr. Oppenheimer.

3221

02:33:15,730 --> 02:33:17,330

(people exclaiming)

3222

02:33:17,364 --> 02:33:19,499

-MAGNUSON: Order.

-(gavel banging)

3223

02:33:19,534 --> 02:33:20,568

Order!

3224

02:33:20,601 --> 02:33:25,873

It appears to most

scientists around this country

3225

02:33:25,907 --> 02:33:27,441

that Robert Oppenheimer

is now being

3226

02:33:27,474 --> 02:33:29,711

pilloried and put through

an ordeal

3227

02:33:29,744 --> 02:33:32,847

because he expressed

his honest opinions.

3228

02:33:33,848 --> 02:33:35,917

Dr. Bush, I thought

I was performing a service

3229

02:33:35,950 --> 02:33:37,685

to my country

when hearing this case.

3230

02:33:37,719 --> 02:33:41,856

No board in this country

should sit in judgment of a man

3231

02:33:41,889 --> 02:33:44,525

because he expressed

strong opinions.

3232

02:33:44,559 --> 02:33:47,628

If you want to try that case,

you should try me.

3233

02:33:47,662 --> 02:33:51,666

Excuse me, gentlemen,

if I become stirred,

3234

02:33:51,699 --> 02:33:52,900

but I am.

3235

02:33:52,934 --> 02:33:54,902

Dr. Hill, we've already heard

3236

02:33:54,936 --> 02:33:57,370

that Mr. Strauss

did not bring the charges

3237

02:33:57,404 --> 02:34:00,474

or participate in the hearings

against Dr. Oppenheimer.

3238

02:34:00,507 --> 02:34:03,010

The Oppenheimer matter was

3239

02:34:03,044 --> 02:34:05,412

initiated and carried through

3240

02:34:05,445 --> 02:34:07,815

largely through the animus

of Lewis Strauss.

3241

02:34:07,849 --> 02:34:09,382

(people exclaim)

3242

02:34:09,416 --> 02:34:12,053

Oppenheimer made mincemeat
out of Strauss's position

3243

02:34:12,086 --> 02:34:13,688

on the shipment
of isotopes to Norway,

3244

02:34:13,721 --> 02:34:17,725

and Strauss never forgave him
this public humiliation.

3245

02:34:17,759 --> 02:34:20,360

Another controversy between them
centered around

3246

02:34:20,393 --> 02:34:23,363

their differences in judgment

on how the H-bomb

3247

02:34:23,396 --> 02:34:25,465

<i>would contribute</i>

<i>to national security.</i>

3248

02:34:25,499 --> 02:34:27,467

Strauss turned to

the personnel security system

3249

02:34:27,501 --> 02:34:31,739

in order to destroy

Oppenheimer's effectiveness,

3250

02:34:31,773 --> 02:34:34,307

and Strauss was able to find

a few ambitious men

3251

02:34:34,341 --> 02:34:37,377

who also disagreed

with Oppenheimer's positions

3252

02:34:37,410 --> 02:34:40,447

and envied him his prestige
in government circles.

3253

02:34:40,480 --> 02:34:43,084

TELLER: I've always assumed,
and still assume,

3254

02:34:43,117 --> 02:34:45,352

that he's loyal
to the United States.

3255

02:34:45,385 --> 02:34:46,788

I believe this.

And I shall believe it

3256

02:34:46,821 --> 02:34:49,389

until I see very conclusive
proof to the opposite.

3257

02:34:49,422 --> 02:34:51,391

Do you or do you not believe

3258

02:34:51,424 --> 02:34:53,728

that Dr. Oppenheimer
is a security risk?

3259

02:34:54,729 --> 02:34:55,830

(smacks lips)

3260

02:34:57,464 --> 02:34:58,733

In a great number of cases,

3261

02:34:58,766 --> 02:35:00,735

I have seen Dr. Oppenheimer
act in a way

3262

02:35:00,768 --> 02:35:04,639

which was to me
exceedingly hard to understand.

3263

02:35:04,672 --> 02:35:06,674

I thoroughly disagreed
with him in numerous issues,

3264

02:35:06,707 --> 02:35:08,810

and his actions frankly

appeared to me

3265

02:35:08,843 --> 02:35:10,377

confused and complicated.

3266

02:35:10,410 --> 02:35:11,946

To this extent, I feel,

3267

02:35:11,979 --> 02:35:15,082

I want to see the vital
interest of this country

3268

02:35:15,116 --> 02:35:16,951

in hands which
I understand better

3269

02:35:16,984 --> 02:35:19,120

and therefore trust more.

3270

02:35:19,153 --> 02:35:21,923

-MORGAN: Thank you, Doctor.

-ROBB: Thank you.

3271

02:35:25,726 --> 02:35:26,828

I'm sorry.

