

Dialogues from IO to improve the vocabulary in English

1

00:01:01,130 → 00:01:03,670

[Sam] It's like we were doomed
to destroy our planet.

2

00:01:04,963 → 00:01:07,553

Some say it was
because of the increasing pollution.

3

00:01:09,296 → 00:01:10,876

I just call it human nature.

4

00:01:13,005 → 00:01:15,585

A few scientists predicted
what would happen.

5

00:01:16,421 → 00:01:19,671

They started working on a power station
that could be sent into space

6

00:01:19,755 → 00:01:22,665

to harvest geothermal energy
from other planets.

7

00:01:25,671 → 00:01:26,711

But it was too late.

8

00:01:28,505 → 00:01:30,505

People would start dying in their sleep...

9

00:01:31,671 → 00:01:33,511

suffocating in the streets,

10

00:01:33,588 → 00:01:35,588

the blood in their veins turning black.

11

00:01:36,671 → 00:01:41,051

"An unexpected change
in atmosphere composition," they said.

12

00:01:42,546 → 00:01:47,086

To me it was just our planet desperately
trying to survive by kicking us out.

13

00:01:49,130 → 00:01:53,130

So one day, a hundred ships
flew off into the sky.

14

00:01:58,588 → 00:02:00,258

It was the Exodus mission.

15

00:02:01,921 → 00:02:04,341

They turned the power station
into a colony,

16

00:02:04,838 → 00:02:08,088

like a lifeboat floating above
Jupiter's volcanic moon,

17

00:02:09,130 → 00:02:10,260

also known as...

18

00:02:14,713 → 00:02:16,013

[breathing]

19

00:02:25,130 → 00:02:26,630

[rain falling]

20

00:03:46,296 → 00:03:48,416

[Sam] What do we have here?

21

00:03:54,338 → 00:03:56,958

[automated female voice]

Audio memorandum initiated.

22

00:03:57,755 → 00:04:01,835

[Sam] Begin audio log entry 46809.

23

00:04:02,588 → 00:04:04,708

Researcher ID Sam Walden.

24

00:04:06,046 → 00:04:08,756

I'm looking at what appears to be
rafts of mosquito

25

00:04:08,838 → 00:04:11,128

or midge fly spawn. Period.

26

00:04:11,213 → 00:04:13,303

Something resembling
blooms of black algae

27

00:04:13,380 → 00:04:15,840

identifiable in subsurface ponded water

28

00:04:15,921 → 00:04:19,261

despite minimal opportunity
for chemosynthesis. Period.

29

00:04:21,963 → 00:04:23,133

That's what I thought.

30

00:04:27,505 → 00:04:31,545

Level of toxicity in ambient atmosphere:
severe.

31

00:04:34,255 → 00:04:38,005

Sample 181A. Water-striding insects.

32

00:04:38,505 → 00:04:42,545

Found in a zone apparently in the presence
of a strong concentration of ammonia.

33

00:04:44,505 → 00:04:46,085

Sample 181B.

34

00:04:46,171 → 00:04:48,961

Drawn from sediment strata,
should confirm or disconfirm

35

00:04:49,046 → 00:04:53,506

the presence of bacterium able to use
ammonium as a main oxygen source.

36

00:05:14,338 → 00:05:15,548

[breathing]

37

00:05:25,588 → 00:05:28,508

"A shudder in the loins engenders there,

38

00:05:29,630 → 00:05:33,510

the broken wall,
the burning roof and tower...

39

00:05:35,046 → 00:05:36,876

and Agamemnon dead."

40

00:05:40,421 → 00:05:41,961

[breathing]

41

00:05:48,213 → 00:05:50,213

[heavy breathing]

42

00:06:06,171 → 00:06:07,961

Plants are changing colors.

43

00:06:26,921 → 00:06:29,011

[beeping]

44

00:06:31,546 → 00:06:32,546

[exhales]

45

00:06:47,880 → 00:06:49,880

[panting]

46

00:07:09,755 → 00:07:11,335

[engine starts]

47

00:08:13,213 → 00:08:14,213

[Sam] Elon.

48

00:08:15,005 → 00:08:16,665

I keep having this dream.

49

00:08:17,463 → 00:08:18,633

I'm on a beach.

50

00:08:19,671 → 00:08:22,421

I can feel the wind blowing in my hair,

51

00:08:23,338 → 00:08:26,008

hear the sound of the waves
crashing on the shore.

52

00:08:27,213 → 00:08:28,343

I can breathe.

53

00:08:42,671 → 00:08:43,711

[exhales]

54

00:08:49,546 → 00:08:51,086

[beeping]

55

00:08:53,338 → 00:08:55,958

[Sam] You won't believe
what I discovered this morning.

56

00:08:56,046 → 00:08:59,506

Anaerobic reproduction
in a water-striding insect colony.

57

00:09:00,255 → 00:09:02,125

Yet another new species.

58

00:09:02,755 → 00:09:03,755

Surviving.

59

00:09:05,130 → 00:09:08,130

Imagine if the bees could adapt

like those insects.

60

00:09:08,213 → 00:09:10,173

It would prove that my dad is right.

61

00:09:10,921 → 00:09:13,591

Earth is not dying, it's being reborn.

62

00:09:13,671 → 00:09:14,801

[keyboard clacking]

63

00:09:14,880 → 00:09:17,460

I know things aren't easy
on the IO Colony, but...

64

00:09:18,130 → 00:09:19,340

please write back soon.

65

00:09:20,255 → 00:09:21,375

I love you, Elon.

66

00:09:22,088 → 00:09:24,168

From Earth until the end of the universe.

67

00:09:24,880 → 00:09:25,880

Sam.

68

00:09:44,255 → 00:09:45,415

[whispers] I'm sorry.

69

00:10:01,796 → 00:10:02,916

[inhales]

70

00:10:12,880 → 00:10:14,170

[gas hissing]

71

00:10:27,421 → 00:10:28,421

[hissing stops]

72

00:10:38,088 → 00:10:39,088

[Elon] Dear Sam,

73

00:10:39,796 → 00:10:42,626

your scientific discoveries

never cease to astound me.

74

00:10:43,338 → 00:10:46,878

Unearthing the last bits of life
hanging onto that dying world...

75

00:10:47,630 → 00:10:48,670

that's amazing.

76

00:10:50,255 → 00:10:53,505

Imagine what you could find
in a whole new galaxy.

77

00:10:55,005 → 00:10:58,755

Just a week from now, we'll have harvested
enough of IO's volcanic energy

78

00:10:58,838 → 00:11:01,668

to power the entire
New World Expedition fleet.

79

00:11:04,171 → 00:11:05,921

Life is in the stars, Sam.

80

00:11:07,005 → 00:11:09,295

Your father can't hold you back
any longer.

81

00:11:10,421 → 00:11:13,381

Very soon, the last pocket of air on Earth
will be gone.

82

00:11:14,796 → 00:11:18,546

You both need to be
on the next Exodus shuttle and come here.

83

00:11:20,046 → 00:11:21,046

I love you.

84

00:11:21,630 → 00:11:23,670

From IO until the end of the universe,

85

00:11:24,796 → 00:11:25,796

Elon.

86

00:11:57,880 → 00:11:59,960

This is Doctor Harry Walden,

87

00:12:00,046 → 00:12:02,876

transmitting on frequency 90-43,

88

00:12:02,963 → 00:12:06,673

listening on frequency

95-60 kilohertz daily.

89

00:12:08,713 → 00:12:11,883

The world we once called home
appears to have turned against us.

90

00:12:12,838 → 00:12:17,918

However bleak the situation may seem,
death is only a part of the process.