3272

02:35:29,462 --> 02:35:31,632

KITTY:

<i>You shook his fucking hand?</i>

3273

02:35:31,666 --> 02:35:34,569

Oh, I would have

spit in his face.

3274

02:35:34,602 --> 02:35:36,137

Not sure the board

would have appreciated that.

3275

02:35:36,170 --> 02:35:37,738

KITTY: Is it not

gentlemanly enough for you?

3276

02:35:37,772 --> 02:35:41,108

Well, I-I think you're all being

too goddamn gentlemanly.

3277

02:35:41,142 --> 02:35:43,110

Gray must see
what Robb is doing.

3278

02:35:43,144 --> 02:35:45,079

Why doesn't he just
shut him down?

3279

02:35:45,112 --> 02:35:47,715

And you shaking Teller's hand.

3280

02:35:47,748 --> 02:35:50,618

You need to stop
playing the martyr.

3281

02:35:51,619 --> 02:35:54,021

Under the current
AEC guidelines,

3282

02:35:54,055 --> 02:35:56,456

would you clear
Dr. Oppenheimer today?

3283

02:35:56,489 --> 02:35:58,793

(unnerving music playing)

3284

02:36:02,630 --> 02:36:04,999

Under my interpretation (sighs)

3285

02:36:05,032 --> 02:36:07,168

of the Atomic Energy Act,

3286

02:36:07,201 --> 02:36:09,036

which did not exist

3287

02:36:09,070 --> 02:36:11,906

when I hired

Dr. Oppenheimer in 1942...

3288

02:36:13,140 --> 02:36:16,544

I would not clear him today,

3289

02:36:16,577 --> 02:36:18,546

uh, if I were on the commission.

3290

02:36:18,579 --> 02:36:20,147

ROBB: Good. Thank you, General.

That is all.

3291

02:36:20,181 --> 02:36:22,183

But I don't think I'd clear

any of those guys.

3292

02:36:22,216 --> 02:36:24,384

That's all.

3293

02:36:26,888 --> 02:36:29,023

GARRISON: Dr. Oppenheimer

had no responsibility

3294

02:36:29,056 --> 02:36:30,558

in the selection

or the clearance

3295

02:36:30,591 --> 02:36:31,893

of Klaus Fuchs, did he?

3296

02:36:31,926 --> 02:36:33,194

No. None at all.

3297

02:36:33,227 --> 02:36:34,829

And you wouldn't want
to leave this board

3298

02:36:34,862 --> 02:36:37,632

with any suggestion today
that you're here questioning

3299

02:36:37,665 --> 02:36:39,700

his basic loyalty
to the United States

3300

02:36:39,734 --> 02:36:41,135

in the operation of Los Alamos?

3301

02:36:41,168 --> 02:36:42,737

By no means.

3302

02:36:42,770 --> 02:36:44,772

I hope I didn't lead anyone

to believe otherwise

3303

02:36:44,805 --> 02:36:46,439

for an instant.

3304

02:36:46,473 --> 02:36:47,575

GRAY:

Thank you, General.

3305

02:36:47,608 --> 02:36:50,645

(wistful music playing)

3306

02:37:05,626 --> 02:37:07,895

Okay. We shouldn't

keep them waiting.

3307

02:37:07,929 --> 02:37:09,196

She'll be here.

3308

02:37:09,230 --> 02:37:10,665

Do you even want her here?

3309

02:37:10,698 --> 02:37:13,200

Only a fool or an adolescent

3310

02:37:13,234 --> 02:37:15,136

presumes to know

someone else's relationship,

3311

02:37:15,169 --> 02:37:17,470

and you're neither, Lloyd.

3312

02:37:17,504 --> 02:37:19,006

(door shuts)

3313

02:37:19,040 --> 02:37:21,008

Kitty and I,

3314

02:37:21,042 --> 02:37:23,110

we're grown-ups.

3315

02:37:23,144 --> 02:37:25,980

<i>We've walked</i>

<i>through fire together.</i>

3316

02:37:26,013 --> 02:37:28,582

She'll do fine.

3317

02:37:28,616 --> 02:37:30,685

GARRISON: Would you describe
your views on Communism

3318

02:37:30,718 --> 02:37:32,753

as pro, anti, neutral?

3319

02:37:32,787 --> 02:37:34,655

KITTY:

Very strongly against.

3320

02:37:34,689 --> 02:37:36,824

I-I've had nothing to do
with Communism in... since...

3321

02:37:36,857 --> 02:37:39,694

since 1936, since...

3322

02:37:39,727 --> 02:37:42,596

since before I met Robert.

3323

02:37:43,197 --> 02:37:45,032

That's all.