91

00:12:19,046 → 00:12:21,876

The fundamental principle of nature
is survival.

92

00:12:23,213 → 00:12:27,173

More than in our DNA,
it is in our mind, in our soul,

93

00:12:27,255 → 00:12:29,375
to seek life no matter what.

94

00:12:32,796 → 00:12:35,666
Plant life has already evolved
to resist ammonia toxicity.

95

00:12:36,838 → 00:12:39,298
Once bees and other pollinators adapt,

96

00:12:39,380 → 00:12:41,380
our model predicts vegetation growth

97

00:12:41,463 → 00:12:44,673
will decontaminate the air
in less than 20 years.

98

00:12:47,296 → 00:12:50,086
We take to the stars
in search of our salvation,

99

00:12:50,171 → 00:12:51,961

but we fail to recognize

100

00:12:52,046 → 00:12:55,706

that we are already on the most
significantly equipped spaceship.

101

00:12:56,630 → 00:12:59,670

People can, and inevitably will,

102

00:12:59,755 → 00:13:03,005

adapt and flourish again
on our beautiful planet.

103

00:13:05,088 → 00:13:07,798

Don't lose yourself
looking into the darkness of space.

104

00:13:08,380 → 00:13:11,710

Your home is shining blue
just in front of your eyes.

105

00:13:15,921 → 00:13:19,171

Safe travels and hope
to welcome you here among us soon.

106

00:14:30,046 → 00:14:32,046

[classical music playing]

107

00:15:55,380 → 00:15:58,710

[Harry] Generally, the queen bee
is marked so she's easy to find.

108

00:15:59,296 → 00:16:01,666

But sometimes she's replaced
during a season.

109

00:16:02,671 → 00:16:05,171

In thousands of bees,
she blends in pretty well,

110

00:16:05,255 → 00:16:06,085

[computer chimes]

111

00:16:06,171 → 00:16:09,801

but if you look closely, you'll notice
her thorax, her middle segment, is...

112

00:16:09,880 → 00:16:11,840

is not like the worker bees...

113

00:16:15,213 → 00:16:16,963

[Elon] There's amazing news here, Sam.

114

00:16:17,671 → 00:16:21,301

The council officially announced
the first New World Expedition.

115

00:16:21,380 → 00:16:23,260

They chose Proxima Centauri.

116

00:16:23,755 → 00:16:28,415

The exoplanet Proxima B
really is a near-identical Earth twin.

117

00:16:28,505 → 00:16:30,295

It takes ten years to get there.

118

00:16:30,921 → 00:16:34,131

All my friends are applying
for the mission. They need engineers.

119

00:16:35,671 → 00:16:38,051

But it has grave implications
for the Exodus program.

120

00:16:38,130 → 00:16:39,130

[Sam] Damn it.

121

00:16:47,546 → 00:16:49,006

[engine starts]

122

00:17:21,546 → 00:17:22,626

[brakes screech]

123

00:17:24,713 → 00:17:25,843

[engine stops]

124

00:17:34,338 → 00:17:36,338

[breathing]

125

00:18:34,213 → 00:18:35,763

[thunder rumbling]

126

00:20:02,005 → 00:20:04,005

[alarm blaring]

127

00:20:14,755 → 00:20:16,755

[breathing]

128

00:20:35,255 → 00:20:37,835

[Elon] The Council's decision
changes everything.

129

00:20:37,921 → 00:20:41,131

Effective immediately,
all spacecraft personnel,

130

00:20:41,213 → 00:20:42,633

energy, everything

131

00:20:42,713 → 00:20:45,133

has been redirected
to the New World Expeditions.

132

00:20:46,171 → 00:20:48,341

The Exodus shuttles
that are on Earth right now

133

00:20:48,421 → 00:20:50,131

will launch in four days

134

00:20:50,213 → 00:20:52,133

and will be the last ever sent to IO.

135

00:20:53,713 → 00:20:55,713

You have to leave with your father, Sam.

136

00:20:57,046 → 00:20:58,956

The universe is calling for us.

137

00:20:59,713 → 00:21:00,713

Can't you hear it?

138

00:21:00,796 → 00:21:02,376

[wind blowing]

139

00:22:14,505 → 00:22:16,505

[panting]

140

00:22:18,713 → 00:22:21,173

[screams]

141

00:23:24,088 → 00:23:26,708

[Sam] A giant storm

hit our camp yesterday.

142

00:23:28,505 → 00:23:31,835

My father's entire bee colony is gone.

143

00:23:33,463 → 00:23:35,093

All the progress we'd made,

144

00:23:35,880 → 00:23:37,760

dozens of new genetic strains,

145

00:23:38,380 → 00:23:39,380

all lost.

146

00:23:42,713 → 00:23:44,593

I don't know what I'm supposed to do.

147

00:23:46,296 → 00:23:49,626

Even if I accept that you might be right
about going to IO,

148

00:23:50,546 → 00:23:53,546

we can't carry enough oxygen
with the ATVs.

149

00:23:55,005 → 00:23:57,705

I don't think we could ever make it
to the launch site.

150

00:24:18,046 → 00:24:19,706

[rustling]

151

00:24:37,838 → 00:24:39,838

[metallic creaking]

152

00:25:10,713 → 00:25:11,963

[metallic thud]

153

00:25:15,421 → 00:25:16,921

[clanging]

154

00:25:37,005 → 00:25:38,005

[sighs]

155

00:25:55,505 → 00:25:57,455

I'm here for Dr. Harry Walden.

156

00:25:59,338 → 00:26:01,168

I heard the radio transmission.

157

00:26:09,380 → 00:26:10,510

Can I have some water?

158

00:26:48,546 → 00:26:51,206

It's only cloudy like that

because of the charcoal.

159

00:26:52,338 → 00:26:55,798

We filter our drinking water through sand
and charcoal. It's all it needs.

160

00:27:05,630 → 00:27:06,630

Is he in there?

161

00:27:10,088 → 00:27:11,918

I'm Dr. Walden's research assistant.

162

00:27:13,880 → 00:27:15,600

I'm sure I can answer
any of your questions.

163

00:27:15,630 → 00:27:17,420

I'm here to see Dr. Walden.

164

00:27:18,338 → 00:27:19,548

Not you.

165

00:27:19,630 → 00:27:20,960

Not anybody else.

166

00:27:22,963 → 00:27:24,713

[thunder rumbles]

167

00:27:28,546 → 00:27:30,546

[rain pattering]

168

00:27:33,546 → 00:27:34,626

[door closes]

169

00:27:43,671 → 00:27:47,671

We haven't had anyone make the pilgrimage
to see Dr. Walden in a long time.

170

00:27:49,921 → 00:27:50,921

Pilgrimage?

171

00:27:53,338 → 00:27:54,668

Why you're here, isn't it?

172

00:27:58,421 → 00:27:59,631

To meet Dr. Walden.

173

00:28:01,630 → 00:28:03,210

Where did you say he was again?

174

00:28:04,296 → 00:28:05,956

He's off in the mountain right now,

175

00:28:06,338 → 00:28:08,088

gathering specimens for our work.

176

00:28:08,171 → 00:28:09,761

I need you to take me to him.

177

00:28:10,296 → 00:28:13,206

I can't. I don't know his exact location.

178

00:28:17,671 → 00:28:18,711

Where's everyone else?

179

00:28:22,921 → 00:28:23,921

There is no one else.

180

00:28:37,713 → 00:28:38,713

I'll wait.

181

00:28:42,838 → 00:28:44,008

You're going to Exodus.

182

00:28:46,505 → 00:28:47,505

What?