3324

02:37:45,066 --> 02:37:46,634

HILL:

<i>The record demonstrates</i>

3325

02:37:46,667 --> 02:37:48,269

<i>that Oppenheimer</i>

<i>was not interrogated</i>

3326

02:37:48,302 --> 02:37:51,539

<i>by impartial and disinterested</i>

<i>counsel for the Gray board.</i>

3327

02:37:51,572 --> 02:37:52,974

<i>He was interrogated</i>

<i>by a prosecutor</i>

3328

02:37:53,007 --> 02:37:54,675

<i>who used all the tricks</i>

3329

02:37:54,709 --> 02:37:56,510

<i>of a rather ingenious</i>

<i>legal background.</i>

3330

02:37:56,544 --> 02:37:57,979

SENATOR SCOTT:

You are charging now

3331

02:37:58,012 --> 02:38:00,982

that the Gray board

permitted a prosecution.

3332

02:38:01,015 --> 02:38:03,718

If I were on the Gray board,

3333

02:38:03,751 --> 02:38:05,720

I would have protested

against the tactics

3334

02:38:05,753 --> 02:38:08,656

of the man who served, in fact,

as the prosecuting counsel.

3335

02:38:08,689 --> 02:38:11,892

A man appointed not by the board

3336

02:38:11,926 --> 02:38:13,995

but by Lewis Strauss.

3337

02:38:14,028 --> 02:38:15,963

(people exclaim)

3338

02:38:15,997 --> 02:38:17,031

Who was this?

3339

02:38:18,332 --> 02:38:20,167

I'm sorry?

3340

02:38:20,201 --> 02:38:21,268

Who was this?

3341

02:38:21,302 --> 02:38:22,737

Uh, Roger Robb.

3342

02:38:22,770 --> 02:38:25,106

-(chair scrapes)

-Mrs. Oppenheimer.

3343

02:38:27,041 --> 02:38:29,276

(pensive music playing)

3344

02:38:29,310 --> 02:38:31,746

Did you have a Communist Party
membership card?

3345

02:38:33,180 --> 02:38:35,282

I'm... I'm not sure.

3346

02:38:35,316 --> 02:38:36,817

ROBB:

Not sure?

3347

02:38:39,787 --> 02:38:40,788

Well...

3348

02:38:43,190 --> 02:38:44,925

-(sighs)

-ROBB: Well?

3349

02:38:53,868 --> 02:38:56,837

I mean, presumably,
the act of joining the Party

3350

02:38:56,871 --> 02:39:00,641

required sending some money
and receiving a card, no?

3351

02:39:03,811 --> 02:39:04,945

Yeah.

3352

02:39:08,015 --> 02:39:09,717

(sighs)

3353

02:39:10,317 --> 02:39:11,719

(softly):

Sorry.

3354

02:39:12,353 --> 02:39:13,954

ROBB:

Yes. Mm.

3355

02:39:15,790 --> 02:39:17,792

It's just it was all

so very long ago,

3356

02:39:17,825 --> 02:39:19,660

-Mr. Robb, wasn't it?

-Not really.

3357

02:39:19,693 --> 02:39:20,928

Long enough to have forgotten.

3358

02:39:20,961 --> 02:39:22,329

Did you return the card

or rip it up?

3359

02:39:22,363 --> 02:39:23,964

The card whose existence

I've forgotten?

3360

02:39:23,998 --> 02:39:25,800

Your Communist Party

membership card.

3361

02:39:25,833 --> 02:39:27,568

Haven't the slightest idea.

3362

02:39:29,870 --> 02:39:32,640

Can a distinction
be made between

3363

02:39:32,673 --> 02:39:34,341

Soviet Communism and Communism?

3364

02:39:34,375 --> 02:39:35,943

Well, in the days
when I was a member,

3365

02:39:35,976 --> 02:39:37,611

I thought they were
definitely two things.

3366

02:39:37,645 --> 02:39:38,913

-Oh?

-I thought that

3367

02:39:38,946 --> 02:39:40,815

the Communist Party
of the United States

3368

02:39:40,848 --> 02:39:43,250

was concerned with
our domestic problems.

3369

02:39:43,284 --> 02:39:44,752

I now no longer believe this.

3370

02:39:44,785 --> 02:39:45,820

Believe the whole thing's
linked together

3371

02:39:45,853 --> 02:39:47,121

and spread all over the world,

3372

02:39:47,154 --> 02:39:49,356

and I have believed this
since I left the Party

3373

02:39:49,390 --> 02:39:50,858

16 years ago.

3374

02:39:50,891 --> 02:39:52,193

-But...

-Seventeen years ago.

3375

02:39:52,226 --> 02:39:53,627

My mistake.

3376

02:39:53,661 --> 02:39:56,297

-But you said...

-Sorry, 18.

3377

02:39:56,330 --> 02:39:58,599

Eighteen years ago.

3378

02:39:59,400 --> 02:40:00,701

ROBB:

Are you familiar with the fact

3379

02:40:00,734 --> 02:40:01,902

your husband was
making contributions

3380

02:40:01,936 --> 02:40:05,005

to the Spanish Civil War
as late as 1942?