183

00:28:48,046 → 00:28:49,046

Your balloon.

184

00:28:51,088 → 00:28:53,378

You're going
to the final Exodus launch to IO?

185

00:28:55,838 → 00:28:56,838

That's right.

186

00:29:02,380 → 00:29:04,880

It sure took you long enough
to decide to leave Earth.

187

00:29:06,546 → 00:29:07,706

I'll fix you some food.

188

00:29:08,671 → 00:29:09,671

No.

189

00:29:10,255 → 00:29:12,505

I'm not gonna take any of your food.

190

00:29:12,588 → 00:29:13,588

[Sam] We have plenty.

191

00:29:20,588 → 00:29:22,168

You have fresh vegetables?

192

00:29:23,588 → 00:29:25,548

Yeah. I have an entire greenhouse.

193

00:29:39,255 → 00:29:40,545

It's better with that.

194

00:29:55,463 → 00:29:56,513

Huh.

195

00:30:03,921 → 00:30:06,421

Do you know

if there's any animals left in the sea?

196

00:30:08,005 → 00:30:10,125

I've always really wanted

to go to the ocean.

197

00:30:11,713 → 00:30:12,713

No.

198

00:30:13,005 → 00:30:14,005

There's nothing.

199

00:30:15,338 → 00:30:16,588

There's nothing anywhere.

200

00:30:24,005 → 00:30:25,295

Even the birds all died.

201

00:30:26,838 → 00:30:28,628

You'd think they could
live up high like us.

202

00:30:28,713 → 00:30:31,093

Yeah. Birds gotta land too, you know.

203

00:30:34,588 → 00:30:35,918

Have you ever seen a swan?

204

00:30:40,796 → 00:30:41,796

Yeah.

205

00:30:42,130 → 00:30:43,710

Yeah, when I was a kid..

206

00:30:45,838 → 00:30:46,838

Right.

207

00:30:48,130 → 00:30:49,210

You're from before.

208

00:30:51,338 → 00:30:52,338

Yeah.

209

00:30:54,338 → 00:30:55,918

You've seen other cities?

210

00:30:56,505 → 00:30:57,585

Just from the sky.

211

00:31:00,171 → 00:31:01,461

Is it the same everywhere?

212

00:31:02,880 → 00:31:04,460

Yeah, it's the same everywhere.

213

00:31:10,463 → 00:31:12,689

I don't believe you.

No way you could've seen everywhere.

214

00:31:12,713 → 00:31:14,633

When is Dr. Walden getting back?

215

00:31:17,838 → 00:31:19,298

Sometimes he's gone for days.

216

00:31:28,130 → 00:31:30,300

[machines beeping]

217

00:31:30,380 → 00:31:32,090

[keyboard clacking]

218

00:31:32,171 → 00:31:33,261

[electronic whirring]

219

00:31:38,421 → 00:31:40,961

You have

a lot of electronic equipment in here.

220

00:31:44,838 → 00:31:47,588

[Sam] We scavenge

and salvage what we can from the zone.

221

00:31:48,880 → 00:31:50,460

[Micah] What are you doing?

222

00:31:50,546 → 00:31:53,256

[Sam] We're trying to establish
a variant breed of honeybees

223

00:31:53,338 → 00:31:55,548

that can adapt to the toxic atmosphere.

224

00:31:55,630 → 00:31:58,590

Immunogenics is
pretty fascinating actually.

225

00:31:58,671 → 00:32:00,961

No, right now.

What are you doing right now?

226

00:32:01,713 → 00:32:02,923

[Sam] Oh, um...

227

00:32:03,963 → 00:32:05,133

I'm writing a letter.

228

00:32:06,838 → 00:32:08,958

What are you talking about? To who?

229

00:32:09,046 → 00:32:10,416

Someone on the Colony.

230

00:32:13,838 → 00:32:15,378

You have contact with IO?

231

00:32:16,588 → 00:32:18,298

My friend Elon is an engineer

232

00:32:18,380 → 00:32:21,050

working on the solar cell mission

to Alpha Centauri.

233

00:32:21,130 → 00:32:24,090

He can access the main transmission link

between Earth and IO.

234

00:32:26,338 → 00:32:28,668

You're gonna have to sleep
in here tonight.

235

00:32:29,588 → 00:32:33,338

Dr. Walden's work is very important
and I can't have you interfering.

236

00:32:36,046 → 00:32:37,796

[Micah] Is that his room there?

237

00:32:39,130 → 00:32:41,090

It's his office and living quarters.

238

00:32:43,588 → 00:32:44,588

[click]

239

00:32:45,338 → 00:32:47,418

This is Dr. Harry Walden,

240

00:32:47,505 → 00:32:50,375

transmitting on frequency 90-43,

241

00:32:50,463 → 00:32:54,133

listening on frequency

95-60 kilohertz daily.

242

00:32:54,546 → 00:32:57,336

That's 31 meters band frequency,

243

00:32:57,421 → 00:32:59,711

- 95-60 kilohertz.

- Is that what I heard?

244

00:33:00,380 → 00:33:01,380

A recording?

245

00:33:02,171 → 00:33:03,421

[Sam] It's protocol.

246

00:33:04,755 → 00:33:06,505

When he's not here, I play the tape.

247

00:33:06,588 → 00:33:08,758

So he's been gone more than two days?

248

00:33:10,838 → 00:33:12,668

Uh... I guess that's right.

249

00:33:15,630 → 00:33:17,260

He'll be back tomorrow probably.

250

00:33:19,296 → 00:33:20,416

What's your name?

251

00:33:22,046 → 00:33:23,046

Micah.

252

00:33:27,005 → 00:33:28,005

I'm Sam.

253

00:33:30,046 → 00:33:31,506

It's nice to meet you, Sam.

254

00:33:51,505 → 00:33:52,795

[wind howling]

255

00:34:31,755 → 00:34:33,295

[Sam] Wanna make yourself useful?

256

00:34:36,880 → 00:34:38,880

[footsteps]

257

00:34:49,963 → 00:34:52,093

I have to repair a broken solar panel too.

258

00:34:54,963 → 00:34:58,593

Should be able to seal it, but it'll never
put out as many amps as it used to.

259

00:34:59,671 → 00:35:01,551

[Micah] You do a lot of work around here.

260

00:35:04,338 → 00:35:05,338

You have a rope?

261

00:35:08,546 → 00:35:09,836

[Micah grunts]

262

00:35:10,380 → 00:35:11,670

[creaking]

263

00:35:18,088 → 00:35:19,338

[metallic clang]

264

00:35:19,421 → 00:35:21,301

[creaking]

265

00:35:25,255 → 00:35:26,915

Looks pretty good, right?

266

00:35:36,171 → 00:35:38,671

[Sam] So, you know my friend Elon

I mentioned before?

267

00:35:39,880 → 00:35:41,800

He's not really my friend.

268

00:35:42,380 → 00:35:46,050

Well, he is, but he's,

you know, more than that.

269

00:35:46,130 → 00:35:47,170

Is that right?

270

00:35:49,088 → 00:35:50,378

How does that work?

271

00:35:50,963 → 00:35:52,173

[Sam] A lot of letters,

272

00:35:52,671 → 00:35:53,711

a lot of, uh...

273

00:35:54,963 → 00:35:55,963

loneliness.

274

00:35:56,046 → 00:35:56,876

[sighs]

275

00:35:56,963 → 00:35:59,013

What about you? Do you have a wife?

276

00:35:59,588 → 00:36:00,588

No.

277

00:36:03,546 → 00:36:05,296

I guess you must think it's stupid.

278

00:36:07,255 → 00:36:09,045

[sighs] What?

279

00:36:10,130 → 00:36:11,130

Me and Elon.

280

00:36:11,921 → 00:36:12,921

I mean...

281

00:36:14,296 → 00:36:18,706

Do you think it's absurd to love someone
that's millions of miles away?

282

00:36:20,796 → 00:36:21,796

Not at all.

283

00:36:23,838 → 00:36:27,878

So ancient is the desire for one another
which is implanted in us.

284

00:36:29,213 → 00:36:31,633

Reuniting our original nature,

285

00:36:31,713 → 00:36:33,843

seeking to make one of two

286

00:36:34,796 → 00:36:36,376

and healing the state of man.

287

00:36:39,713 → 00:36:40,713

What's that?

288

00:36:42,130 → 00:36:43,130

Plato.

289

00:36:44,088 → 00:36:45,338

Symposium.

290

00:36:52,088 → 00:36:53,088

What does it mean?

291

00:36:58,005 → 00:36:59,045

He says...

292

00:37:00,880 → 00:37:03,510

humans originally had two faces.

293

00:37:04,463 → 00:37:06,463

Four arms, four legs.

294

00:37:08,088 → 00:37:09,588

And they were happy like that.

295

00:37:11,088 → 00:37:12,088

Complete.

296

00:37:14,338 → 00:37:16,258

Then they defied the gods,

297

00:37:17,338 → 00:37:20,168

so the gods split us in two as punishment.

298

00:37:21,588 → 00:37:23,918

Tore us away from our other halves.

299

00:37:27,296 → 00:37:30,126

He said each of us, when separated,

300

00:37:30,213 → 00:37:33,093

is always looking for our other half.

301

00:37:35,838 → 00:37:36,838

It's our nature.

302

00:37:39,171 → 00:37:41,381

But when one is met
with this other half...

303

00:37:43,505 → 00:37:46,705

the pair are lost in an amazement of love,

304

00:37:47,505 → 00:37:48,585

friendship,

305

00:37:49,713 → 00:37:50,713

intimacy.

306

00:37:53,463 → 00:37:56,263

And one will not be seen
out of the other's sight.

307

00:37:58,421 → 00:37:59,841

See, the reason is...

308

00:38:01,130 → 00:38:06,260

human nature was once originally one.

309

00:38:08,963 → 00:38:09,963

And we were whole.

310

00:38:10,963 → 00:38:14,213

And the desire
and the pursuit of the whole...

311

00:38:16,463 → 00:38:17,713

is called love.

312

00:38:21,505 → 00:38:22,505

Wow.

313

00:38:28,171 → 00:38:29,801

You know a lot about this stuff.

314

00:38:31,255 → 00:38:32,665

I was gonna be a teacher...

315

00:38:34,130 → 00:38:35,130

once.

316

00:38:37,921 → 00:38:39,671

I wasn't gonna tell you this...

317

00:38:43,963 → 00:38:45,673

Harry Walden is my father.

318

00:38:47,546 → 00:38:48,546

No.

319

00:38:49,255 → 00:38:50,255

Really?

320

00:38:50,796 → 00:38:52,336

[laughing]

321

00:39:02,421 → 00:39:03,461

[Sam] Come with me.

322

00:39:06,963 → 00:39:09,923

Bees used to do

almost all the pollinating, but...

323

00:39:11,213 → 00:39:12,843

now I have to do it all by hand.

324

00:39:15,130 → 00:39:17,340

- The three sisters.

- [Sam] Yeah.

325

00:39:17,421 → 00:39:19,671

Corn provides the structure
for the beans to climb,

326

00:39:19,755 → 00:39:22,255

squash spreads out over the soil
like mulch,

327

00:39:22,338 → 00:39:24,168

and that keeps the moisture in.

328

00:39:24,255 → 00:39:26,755

And then the beans
provide the nitrogen in return.

329

00:39:27,838 → 00:39:29,128

Everybody wins.

330

00:39:31,171 → 00:39:32,591

What are those tattoos?

331

00:39:34,463 → 00:39:36,213

E to the i pi plus one equals zero.

332

00:39:37,755 → 00:39:39,005

It's Euler's equation.

333

00:39:40,296 → 00:39:42,666

But this one's my absolute favorite.

It's, uh...

334

00:39:43,213 → 00:39:45,053

Nowak's Evolvability Equation.

335

00:39:46,255 → 00:39:49,085

Symbols on the left represent
all possible strings of molecules

336

00:39:49,171 → 00:39:52,841

and symbols on the right represent
selection pressures and fitness ratings.

337

00:39:54,338 → 00:39:58,628

Basically that just means, um...
all that's necessary for life to emerge

338

00:39:58,713 → 00:40:02,383

are molecules subject to forces
of selection and mutation.

339

00:40:02,796 → 00:40:05,876

If those conditions are met,
self-replication emerges.

340

00:40:11,171 → 00:40:12,171

People can change.

341

00:40:17,380 → 00:40:19,380

Don't you see how important that is?
I mean...

342

00:40:19,463 → 00:40:21,713

What about the markings on your rib cage?

343

00:40:23,505 → 00:40:27,045

Uh... It's nothing. It's just something
we do as part of our research.

344

00:40:28,921 → 00:40:30,631

We do it to build up our immunity.

345

00:40:32,963 → 00:40:33,963

Does it hurt?

346

00:40:36,046 → 00:40:37,046

Not that bad.

347

00:40:53,838 → 00:40:54,838

That's Lucy.

348

00:40:57,463 → 00:40:58,633

How is that possible?

349

00:40:59,213 → 00:41:00,463

[Sam] It's complicated.

350

00:41:03,713 → 00:41:04,923

You see, for my Dad...

351

00:41:06,421 → 00:41:08,461

IO was just a last resort.

352

00:41:11,421 → 00:41:12,421

A lifeboat.

353

00:41:15,296 → 00:41:17,836

- [Micah] What happened to Lucy?

- She died...

354

00:41:19,130 → 00:41:20,130

eventually.

355

00:41:25,255 → 00:41:26,295

She gave us hope.

356

00:41:35,171 → 00:41:36,171

Wait.

357

00:41:37,713 → 00:41:38,803

I wanna see this.

358

00:41:41,338 → 00:41:44,128

[Harry] Planet Earth

is a miracle in the universe.

359

00:41:44,213 → 00:41:47,133

We are its caretakers,

and it is our duty to stay...

360

00:41:48,421 → 00:41:51,091

stay and fight for our world.

361

00:41:51,755 → 00:41:54,545

Humans may have nearly destroyed our home,

362

00:41:54,630 → 00:41:57,260

but we can make it habitable again

363

00:41:57,338 → 00:42:00,168

and we will breathe the air again.

364

00:42:02,046 → 00:42:04,416

The strong, brave souls that will stay,

365

00:42:05,005 → 00:42:06,705

if any do choose to stay,

366

00:42:07,380 → 00:42:10,840

will become a new civilization
of its own design.

367

00:42:13,421 → 00:42:15,301

[man] A special thanks to Dr. Walden.

368

00:42:16,171 → 00:42:17,301

A note to our viewers

369

00:42:17,755 → 00:42:20,085

that this will be our final program

370

00:42:20,171 → 00:42:24,131

due to the shut down of all broadcast
television from midnight tonight.

371

00:42:25,046 → 00:42:26,456

There is too much to say,

372

00:42:26,963 → 00:42:30,803

and I will end the program as I have
every day for the last eight years.

373

00:42:30,880 → 00:42:32,960

From all of us, to all of you...

374

00:42:33,463 → 00:42:34,803

[together] See you tomorrow.