3381

02:40:05,039 --> 02:40:06,907

I knew that Robert gave money
from time to time.

3382

02:40:06,941 --> 02:40:08,175

Did you know
this money was going

3383

02:40:08,209 --> 02:40:09,643

into Communist Party channels?

3384

02:40:09,677 --> 02:40:11,112

Don't you mean "through"?

3385

02:40:11,145 --> 02:40:12,913

-Pardon?

-I think you mean

3386

02:40:12,947 --> 02:40:14,748

"through Communist Party
channels," don't you?

3387

02:40:14,782 --> 02:40:16,016

-Y-Yes!

-Yes?

3388

02:40:16,050 --> 02:40:17,952

-Yes!

-KITTY: Yes.

3389

02:40:17,985 --> 02:40:21,689

Then would it be fair to say
that this meant that by 1942,

3390

02:40:21,722 --> 02:40:23,023

your husband had not stopped

3391

02:40:23,057 --> 02:40:24,992

having anything to do

with the Communist Party?

3392

02:40:25,025 --> 02:40:26,827

You don't have

to answer that yes or no.

3393

02:40:26,861 --> 02:40:28,229

You can answer that

any way you wish.

3394

02:40:28,262 --> 02:40:30,131

I know that, thank you.

3395

02:40:30,164 --> 02:40:31,866

It's your question.

3396

02:40:31,899 --> 02:40:33,801

-It's not properly phrased.

-Do you understand

3397

02:40:33,834 --> 02:40:35,069

-what I'm getting at?

-I do.

3398

02:40:35,102 --> 02:40:36,370

Then why don't you
answer it that way?

3399

02:40:36,403 --> 02:40:38,005

'Cause I don't like your phrase.

3400

02:40:38,038 --> 02:40:39,974

"Having anything to do
with the Communist Party."

3401

02:40:40,007 --> 02:40:41,809

Because Robert never
had anything to do

3402

02:40:41,842 --> 02:40:43,144

with the Communist Party
as such.

3403

02:40:43,177 --> 02:40:45,813

I know he gave money
to Spanish refugees.

3404

02:40:45,846 --> 02:40:47,781

I know he took
an intellectual interest

3405

02:40:47,815 --> 02:40:49,016

in Communist ideas...

3406

02:40:49,049 --> 02:40:50,151

Are there two types
of Communists?

3407

02:40:50,184 --> 02:40:51,886

Intellectual Communists

3408

02:40:51,919 --> 02:40:53,854

and your plain old
regular Commie?

3409

02:40:53,888 --> 02:40:54,822

(laughs)

3410

02:40:54,855 --> 02:40:56,423

Well, I couldn't
answer that one.

3411

02:40:56,457 --> 02:40:59,226

EVANS:

(laughs) I couldn't either.

3412

02:41:05,366 --> 02:41:07,168

GARRISON:

Evening.

3413

02:41:07,201 --> 02:41:08,936

VOLPE: Robert,
you can't win this thing.

3414

02:41:08,969 --> 02:41:10,905

It's a kangaroo court
with a predetermined outcome.

3415

02:41:10,938 --> 02:41:12,873

Why put yourself
through more of it?

3416

02:41:13,474 --> 02:41:15,910

I have my reasons.

3417

02:41:16,511 --> 02:41:17,945

All right.

3418

02:41:17,978 --> 02:41:19,113

Good night.

3419

02:41:23,817 --> 02:41:25,219

He has a point.

3420

02:41:26,153 --> 02:41:28,189

I'm not sure

you understand, Albert.

3421

02:41:28,222 --> 02:41:29,323

EINSTEIN:

No?

3422

02:41:29,356 --> 02:41:32,860

I left my country

never to return.

3423

02:41:33,494 --> 02:41:35,462

You served your country well.

3424

02:41:35,496 --> 02:41:39,133

If this is the reward

she offers you, then...

3425

02:41:39,166 --> 02:41:42,803

perhaps you should

turn your back on her.

3426

02:41:42,836 --> 02:41:45,472

Damn it, I happen

to love this country.

3427

02:41:45,506 --> 02:41:48,108

Then tell them to go to hell.

3428

02:41:48,142 --> 02:41:49,043

Interestingly enough,

3429

02:41:49,076 --> 02:41:52,146

this is no longer

a confirmation hearing,

3430

02:41:52,179 --> 02:41:54,348

it's now a trial...

3431

02:41:54,381 --> 02:41:56,116

about a trial!

3432

02:41:57,117 --> 02:41:58,419

It's not good

he's telling everyone

3433

02:41:58,452 --> 02:41:59,753

you initiated the hearings.

3434

02:41:59,787 --> 02:42:02,156

He can't prove a goddamn thing.

3435

02:42:02,189 --> 02:42:04,858

He certainly can't prove

that I gave the file to Borden.

3436

02:42:04,892 --> 02:42:07,228

We're not in court, sir.

3437

02:42:07,261 --> 02:42:08,462

There's no burden of proof.

3438

02:42:08,495 --> 02:42:10,864

Right. They're not convicting...

3439

02:42:10,898 --> 02:42:12,166

(sighs) just denying.

3440

02:42:12,199 --> 02:42:15,102

Why would Hill come here

to tear me down?

3441

02:42:15,135 --> 02:42:16,770

What's his angle?

3442

02:42:16,804 --> 02:42:18,906

Do people need a reason
to do the right thing?

3443

02:42:18,939 --> 02:42:20,542

-As he sees it.

-I told you,

3444

02:42:20,575 --> 02:42:23,244

Oppenheimer poisoned
the scientists against me,

3445

02:42:23,277 --> 02:42:24,979

right from that first meeting.

3446

02:42:25,012 --> 02:42:28,249

<i>I don't know what Oppenheimer</i>

<i>said to him that day,</i>

3447

02:42:28,282 --> 02:42:31,018

but Einstein wouldn't
even meet my eye.

3448

02:42:31,051 --> 02:42:32,086

(inaudible)

3449

02:42:32,119 --> 02:42:35,222

<i>Oppenheimer knows</i>

<i>how to manipulate his own.</i>

3450

02:42:35,256 --> 02:42:36,524

And at Los Alamos,

3451

02:42:36,558 --> 02:42:38,892

he preyed

on the naivete of scientists

3452

02:42:38,926 --> 02:42:41,228

who thought they'd get a say

in how we used their work,

3453

02:42:41,262 --> 02:42:44,265

but don't ever think

he was that naive himself.

3454

02:42:44,298 --> 02:42:45,567

ROBB:

Doctor.

3455

02:42:45,600 --> 02:42:47,569

During your work
on the hydrogen bomb,

3456

02:42:47,602 --> 02:42:51,272

were you deterred
by any moral qualms?

3457

02:42:51,305 --> 02:42:52,940

Yes, of course.

3458

02:42:52,973 --> 02:42:54,275

ROBB: But you still got on
with your work, didn't you?

3459

02:42:54,308 --> 02:42:56,544

Yes, because this was
work of exploration,

3460

02:42:56,578 --> 02:42:58,812

it was not the preparation

of a weapon.

3461

02:42:58,846 --> 02:43:00,914

You mean it was more of a...
an academic excursion.

3462

02:43:00,948 --> 02:43:02,850

No, it is not an academic thing

3463

02:43:02,883 --> 02:43:04,285

whether you can build
a hydrogen bomb.

3464

02:43:04,318 --> 02:43:05,919

It's a matter of life and death.

3465

02:43:05,953 --> 02:43:07,321

By 1942, you were
actively pushing

3466

02:43:07,354 --> 02:43:08,922

the development of
the hydrogen bomb, weren't you?

3467

02:43:08,956 --> 02:43:10,190

Pushing's not the right word.

3468

02:43:10,224 --> 02:43:12,159

Supporting it

and working on it, yes.

3469

02:43:12,192 --> 02:43:14,529

So when did these moral qualms

become so strong

3470

02:43:14,562 --> 02:43:16,196

that you actively opposed

3471

02:43:16,230 --> 02:43:17,898

the development

of the hydrogen bomb?

3472

02:43:17,931 --> 02:43:19,900

When it was suggested

that it be the policy

3473

02:43:19,933 --> 02:43:22,102

of the United States to make
these things at all cost

3474

02:43:22,136 --> 02:43:24,138

without regard to the balance
between these weapons

3475

02:43:24,171 --> 02:43:27,241

and atomic weapons
as part of our arsenal.

3476

02:43:28,610 --> 02:43:30,545

What do moral qualms
have to do with that?

3477

02:43:30,578 --> 02:43:32,614

Wha... What do moral qualms

3478

02:43:32,647 --> 02:43:34,181

-have to do with it?

-ROBB: Yes.

3479

02:43:34,214 --> 02:43:36,283

Oppenheimer wanted
to own the atomic bomb.

3480

02:43:36,317 --> 02:43:38,218

He wanted to be the man
who moved the Earth.

3481

02:43:38,252 --> 02:43:41,422

He talks about
putting the nuclear genie

3482

02:43:41,455 --> 02:43:42,923

back in the bottle.

3483

02:43:42,956 --> 02:43:44,091

Well, I'm here to tell you

3484

02:43:44,124 --> 02:43:46,327

that I know
J. Robert Oppenheimer,

3485

02:43:46,360 --> 02:43:50,464

and if he could do it all over,
he'd do it all the same.

3486

02:43:50,497 --> 02:43:53,535

You know he's never once said
that he regrets Hiroshima?

3487

02:43:53,568 --> 02:43:56,437

He'd do it all over. Why?