375

00:42:35,880 → 00:42:36,880

[man] Thank you.

376

00:42:47,963 → 00:42:49,263

[footsteps]

377

00:43:23,963 → 00:43:27,213

[Sam] For a long time, you must've
thought it was the right thing to do.

378

00:43:28,838 → 00:43:30,008

Staying on Earth.

379

00:43:31,005 → 00:43:32,005

Right?

380

00:43:32,588 → 00:43:33,878

For a long time.

381

00:43:36,838 → 00:43:37,958

I was foolish.

382

00:43:41,838 → 00:43:43,708

[Sam] I think you were really brave.

383

00:43:46,046 → 00:43:47,706

My dad would have thought so too.

384

00:44:27,171 → 00:44:29,341

So I see you found
my parents' old bedroom.

385

00:44:30,671 → 00:44:32,671

[Micah] Your mother's name
was June, right?

386

00:44:34,130 → 00:44:35,130

Yeah, that's right.

387

00:44:37,713 → 00:44:38,713

How'd you know that?

388

00:44:42,380 → 00:44:43,510

What did he do to her?

389

00:44:45,380 → 00:44:46,380

What do you mean?

390

00:44:47,005 → 00:44:49,505

What did Dr. Walden do
to cause your mother's death?

391

00:44:51,296 → 00:44:52,376

My mom got sick.

392

00:44:54,255 → 00:44:55,255

That's it.

393

00:44:56,213 → 00:44:57,883

[Micah] But he kept her here, right?

394

00:44:57,963 → 00:44:59,593

- He kept all of you here.

- No.

395

00:45:00,338 → 00:45:01,668

What do you mean "no"?

396

00:45:02,213 → 00:45:05,763

Sam, she died because he kept her here.

397

00:45:11,505 → 00:45:12,665

You're wasting my time.

398

00:45:14,713 → 00:45:16,133

I have a lot of work to be doing.

399

00:45:23,671 → 00:45:24,671

Micah!

400

00:45:26,046 → 00:45:27,086

Open the door.

401

00:45:30,005 → 00:45:31,545

[panting]

402

00:45:43,505 → 00:45:45,455

[coughing]

403

00:45:51,213 → 00:45:52,213

[coughs]

404

00:46:02,296 → 00:46:03,796

[Harry] Samantha, listen to me.

405

00:46:04,505 → 00:46:07,335

It's not worth it,
you continuing my experiments.

406

00:46:07,421 → 00:46:09,131

Dad, what are you doing in here?

407

00:46:09,213 → 00:46:11,133

It's my lab, isn't it?

408

00:46:11,213 → 00:46:13,673

You shouldn't be in here,
not without your oxygen.

409

00:46:14,130 → 00:46:15,170

Sam, it's fine.

410

00:46:16,213 → 00:46:18,423

You don't need to take care of me anymore.
I'm fine.

411

00:46:18,505 → 00:46:19,875

[Sam] No, you're not fine.

412

00:46:22,880 → 00:46:23,880

Where have you been?

413

00:46:25,213 → 00:46:26,213

Walking.

414

00:46:27,213 → 00:46:28,303

Sam, it's...

415

00:46:29,755 → 00:46:33,335

If there was a discovery, a miracle
discovery, I would've found it.

416

00:46:34,630 → 00:46:35,710

What about Lucy?

417

00:46:43,296 → 00:46:44,416

How are things with Elon?

418

00:46:47,338 → 00:46:49,048

I'm not talking to you about that.

419

00:46:50,630 → 00:46:51,630

Sam...

420

00:46:53,838 → 00:46:55,958

Don't underestimate
the power of human connection.

421

00:46:56,713 → 00:46:57,803

That's all there is.

422

00:46:59,421 → 00:47:00,801

There is no bigger meaning.

423

00:47:01,546 → 00:47:03,666

Just human connection.

424

00:47:03,755 → 00:47:05,665

You used to say that about science.

425

00:47:08,630 → 00:47:10,130

Sam, we have to leave this place.

426

00:47:13,005 → 00:47:14,755

Sooner or later you'll have to.

427

00:47:20,963 → 00:47:22,423

You're all alone here.

428

00:47:26,630 → 00:47:27,630

I'm not alone.

429

00:47:28,755 → 00:47:30,295

I don't count.

430

00:47:32,171 → 00:47:33,171

Why not?

431

00:47:38,380 → 00:47:39,380

I'm dead.

432

00:47:48,255 → 00:47:50,125

[Sam] My dad buried my mom here.

433

00:47:52,963 → 00:47:54,423

I buried him here beside her.

434

00:47:59,588 → 00:48:01,258

I'm sorry I yelled at you.

435

00:48:04,546 → 00:48:07,706

I have to tell you something, Sam,
and you're not gonna like it.

436

00:48:10,171 → 00:48:12,511

I've decided I'm taking you to Exodus.

437

00:48:13,755 → 00:48:15,705

And I can get you there in the balloon.

438

00:48:16,421 → 00:48:19,211

You won't understand it now,
but it's not up for debate.

439

00:48:20,005 → 00:48:22,165

You've got your entire life ahead of you.

440

00:48:23,796 → 00:48:25,956

And I'm not gonna leave you here alone.

441

00:48:30,130 → 00:48:31,920

Do you understand what I'm saying?

442

00:48:33,213 → 00:48:34,713

I'm taking you away from here.

443

00:48:36,796 → 00:48:39,166

You're going to IO

and you're never coming back.

444

00:48:41,588 → 00:48:42,588

Okay.

445

00:48:49,588 → 00:48:50,588

Okay.

446

00:48:57,130 → 00:48:58,130

Good.

447

00:49:04,880 → 00:49:05,920

When do we leave?

448

00:49:09,838 → 00:49:10,838

Soon.

449

00:49:13,005 → 00:49:16,125

We'll have to plot our course
and wait for favorable wind conditions,

450

00:49:16,213 → 00:49:17,423

but it has to be soon.

451

00:49:18,755 → 00:49:21,585

We've a long way to travel
and we're running out of days.

452

00:49:38,338 → 00:49:40,338

[wind whistling]

453

00:49:56,546 → 00:49:57,796

[keyboard clacking]

454

00:50:18,130 → 00:50:19,130

[Sam] Elon.

455

00:50:20,088 → 00:50:21,088

I have good news.

456

00:50:23,005 → 00:50:26,835

A traveler arrived at the Enclave today
in a helium balloon.

457

00:50:27,963 → 00:50:29,263

I thought I was dreaming.

458

00:50:30,713 → 00:50:31,923

His name is Micah.

459

00:50:33,421 → 00:50:39,051

I'm not even sure where he's from
or how he's survived this long on Earth.

460

00:50:41,671 → 00:50:43,801

He's offered to take me to Exodus.

461

00:50:46,213 → 00:50:47,263

And I've agreed.

462

00:50:49,880 → 00:50:51,590

My life on Earth is over.

463

00:50:53,505 → 00:50:55,295

It's been over for a long time.

464

00:50:57,380 → 00:51:01,090

We'll finally be together on IO,
just like you've always wanted.

465

00:51:03,671 → 00:51:05,631

Are there oceans on Centauri B?

466

00:51:10,088 → 00:51:11,378

Write back soon, okay?

467

00:51:12,380 → 00:51:13,960

I really need to hear from you.

468

00:51:55,588 → 00:51:59,758

We're gonna have to wait for the wind
to change direction before we can leave.

469

00:51:59,838 → 00:52:00,838

It will.

470

00:52:05,421 → 00:52:08,091

What were you gonna do
if I hadn't shown up here, Sam?