3488

02:43:56,470 --> 02:43:57,905

Because it made him

3489

02:43:57,938 --> 02:43:59,574

the most important man
who ever lived.

3490

02:43:59,607 --> 02:44:01,942

(voice quivering):

Well, we've...

3491

02:44:01,975 --> 02:44:04,078

we've freely used
the atomic bomb...

3492

02:44:04,111 --> 02:44:06,213

ROBB: In fact, Doctor,
you assisted in selecting

3493

02:44:06,246 --> 02:44:07,649

the target to drop
the atomic bomb on Japan,

3494

02:44:07,682 --> 02:44:09,350

-didn't you?

-Yes.

3495

02:44:09,383 --> 02:44:11,018

ROBB: Well, then you knew,
did you not, that by dropping

3496

02:44:11,051 --> 02:44:13,220

that atomic bomb
on the target you selected,

3497

02:44:13,253 --> 02:44:14,656

that thousands of civilians
would be killed

3498

02:44:14,689 --> 02:44:16,423

or injured, is that correct?

3499

02:44:16,457 --> 02:44:18,359

Yes, not as many
as turned out...

3500

02:44:18,392 --> 02:44:20,595

Oh. Well, how many
were killed or injured?

3501

02:44:20,628 --> 02:44:22,496

-70,000.

-ROBB: 70,000

3502

02:44:22,530 --> 02:44:23,598

at both Hiroshima and...

3503

02:44:23,631 --> 02:44:25,065

110,000 at both.

3504

02:44:25,099 --> 02:44:26,500

ROBB:

On the day of each bombing?

3505

02:44:26,534 --> 02:44:28,435

(tense music playing)

3506

02:44:28,469 --> 02:44:29,637

Yes.

3507

02:44:29,671 --> 02:44:31,238

And in the weeks

and years that followed?

3508

02:44:31,271 --> 02:44:33,974

It has been put at somewhere
between 50 and 100,000.

3509

02:44:34,007 --> 02:44:36,110

-220,000 dead at least?

-ROBERT: Yes.

3510

02:44:36,143 --> 02:44:38,045

Any moral scruples about that?

3511

02:44:39,413 --> 02:44:40,515

Terrible ones.

3512

02:44:40,548 --> 02:44:42,116

But yet you testified in here

3513

02:44:42,149 --> 02:44:44,519

that the bombing of Hiroshima
was very successful.

3514

02:44:44,552 --> 02:44:46,120

-Technically successful.

-ROBB: Oh!

3515

02:44:46,153 --> 02:44:47,921

Technically, it was
very successful.

3516

02:44:47,955 --> 02:44:49,423

And it is also alleged
to have helped end the war.

3517

02:44:49,456 --> 02:44:51,425

Would you have been
in support of the dropping

3518

02:44:51,458 --> 02:44:53,394

of a hydrogen bomb on Hiroshima?

3519

02:44:53,427 --> 02:44:54,962

That would make no sense at all.

3520

02:44:54,995 --> 02:44:57,431

-Why?

-The-the target is too small.

3521

02:44:57,464 --> 02:44:59,967

Well, supposing there had been
a target in Japan

3522

02:45:00,000 --> 02:45:01,468

big enough for
a thermonuclear weapon,

3523

02:45:01,502 --> 02:45:03,270

would you have been opposed
to the dropping of it?

3524

02:45:03,303 --> 02:45:05,139

This was not a problem
with which I was confronted...

3525

02:45:05,172 --> 02:45:06,608

Well, I'm confronting you
with it now, sir.

3526

02:45:06,641 --> 02:45:08,409

It was all part of his plan.

3527

02:45:08,442 --> 02:45:10,010

He wanted the glorious,

3528

02:45:10,043 --> 02:45:12,212

insincere guilt

of the self-important

3529

02:45:12,246 --> 02:45:13,715

to wear like a fuckin' crown.

3530

02:45:13,748 --> 02:45:17,184

Say, "No, we cannot
go down this road,"

3531

02:45:17,217 --> 02:45:20,020

even as he knew we'd have to.

3532

02:45:20,053 --> 02:45:21,589

Would you have been opposed
to the dropping

3533

02:45:21,623 --> 02:45:23,290

of a thermonuclear weapon
on Japan

3534

02:45:23,323 --> 02:45:25,560

-because of moral scruples?

-Yes, I believe I would, sir.

3535

02:45:25,593 --> 02:45:27,294

Well, did you oppose
the dropping

3536

02:45:27,327 --> 02:45:29,329

of an atomic bomb on Hiroshima
because of moral scruples?

3537

02:45:29,363 --> 02:45:30,998

-We set forth our arguments...
-(tense music building)

3538

02:45:31,031 --> 02:45:32,433

No, you, you, you.
I'm asking you.

3539

02:45:32,466 --> 02:45:34,101

-I set... I set forth...
-ROBB: Not we. You, you, you!

3540

02:45:34,134 --> 02:45:35,737

...our arguments

against dropping it,

3541

02:45:35,770 --> 02:45:37,304

but I did not endorse them.

3542

02:45:37,337 --> 02:45:39,039

You mean after

working night and day

3543

02:45:39,072 --> 02:45:40,441

for three years

building the bomb,

3544

02:45:40,474 --> 02:45:42,309

you then argued against

the use of it? (laughs)

3545

02:45:42,342 --> 02:45:45,045

I was asked

by the Secretary of War

3546

02:45:45,078 --> 02:45:46,447

what the views

of scientists were.

3547

02:45:46,480 --> 02:45:49,216

I gave him the views against
and the views for.

3548

02:45:49,249 --> 02:45:51,251

You supported the dropping
of the atom bomb on Japan.

3549

02:45:51,285 --> 02:45:52,754

-What do you mean "support"?

-ROBB: Didn't you?

3550

02:45:52,787 --> 02:45:54,254

-You supported it!

-What do you mean "support"?

3551

02:45:54,288 --> 02:45:55,623

Well, you helped
pick the target, didn't you?

3552

02:45:55,657 --> 02:45:57,291

-(muffled rumbling)

-I did my job.

3553

02:45:57,324 --> 02:45:59,059

I was not in a policy-making
position at Los Alamos.

3554

02:45:59,092 --> 02:46:00,728

I would have done anything
I was asked to do.

3555

02:46:00,762 --> 02:46:03,030

Well, then you would have
built the H-bomb too,

3556

02:46:03,063 --> 02:46:04,198

-wouldn't you?

-I couldn't.

3557

02:46:04,231 --> 02:46:06,133

I didn't ask you that, Doctor!

3558

02:46:06,166 --> 02:46:08,502

And the GAC report
which you co-authored

3559

02:46:08,536 --> 02:46:10,404

after the Soviet
atomic test said

3560

02:46:10,437 --> 02:46:13,106

a Super bomb
should never be built!

3561

02:46:13,140 --> 02:46:14,475

What we meant,
what I meant was...

3562

02:46:14,508 --> 02:46:16,578

-ROBB: What you, who? Who?
-What I meant...

3563

02:46:16,611 --> 02:46:18,312

(tense music continues)

3564

02:46:18,345 --> 02:46:19,781

And wouldn't the Russians
do anything

3565

02:46:19,814 --> 02:46:22,082

-to increase their strength?

-(music stops)

3566

02:46:22,115 --> 02:46:24,084

(raises voice): If we did it,
they would have to do it.

3567

02:46:24,117 --> 02:46:26,153

Our efforts would only
fuel their efforts,

3568

02:46:26,186 --> 02:46:28,288

just as it had
with the atomic bomb.

3569

02:46:28,322 --> 02:46:31,726

"Just as it had with
the atomic bomb," exactly!

3570

02:46:31,759 --> 02:46:36,497

No moral scruples in 1945,
plenty in 1949.

3571

02:46:40,635 --> 02:46:42,469

GRAY:

Dr. Oppenheimer...

3572

02:46:44,137 --> 02:46:46,741

...when did your strong
moral convictions develop

3573

02:46:46,774 --> 02:46:49,577

with respect
to the hydrogen bomb?

3574

02:46:56,618 --> 02:46:59,521

When it became clear to me

3575

02:46:59,554 --> 02:47:03,190

that we would tend to use
any weapon we had.

3576

02:47:05,627 --> 02:47:08,128

STRAUSS: *<i>J. Robert Oppenheimer,</i>
<i>the martyr.</i>*

3577

02:47:08,161 --> 02:47:10,765

I gave him exactly
what he wanted.

3578

02:47:10,798 --> 02:47:13,066

To be remembered for Trinity,

3579

02:47:13,100 --> 02:47:15,703

not Hiroshima,

3580

02:47:15,737 --> 02:47:18,171

not Nagasaki.

3581

02:47:20,708 --> 02:47:23,410

He should be thanking me.

3582

02:47:23,443 --> 02:47:26,380

Well, he's not.

3583

02:47:26,413 --> 02:47:28,181

(huffs)

3584

02:47:28,215 --> 02:47:29,817

Do we still have enough votes,

3585

02:47:29,851 --> 02:47:31,519

or is the crowning moment

of my career

3586

02:47:31,553 --> 02:47:35,690

about to become the most public

humiliation of my life?

3587

02:47:35,723 --> 02:47:38,292

Full Senate's about to vote.

3588

02:47:38,325 --> 02:47:39,493

You'll scrape through.

3589

02:47:39,527 --> 02:47:41,161

Great, then gather

the fucking press.

3590

02:47:41,194 --> 02:47:43,163

GRAY:

Dr. J. Robert Oppenheimer.