471

00:52:09,380 → 00:52:11,060

You know, people aren't meant to be alone.

472

00:52:13,713 → 00:52:15,133

You think I don't know that?

473

00:52:27,630 → 00:52:29,300

I'll go and get the rest of them.

474

00:52:50,671 → 00:52:51,671

Fuck.

475

00:52:56,921 → 00:52:58,261

Oh, fuck.

476

00:53:03,171 → 00:53:04,551

You're never gonna believe this.

477

00:53:06,963 → 00:53:08,093

Come on.

478

00:53:14,338 → 00:53:15,338

That's how I found them.

479

00:53:16,088 → 00:53:18,008

I think it's trapped under that grate.

480

00:53:19,921 → 00:53:20,921

She.

481

00:53:22,505 → 00:53:23,335

What?

482

00:53:23,421 → 00:53:24,461

She's trapped.

483

00:53:26,671 → 00:53:29,171

The holes are big enough
to let the workers and drones through,

484

00:53:29,255 → 00:53:31,005

but they're too small for her.

485

00:53:34,005 → 00:53:37,125

She must have just hatched,
which means she's a virgin queen.

486

00:53:45,171 → 00:53:46,591

How is that possible?

487

00:53:50,338 → 00:53:51,338

I don't know.

488

00:53:55,171 → 00:53:56,301

So what does it mean?

489

00:54:05,213 → 00:54:06,343

It doesn't mean anything.

490

00:54:45,463 → 00:54:46,673

[computer chimes]

491

00:54:49,921 → 00:54:50,921

[Elon] Sam...

492

00:54:51,838 → 00:54:54,958

thank God you made the decision
to travel to the Exodus launch.

493

00:54:56,046 → 00:54:58,416

I'm sorry I haven't been able
to write sooner,

494

00:54:58,505 → 00:55:00,455

but there's been a change here as well.

495

00:55:03,213 → 00:55:05,383

Yesterday my commanding officer
asked me to join

496

00:55:05,463 → 00:55:08,173

the first New World Expedition shuttle.

497

00:55:09,963 → 00:55:11,383

This morning I accepted.

498

00:55:12,338 → 00:55:15,418

I hope you of all people
will understand that I had no choice.

499

00:55:18,963 → 00:55:20,213

This is my destiny,

500

00:55:21,296 → 00:55:22,296

my purpose.

501

00:55:24,421 → 00:55:25,671

We can still be together,

502

00:55:27,130 → 00:55:29,170

but it won't be for many, many years.

503

00:55:29,255 → 00:55:30,255

[cries]

504

00:55:32,171 → 00:55:33,921

Please write back before you leave.

505

00:55:34,921 → 00:55:37,772

All transmission links with Earth
will be cut after the final Exodus launch

506

00:55:37,796 → 00:55:41,256

and I am desperate to receive
one last letter from you before I leave.

507

00:55:46,546 → 00:55:47,626

All my love,

508

00:55:48,380 → 00:55:51,300

from IO until the end of the universe,

509

00:55:52,838 → 00:55:53,838

Elon.

510

00:56:30,380 → 00:56:32,210

[Micah] You ever have squash spaghetti?

511

00:56:48,921 → 00:56:50,011

What was it like?

512

00:56:52,505 → 00:56:53,505

Before.

513

00:56:57,338 → 00:56:59,668

I'm sure your father told you
what it was like.

514

00:57:02,255 → 00:57:04,375

I want to know what it was like for you.

515

00:57:08,171 → 00:57:09,171

Where are you from?

516

00:57:10,880 → 00:57:12,590

I grew up in the suburbs.

517

00:57:14,380 → 00:57:15,380

In a neighborhood.

518

00:57:18,921 → 00:57:24,131

By the time I was old enough,
I was in the city every chance I got.

519

00:57:30,380 → 00:57:31,760

We weren't ready for this.

520

00:57:34,588 → 00:57:37,588

No matter what warning we got
from people like your father.

521

00:57:39,338 → 00:57:41,008

What we saw with our own eyes.

522

00:57:44,838 → 00:57:46,798

The future we got was unthinkable.

523

00:57:53,796 → 00:57:54,796

For everybody.

524

00:58:00,755 → 00:58:02,915

Unexpected things can be good too.

525

00:58:31,755 → 00:58:33,295

[water running]

526

00:58:49,713 → 00:58:51,013

[sighs]

527

00:59:16,255 → 00:59:17,255

[glass shatters]

528

00:59:19,713 → 00:59:21,713

[wind whistling]

529

00:59:30,130 → 00:59:31,130

[door opens]

530

00:59:31,380 → 00:59:32,380

Damn it!

531

00:59:34,505 → 00:59:37,915

We'll never be able to get off the ground
if the wind doesn't change.

532

00:59:59,838 → 01:00:00,838

Trust me.

533

01:00:05,421 → 01:00:06,511

It'll change.

534

01:00:45,921 → 01:00:47,921

[classical music playing]

535

01:01:11,088 → 01:01:12,168

That song.

536

01:01:17,880 → 01:01:19,380

I remember that song.

537

01:02:11,088 → 01:02:12,088

I'm sorry.

538

01:02:20,005 → 01:02:21,005

It's okay.

539

01:02:53,171 → 01:02:54,171

I can't.

540

01:03:03,838 → 01:03:04,838

We have to.

541

01:03:31,338 → 01:03:34,338

[Sam] Do you see the glimmer?

To the left of Jupiter?

542

01:03:37,171 → 01:03:38,461

[Micah] Is that the Colony?

543

01:03:40,546 → 01:03:41,546

[Sam] It's the Colony.

544

01:03:44,838 → 01:03:46,168

It's actually orbiting IO,

545

01:03:46,255 → 01:03:50,295

but the Colony's so much brighter
in the sky that IO becomes obscured.

546

01:03:55,380 → 01:03:56,760

I never thought I'd see it.

547

01:04:06,755 → 01:04:07,755

There's this...

548

01:04:09,921 → 01:04:12,761

art exhibit I really wanted to see.

549

01:04:15,130 → 01:04:16,130

An art exhibit?

550

01:04:19,588 → 01:04:20,758

The Museum of Art.

551

01:04:23,880 → 01:04:26,010

It's one of the last exhibits from before.

552

01:04:28,546 → 01:04:29,626

"Modern Myths."

553

01:04:32,796 → 01:04:35,166

Would you have taught
your students about myths?

554

01:04:37,505 → 01:04:38,505

Yeah.

555

01:04:40,046 → 01:04:41,256

I think I would have.

556

01:04:46,796 → 01:04:48,796

[keyboard clacking]

557

01:04:48,880 → 01:04:51,210

[Sam] 4.36 light years away.

558

01:04:54,588 → 01:04:56,338

Is that the same as saying forever?

559

01:05:00,046 → 01:05:05,876

The space between us will become more vast
until it's too far to cross.

560

01:05:09,505 → 01:05:11,045

I've lied to you, Elon.

561

01:05:13,880 → 01:05:15,050

My father's dead.

562

01:05:16,963 → 01:05:19,013

He's been dead for a long time now.

563

01:05:20,755 → 01:05:23,045

It was my decision, all along,

564

01:05:24,130 → 01:05:25,300

to stay on Earth.

565

01:05:29,255 → 01:05:32,005

I think we're both looking
for worlds to call our own...

566

01:05:34,713 → 01:05:35,923

but different ones.

567

01:05:39,630 → 01:05:41,050

I hope you find yours.

568

01:06:34,963 → 01:06:36,923

[electronic whirring]

569

01:06:37,005 → 01:06:39,045

[robotic female voice]

Attention. Urgent notice.