3591

02:47:43,196 --> 02:47:46,166

This board, having heard
testimony from you

3592

02:47:46,199 --> 02:47:49,336

and many of your current
and former colleagues,

3593

02:47:49,369 --> 02:47:51,371

has come to
the unanimous conclusion

3594

02:47:51,405 --> 02:47:54,508

that you are a loyal citizen.

3595

02:47:55,810 --> 02:47:57,444

However,

3596

02:47:57,477 --> 02:48:01,114

in the light of

your continuing associations

3597

02:48:01,148 --> 02:48:02,416

and disregard

3598

02:48:02,449 --> 02:48:04,586

for the security apparatus

of this country,

3599

02:48:04,619 --> 02:48:08,155

together with your

somewhat disturbing conduct

3600

02:48:08,188 --> 02:48:10,725

on the hydrogen bomb program

3601

02:48:10,758 --> 02:48:12,292

and the regrettable

lack of candor

3602

02:48:12,326 --> 02:48:14,696

in certain of your responses
to this board,

3603

02:48:14,729 --> 02:48:17,599

we have voted two to one

3604

02:48:17,632 --> 02:48:20,735

to deny the renewal
of your security clearance.

3605

02:48:20,768 --> 02:48:23,871

A full written opinion,
with a dissent from Mr. Evans,

3606

02:48:23,905 --> 02:48:27,407

will be issued to the AEC
in the coming days.

3607

02:48:27,441 --> 02:48:29,109

That is all.

3608

02:48:32,880 --> 02:48:34,214

-ROBB: Gordon...

-GORDON: Roger.

3609

02:48:34,247 --> 02:48:36,116

(indistinct exchange)

3610

02:48:39,252 --> 02:48:41,154

KITTY:

<i>Robert.</i>

3611

02:48:41,789 --> 02:48:43,323

(on phone):

Robert.

3612

02:48:45,793 --> 02:48:47,294

Don't...

3613

02:48:49,664 --> 02:48:52,867

Don't take in the sheets.

(breathes heavily)

3614

02:48:52,900 --> 02:48:54,234

(clamoring)

3615

02:48:54,267 --> 02:48:55,670

REPORTER:

Get a picture with him.

3616

02:48:55,703 --> 02:48:56,938

REPORTERS:

Sir, sir.

3617

02:48:56,971 --> 02:48:59,439

SENATE AIDE:

Two minutes. Two minutes.

3618

02:48:59,473 --> 02:49:00,675

-You'll get your shot.

-REPORTER 1: Please, sir.

3619

02:49:00,708 --> 02:49:02,275

We've been waiting for so long.

3620

02:49:02,309 --> 02:49:03,310

-REPORTER 2: Evening, sir.

-REPORTER 3: Come out.

3621

02:49:03,343 --> 02:49:04,378

REPORTER 4:

Sir, sir!

3622

02:49:04,411 --> 02:49:05,747

STRAUSS:

Is it official?

3623

02:49:07,849 --> 02:49:09,249

SENATE AIDE:

Well, there were,

3624

02:49:09,282 --> 02:49:12,419

uh, a couple

of unexpected holdouts.

3625

02:49:12,452 --> 02:49:14,589

(solemn music playing)

3626

02:49:16,858 --> 02:49:19,527

I'm denied. Yeah?

3627

02:49:19,560 --> 02:49:21,529

-I'm afraid so, sir.

-All right.

3628

02:49:29,236 --> 02:49:30,303

Who were the holdouts?

3629

02:49:30,337 --> 02:49:33,273

Um, there were three,

3630

02:49:33,306 --> 02:49:36,243

led by the junior senator

from Massachusetts.

3631

02:49:36,276 --> 02:49:37,679

Young guy trying

to make a name for himself,

3632

02:49:37,712 --> 02:49:40,280

didn't like what you did

to Oppenheimer.

3633

02:49:40,313 --> 02:49:41,448

What's his name?

3634

02:49:41,481 --> 02:49:43,685

Uh, Kennedy.

3635

02:49:43,718 --> 02:49:45,520

John F. Kennedy.

3636

02:49:48,990 --> 02:49:50,390

Kitty?

3637

02:49:56,463 --> 02:49:59,867

Did you think that if you
let them tar and feather you,

3638

02:49:59,901 --> 02:50:02,469

that the world
would forgive you?

3639

02:50:06,007 --> 02:50:07,441

It won't.

3640

02:50:09,811 --> 02:50:11,211

We'll see.

3641

02:50:20,988 --> 02:50:22,990

Goddamn it.

3642

02:50:23,024 --> 02:50:24,491

(sighs)

3643

02:50:24,525 --> 02:50:27,461

(chuckles wryly)

You told me I'd be okay.

3644

02:50:27,494 --> 02:50:29,864

Yeah, well, I didn't have

all the facts, did I?

3645

02:50:29,897 --> 02:50:31,465

Here's a fact.

3646

02:50:31,498 --> 02:50:33,333

President Eisenhower pinned
the Medal of Freedom