570

01:06:39,130 → 01:06:40,880

Due to catastrophic weather event,

571

01:06:40,963 → 01:06:45,673

Exodus shuttle number 127

is unable to launch.

572

01:06:45,755 → 01:06:50,045

Your departure

has been changed to Exodus 134

573

01:06:50,130 → 01:06:54,840

at 49.5466 degrees

574

01:06:54,921 → 01:06:59,801

by 16.4059 degrees.

575

01:06:59,880 → 01:07:06,170

Exodus shuttles will begin embarkation

in 26 hours and 12 minutes.

576

01:07:11,338 → 01:07:13,048

[Micah] They moved the launch site.

577

01:07:13,130 → 01:07:15,760

What are you talking about?

Is that a problem?

578

01:07:15,838 → 01:07:18,298

We don't have enough helium
to fly that far!

579

01:07:18,713 → 01:07:20,053

We're stuck here!

580

01:07:24,671 → 01:07:25,671

It's never gonna end.

581

01:07:27,713 → 01:07:29,013

I must be cursed.

582

01:07:30,796 → 01:07:31,836

What do you mean?

583

01:07:33,171 → 01:07:35,091

You wanna know why I really came here?

584

01:07:37,671 → 01:07:38,671

Huh?

585

01:07:39,421 → 01:07:41,711

Your father told us to stay on Earth.

586

01:07:43,463 → 01:07:46,633

I saw dozens of people starve to death
because of him.

587

01:07:48,171 → 01:07:49,671

Because he gave us hope.

588

01:07:56,630 → 01:07:57,920

My wife was sick.

589

01:08:01,171 → 01:08:04,671

Food would have kept her alive
for a few more days, but...

590

01:08:05,963 → 01:08:06,963

that was all.

591

01:08:08,713 → 01:08:10,463

Then the food would have been gone.

592

01:08:18,838 → 01:08:21,378

I hid rations so I could survive.

593

01:08:26,088 → 01:08:27,878

I watched my wife die...

594

01:08:31,463 → 01:08:33,053

so I could be the survivor.

595

01:08:35,921 → 01:08:37,421

I couldn't live with that.

596

01:08:41,255 → 01:08:42,875

So I came here to find him.

597

01:08:48,463 → 01:08:50,593

And all I found was you instead.

598

01:09:00,588 → 01:09:05,298

I won't make the same mistake twice
and let you die too.

599

01:09:19,505 → 01:09:20,505

Thank you.

600

01:09:26,463 → 01:09:27,923

Thank you for telling me, Micah.

601

01:09:40,630 → 01:09:42,260

I know where we can get helium.

602

01:09:46,213 → 01:09:47,213

It's in the zone.

603

01:09:49,838 → 01:09:50,878

It's really far.

604

01:09:52,838 → 01:09:54,508

It's farther than I've ever gone.

605

01:09:57,380 → 01:10:00,050

We'd have to stay longer
than I've ever stayed before.

606

01:10:04,338 → 01:10:06,298

We'd need to stay the night there.

607

01:10:06,380 → 01:10:08,050

It's not possible, Sam.

608

01:10:09,213 → 01:10:10,213

It's possible.

609

01:10:12,796 → 01:10:13,796

I think.

610

01:10:15,921 → 01:10:17,011

Adapt or die.

611

01:10:18,171 → 01:10:19,421

Isn't that what they say?

612

01:10:49,630 → 01:10:51,050

This is Sam Walden.

613

01:10:52,880 → 01:10:57,090

Transmitting on a frequency
90.43 kilohertz daily.

614

01:10:59,671 → 01:11:02,671

If anyone's still listening
to these broadcasts...

615

01:11:03,796 → 01:11:05,256

...Doctor Harry Walden,

616

01:11:05,671 → 01:11:09,801

my father, mentor, and best friend,

617

01:11:09,880 → 01:11:10,880

has died.

618

01:11:12,338 → 01:11:16,628

On October 13th of last year,
I buried him next to my mother.

619

01:11:29,921 → 01:11:31,011

[Micah] What about here?

620

01:11:31,755 → 01:11:33,455

You ever been to this part before?

621

01:11:37,380 → 01:11:38,380

Yeah.

622

01:11:39,588 → 01:11:41,588

Should work. It's just a big open field.

623

01:11:41,671 → 01:11:44,841

We'll drop the balloon there.

Then we'll go get the helium.

624

01:11:50,046 → 01:11:51,256

Museum of Art.

625

01:11:53,755 → 01:11:54,755

[Micah sighs]

626

01:11:56,921 → 01:11:57,921

What?

627

01:11:57,963 → 01:11:58,843

Nothing.

628

01:11:58,921 → 01:11:59,921

What?

629

01:12:01,213 → 01:12:02,763

I just need you to focus.

630

01:12:03,796 → 01:12:05,546

We mess up and we die.

631

01:12:07,088 → 01:12:08,258

I am focused.

632

01:12:11,046 → 01:12:13,546

[Sam] This afternoon,

I'll be leaving our enclave

633

01:12:13,630 → 01:12:15,800

to travel to the Exodus launch site.

634

01:12:17,588 → 01:12:21,668

If anyone's receiving this broadcast,
I implore you to do the same.

635

01:12:23,713 → 01:12:27,303

We thought we could find a way
for humans to survive on Earth.

636

01:12:29,713 → 01:12:30,713

We were wrong.

637

01:12:31,713 → 01:12:34,423

This is Sam Walden, over and out.

638

01:13:39,755 → 01:13:40,875

[Micah] Why are we stopped?

639

01:13:41,546 → 01:13:43,006

[Sam] It's incredible, right?

640

01:13:46,213 → 01:13:47,713

[Micah] It's a graveyard, Sam.

641

01:13:48,296 → 01:13:49,796

All I see are ghosts.

642

01:13:59,171 → 01:14:00,921

We're near the launch spot.

643

01:14:01,671 → 01:14:05,261

Let's drop the balloon and get moving.

We've got a lot of ground to cover.

644

01:14:46,380 → 01:14:47,670

[doors creak]

645

01:15:09,046 → 01:15:10,256

[Micah] Sam!

646

01:15:10,796 → 01:15:12,666

- What?

- There's a lot of helium in here.

647

01:15:13,296 → 01:15:14,296

[Sam] I know.

648

01:15:17,296 → 01:15:20,256

[Micah] But that's a good thing, right?

It's why we came.

649

01:15:20,755 → 01:15:22,125

- Right?

- Yeah.

650

01:15:22,213 → 01:15:23,463

[Micah] So, come on.

651

01:15:24,088 → 01:15:25,088

Give me a hand.

652

01:15:28,296 → 01:15:31,876

All right. We get a few more,
and then we camp here for the night.

653

01:15:32,630 → 01:15:34,710

It's getting too dark to travel.

654

01:15:42,005 → 01:15:44,505

[Sam] So you know
how life started on this planet?

655

01:15:45,838 → 01:15:47,208

[Micah] Was it a bacteria?

656

01:15:47,880 → 01:15:48,960

[Sam] Yeah.

657

01:15:49,046 → 01:15:52,046

They came out of the ocean,
and here we are...

658

01:15:52,588 → 01:15:54,418

at the very end of this cycle.

659

01:15:55,380 → 01:15:58,800

[Micah] Do you realize that you might be
the last woman to live on Earth?

660

01:15:58,880 → 01:16:01,010

[Sam] I'm sure
there are other people alive.

661
01:16:01,630 → 01:16:03,260
[Micah] Yeah, on the Colony,

662
01:16:03,796 → 01:16:05,506
working hard to find our new home,

663
01:16:06,546 → 01:16:09,296
where you won't need a gas mask
to take me to a restaurant.

664
01:16:09,380 → 01:16:10,800
[Sam chuckles]

665
01:16:16,296 → 01:16:18,256
[Micah] Now, how does this work?

666
01:16:19,213 → 01:16:21,213
[Sam] Once we switch to fresh tanks,

667

01:16:21,296 → 01:16:23,506

we turn the air valve down 50%.

668

01:16:24,546 → 01:16:25,706

We try to relax.

669

01:16:27,130 → 01:16:28,130

We should be okay.

670

01:16:28,921 → 01:16:30,421

[Micah] You set your alarm?

671

01:16:30,505 → 01:16:31,505

[Sam] Yes.

672

01:16:32,671 → 01:16:34,171

[Micah] Let's do this.

673

01:16:36,880 → 01:16:38,090

[Micah sighs]

674

01:16:47,838 → 01:16:48,958

[air hissing]

675

01:16:50,588 → 01:16:52,298

- [Sam] Is that okay?

- [Micah] Yeah.

676

01:17:39,171 → 01:17:40,671

[gas hissing]

677

01:17:48,088 → 01:17:49,338

[Sam] I'll be right back.

678

01:17:51,046 → 01:17:52,046

[Micah] Sam.

679

01:17:55,380 → 01:17:56,380

Sam.

680

01:17:59,505 → 01:18:00,795

We leave in one hour.

681

01:18:02,421 → 01:18:03,591

[Sam] Yeah.

682

01:18:03,671 → 01:18:04,711

I know.

683

01:18:04,796 → 01:18:05,796

[engine starts]

684

01:19:06,671 → 01:19:08,261

[door opens]

685

01:19:18,338 → 01:19:20,508

[breathing]

686

01:20:22,755 → 01:20:24,125

[gas hissing]

687

01:20:28,880 → 01:20:30,050

[alarm beeping]

688

01:20:40,338 → 01:20:42,128

[breathing]

689

01:21:43,796 → 01:21:45,256

[Micah] We have to go, Sam.

690

01:21:49,046 → 01:21:51,876

[Sam]

"A shudder in the loins engenders there.

691

01:21:53,338 → 01:21:54,798

The broken wall,

692

01:21:55,755 → 01:21:57,545

the burning roof and tower.

693

01:22:00,005 → 01:22:01,755

And Agamemnon dead.

694

01:22:03,796 → 01:22:06,666

So mastered by the brute blood of the air.

695

01:22:08,463 → 01:22:11,963

Did she put on his knowledge

with his power

696

01:22:13,546 → 01:22:16,296

before the indifferent beak
could let her drop?"

697

01:22:21,463 → 01:22:22,463

[Micah] Sam.

698

01:22:24,630 → 01:22:26,050

[Sam] Tell me what it means.

699

01:22:31,130 → 01:22:33,010

[Micah] Leda gave birth to Helen.

700

01:22:35,171 → 01:22:36,261

Helen of Troy.

701

01:22:39,421 → 01:22:41,921

A face that launched a thousand ships.

702

01:22:46,671 → 01:22:49,511

She was considered
the most beautiful woman in the world.

703

01:22:53,005 → 01:22:54,835

Her abduction by Paris,

704

01:22:55,713 → 01:22:56,843

the Prince of Troy...

705

01:22:58,838 → 01:23:00,458

brought upon the Trojan War.

706

01:23:02,963 → 01:23:04,213

The broken wall,

707

01:23:05,338 → 01:23:07,048

the burning roof and tower,

708

01:23:07,880 → 01:23:09,420

and Agamemnon dead.

709

01:23:13,796 → 01:23:16,126

Leda was related to the gods.

710

01:23:19,921 → 01:23:21,381

And the swan is Zeus.

711

01:23:25,463 → 01:23:26,463

Zeus in disguise.

712

01:23:28,963 → 01:23:31,133

Leda gave birth to God's children.

713

01:23:50,630 → 01:23:52,260

You did everything you could.

714

01:23:57,046 → 01:23:58,756

Your father would be proud of you.

715

01:24:08,130 → 01:24:09,130

Let's go.

716

01:24:11,005 → 01:24:12,005

Okay?

717

01:24:23,880 → 01:24:25,340

[Sam] I'm not going with you.

718

01:24:32,005 → 01:24:33,835

You're gonna have to go on your own.

719

01:24:38,338 → 01:24:39,548

[alarm beeping]

720

01:25:01,921 → 01:25:03,211

[Micah] Change your tank.

721

01:25:07,838 → 01:25:10,128

We can talk about it at the launch site.

722

01:25:29,546 → 01:25:31,336

[Sam] I keep having this dream...

723

01:25:32,880 → 01:25:34,130

where I'm in the zone...

724

01:25:35,713 → 01:25:36,713

and...

725

01:25:36,796 → 01:25:38,666

I'm not wearing a mask.

726

01:25:47,671 → 01:25:49,801

I strike my lighter and...

727

01:25:50,880 → 01:25:52,300

it's dark purple.

728

01:25:59,755 → 01:26:00,755

But I'm fine.

729

01:26:04,213 → 01:26:06,303

Everyone sees so much death here...

730

01:26:10,130 → 01:26:11,460

but I see life.

731

01:26:20,671 → 01:26:23,961

Why are you doing this, Sam?

Change your tank.

732

01:26:28,713 → 01:26:29,803

Promise me something.

733

01:26:32,046 → 01:26:34,796

If I survive, tell everyone on IO
that there's a future on Earth.

734

01:26:34,880 → 01:26:36,590

[Micah] Sam! Sam!

735

01:26:37,463 → 01:26:38,463

Sam!

736

01:26:41,005 → 01:26:42,005

[Sam] I'm okay.

737

01:26:45,130 → 01:26:46,130

It's okay.

738

01:26:47,963 → 01:26:48,963

It's okay.

739

01:26:55,671 → 01:26:57,211

[heavy breathing]

740

01:27:08,630 → 01:27:10,630

[wind whistling]

741

01:27:41,463 → 01:27:42,513

[Sam] Dear Micah,

742

01:27:44,838 → 01:27:47,088

my father loved the T.S Eliot quote,

743

01:27:48,505 → 01:27:50,835

"We shall not cease from exploration,

744

01:27:51,713 → 01:27:54,133

and the end of all of our exploring

745

01:27:54,838 → 01:27:56,958

will be to arrive where we started

746

01:27:57,463 → 01:27:59,423

and know the place for the first time."

747

01:28:03,088 → 01:28:04,918

We have learned to fear our planet

748

01:28:05,796 → 01:28:08,256

and fled to the stars

in search of a new one.

749

01:28:11,505 → 01:28:13,705

But the fascination for other worlds

750

01:28:13,796 → 01:28:17,416

could not turn my eyes away

from the beauty of our home.

751

01:28:23,338 → 01:28:25,258

The waves are crashing on the shore...

752

01:28:29,255 → 01:28:31,125

and the wind is blowing in my hair.

753

01:28:35,671 → 01:28:37,131

Tell them it feels good.

754

01:28:40,296 → 01:28:43,506

Tell them the dark clouds have given way
to the ocean mist.

755

01:28:47,838 → 01:28:49,838

Tell them a new world awaits us.

756

01:28:55,005 → 01:28:56,625

Tell them we're waiting for you.

757

01:29:00,671 → 01:29:02,341

Waiting for you to come back.

758

01:29:19,796 → 01:29:21,956

[wind blowing]

759

01:29:40,088 → 01:29:42,168

[waves ebbing and flowing]
